#88 MESSAGE FROM DECEMBER 6, 2023

JESUS CHRIST "JESUS WITH THE CROWN OF THORNS - THE WARNING IS APPROACHING"

During the car ride, Jesus appears to the seer, gigantic in the clouds with his arms outstretched and wearing a long white robe. After a brief shock, the image disappeared again.

Jesus' face then appeared huge in front of their car. She has never seen Him like this, so close and with a crown of thorns as if made of light or the finest glass. It was to be understood as a symbol and identification sign that it was actually Jesus. Jesus tilted his head to the side and looked at her with love. At the same time, it was also a penetrating look, but still with the feeling of "I am your friend." It was a bloodcurdling encounter that went very deep.

The seer was moved to tears because it went right into her soul, right into her heart. It was very moving. Meanwhile, a vision came of Jesus hanging on the cross. A strong wind came up and then it was as if the cross was standing in the sea. The waves hit it and a little later lightning appeared. The situation escalated over several minutes and became more and more dramatic.

Suddenly Jesus opened his eyes in the vision and they lit up. He looked at people like that, as if He wanted to tell them that He "sees through" them and all of us. His head tipped back while his eyes remained open. His soul went through people like a pressure wave from the cross. It was as if He was dying and there came a special moment that was something like a spiritual explosion. This was probably meant as a warning.

Lightning kept coming from the sky. There was a warning there. It had an anger, a Divine anger, which is, however, just and at the same time intended to warn. The seer was moved to tears and as she looked out over the landscape she saw lightning striking everywhere in the vision, as a warning that He will be everywhere. This energy comes everywhere and will affect EVERYONE.

This gave the feeling that this is how it will be when the warning comes, that it will hit everyone right in the soul, right in the heart. All you have to do is snap your finger at Jesus and He will touch you right in the middle of your soul. This will shake everyone emotionally and touch them deeply.

#87 MESSAGE FROM NOVEMBER 22, 2023

JESUS CHRIST AND THE BLESSED VIRGIN MARY "VATICAN, HELLMOUTH, FINANCES AND AGAIN THE WARNING"

Shortly before the prayer group, the presence of the Holy Mother of God can already be felt. Today the seer is praying together with S., her friend and teammate (for lack of another word).

First, S. begins to see inner images. She gets a vision of a street intersection in Rome. Maria conveys to S. the special love that she felt for this city back then and even today. She sees the Vatican and it suddenly becomes clear to her that Jesus has already won and another connection becomes apparent to her in the context of the vision:

Jesus had the center of the Christian faith, the Vatican, built in the city of his former opponents. It is to be understood as a demonstration of power by Jesus. He made the impossible and unexpected happen, like a miracle. Because the persecution of Christians took place in Rome. Christians were killed by lions in the Colosseum arena because of their faith. Now the Vatican sits in the middle of Rome like a sanctuary on top of the pit of hell in order to close it.

S. is told that this time too the church will survive the attacks by the adversary. Jesus has the power. The church cannot be defeated.

At the same time, the seer's visions begin:

Lions and Roman chariots and lions in the Colosseum. A shining, gigantic lion emerges from the Colosseum - a symbol of Jesus. Now the Vatican can be seen and in the middle of it in St. Peter's Square there is a pit of hell with red light glowing from the middle. There are people in this abyss.

A dragon sits on the dome of the Vatican. This means the church has been infiltrated. She is no longer pure; Pure intention. The seer can sense that there are many "wolves" among the clergy. They speak with "snake tongues." They whisper to the Pope. He is influenced and manipulated. The Pope is torn inside.

The image changes and an angel on the dome of St. Peter's Basilica can be seen facing the dragon. It is a symbol of the battle between light and shadow in the Vatican, which is repeated as a context in the vision of the seer. Jesus can be seen again. He is whipped and suffers excruciating torture.

The Pope must make a decision whether he will be like Jesus and experience torment - torment in a way - or whether he will betray his faith.

He is actually an ardent supporter of Jesus.

It's like the Pope is walking a Way of the Cross. Images of Jesus' Stations of the Cross can be seen, where the Pope is depicted at Jesus' side.

The gates of the Vatican close so that no one can enter, not even the Pope. He stands in front of the closed gates of St. Peter's Basilica.

But Jesus goes through the locked gates of the Vatican and keeps order inside. People can't get in, but Jesus can.

He will use His authority and He will expose the "false serpents"! The wrong will come to light and that will serve the church!

The truth will come out. Jesus' face appears and he raises his two fingers, as we know from pictures, and thus expresses: "Everything is well. You can relax."

Jesus has everything under control. It will get many back on track and some will not survive it mentally. Jesus will be visible to ALL.

It's a wake-up call. We should prepare!

In the name of the Father, the Son and the Holy Spirit. Amen.

"Go in peace."

#86 MESSAGE OF NOVEMBER 18, 2023

THE BLESSED VIRGIN MARY "THE WARS & THE LION FROM THE STAR OF JUDAH"

The Blessed Virgin Mary had already appeared an hour before the prayer group and had been present ever since. While listening to the prayers, the seer receives a vision in which she first sees a bald eagle flying through the air. He flies over various areas and observes those where bomb fire can be seen.

Then the eagle fights with a snake. This is followed by pictures of a brown bear, which stands on its four paws, calm and waiting, without facial expressions at or in front of the edge of the forest.

This means that he is not looking for cover, that he is not at home, but that he is close to home. His behavior is observational and tactical. The bear exudes self-confidence and observes very closely what is going on.

The bald eagle flies through the air with a mischievous grin. You can feel that he is influenced by dark forces and that what he does serves the dark side. Whether consciously chosen or not. It soars further up into the air and flies next to a military aircraft, with a large cargo hold. There is a cross painted on the plane, which is reminiscent of the German Wehrmacht and at the same time of the Bundeswehr.

The eagle flies majestically so high that it can overlook several countries. He looks to the side and observes whether what is happening is in his interest. This is also how he looks at the Middle East conflict, but flies over it to neighboring countries.

He meets with an oil sheikh, or head of state, who wears a red and white headscarf with a black elastic band. It is one of the neighboring countries with which the USA will ally itself. Both - the head of state and the bald eagle - are heavily armed. The seer hears the word "Israel." These connections will expand the conflict, the war. At some point there will also be talk of using nuclear weapons. There will be supposed negotiations, but these will only be held ostensibly for the public. In reality, the US has no interest in ending the war.

The next moment you can see a fierce looking lion. He runs and shouts with authority. Fighter jets are now flying on the horizon. The sky is soon filled with it, as if the number of military flights was increasing again. The seer hears the word Russia.

Maria explains: **"This is where the war of powers appears."** The seer feels that the war of powers applies to all wars, not just Russia or Israel. The war of the powers reveals something.

Now a lion is seen snatching sheep and it is not the golden lion as Jesus is portrayed. And all these animals and images are sucked into a kind of light funnel and swirled there and it spits them out again. They come out at the top in a different order. Viewed from a higher level, everyone takes their place.

This situation should give people an important experience, development and understanding. We should ask ourselves why we still allow all of this. That these wars still exist.

Why we still argue about religions. Why we still kill each other. Have we not understood that there is a divine spark in everyone and that it is not our place to end a life? Just because we think it's important and right. Before God would end it, before "time is up."

These are important topics and processes that we should think about and this is further stimulated by this situation.

These are human souls who sacrificed themselves to give the world the opportunity to think about it.

It is part of the separation process, the transformation and purification process that is currently underway. Everyone can decide. Not whether he is on the side of the Ukraine or the Russians, the Israelites or the Palestinians, but the decision goes higher.

Are you for a war or against a war? Are you in favor of unnecessary dying, or are you against unnecessary death and misery? In addition, having the opportunity to decide for yourself also has another aspect. This seems to be paving the way for the Antichrist.

It is a world situation that has to happen in order to get certain developments rolling. Because it is the "end times". It enables a kind of purification process for all souls. Certain things need to come to light. Certain things have to become visible because everything that is wrong is now coming to light and it will continue like this for a while.

The line from the sealing prayer comes to the seer's mind: "The lion will rise from the star of Judah to judge the nations."

It is advisable for all those who have not yet done so to prepare the soul for the encounter with Jesus. Here's to the warning, to his return, because this will be a very intense and impactful moment. You want to be mentally prepared for this. To be shown your own depths; his own behavior, his conscience, his shadows, also his bright sides, but also his shadows.

Maria recommends preparing yourself mentally to tidy up, position yourself and strengthen yourself internally.

The seer has the feeling that there are still "ugly" times ahead. Even uglier than now. All hell will literally break loose. Those who know what we are talking about should persevere in trusting in God. They should strengthen their connection to God, snuggle even closer to the Creator and Jesus and, in a sense, "keep their feet still" during this time when things are getting even worse.

The seer has a feeling that something big is coming and it has to do with the conflict in the Middle East. From there evil will arise. Evil masquerading as good and it will deceive most.

The shadow will come and fall over the lands. Symbolically, the seer sees a dense dark gray/black fog moving over the world.

Mary suggests having our houses blessed. We can create and request special spiritual protection for this time.

The visionary sees the cross on her rosary in flames. This image means to you that there will be persecution of Christians, that Christians will be penned up and separated. Every effort will be made to silence Christians. They will try to nip in the bud Christianity and thus Jesus church.

It won't work, of course, but they will try to eradicate it altogether. This is the work of the Antichrist. He will confuse minds and minds so much with his savvy but misleading eloquence that you will believe that this is a really good way. He will make people believe that this solves all problems, but this is not true. He will dress everything up in beautiful words and it will sound meaningful, but you should be warned about that, because it is complete nonsense. It's not the truth.

Mary reminds us: I want you to know that Jesus accompanies each and every one of us, protects each one and speaks to each one, now and always. This has always been, this is the case and this will always be the case. She asks Christians not to be impressed. For Jesus will come out of the star of Judah to judge the nations.

In the name of the Father, and of the Son, and of the Holy Spirit. Amen

#85 MESSAGE FROM NOVEMBER 8, 2023 PART 2

JESUS CHRIST

"CHARACTER, THE PEOPLE OF ISRAEL AND THE PROMISED LAND, HIS RETURN AND THE WARNING"

The Warning!

Now Jesus can be seen in huge size as a figure of light. He steals this power, the high consciousness that He is Lord. He knows who He is and everyone else who sees Him knows it too. People throw themselves to the ground when they meet Him. It may then be different than it is presented in one or another religious scripture.

He is communicating that He will come again! Just a little different than some people imagine. This encounter will set people straight. This will be the last time you can decide where you belong.

Until then, Jesus leaves room for maneuver and lets people experience themselves and have their experiences and make their choices. He gives them time and they are free to decide who they belong to.

It's not the way you classically imagine that you'll end up in eternal banishment, but it will be different. Everyone has free choice. There are those who profess Jesus and those who profess the opposite "power". It must be clear who belongs to which "front". It is clear that Jesus is the powerful front and that nothing is superior to this power.

This is a pseudo-battle and a pseudo-election between light and dark, but in the end, it is clear that the light wins. That is not in question. For Jesus it is clear how it will end, only until then and the experience for us feels as if it is still open. However, that is not the case. It's not open.

Jesus will point out this event. He will also announce this with a warning. He has already announced this several times and repeats it again here.

It will be a dramatic moment, a special event in which you will have the feeling and the impression on different levels as if someone was seen from heaven, banging his fist on the table, a kind of lightning event. The power, sharpness and authority described at the beginning will come out in this event and be felt by everyone. It will be a moment of warning that will make you pause again and ask yourself: "What am I doing here? Am I on the right path? Have I positioned myself correctly?"

As Jesus already showed and made clear as a foretaste at the beginning of the vision, He will look into everyone's soul with His piercing gaze that penetrates everything. He looks into the soul and can read it, the inside, our intentions, our heart, our thoughts, our will. Jesus can perceive all of this in the blink of an eye and we feel it. You feel examined, scanned, so to speak.

He allowed the seer to feel this side of Him to show her that He could be like that too. It was important that the seer felt this in order to be able to pass it on to the readers and listeners. This allows readers to get a rough idea of what it will be like.

Everyone will then throw themselves on the ground; at least those who are friends of Jesus. You will feel his power. This is like a wake-up call, the very last wake-up call from Jesus and everyone who didn't know what to do until then will be rung awake by the wake-up call. It is not intended as a punishment, not as a judgment, but as a neutral assessment of one's position. Jesus will give everyone the opportunity to place themselves and decide.

This in turn will have consequences for the rest and course of people's lives. Ultimately, He means well and lovingly, even if it feels harsh and formidable. This intensity will be necessary so that even those who are more robust (stubborn) and not quite as sensitive can feel and perceive this.

Yes, it is a wake-up call, a determination of where you stand and a decision.

Now Jesus can be seen with his arms outstretched, welcoming people into himself, because it is also about the souls of the dead. They too will be affected by this event, albeit differently, on these levels. They can also classify themselves again.

In the last vision, Jesus can be seen very large and bright white, shining and then the earth shakes because He causes it to shake. He makes the earth shake. This event will cause changes on Earth, trenches in the ocean and the movement of tectonic plates. Likewise, this will lead to flooding.

It will whip up the seas, it will whip up the volcanoes and cause them to erupt. The event will cause fire and steam on Earth, both figuratively and literally. The Earth's electromagnetic and invisible fields will also be affected by this, as crashing helicopters can be seen in the vision.

It will be uncomfortable on earth. When the event is over, the sun will shine as if nothing had happened.

People will ask themselves, "What happened here?" "What was that?" And it will have an impact on people's souls.

Jesus says goodbye: ***"Thank you for allowing me to speak through you. Go in peace."***
In the name of the Father and of the Son and of the Holy Spirit. Amen

#85 MESSAGE FROM NOVEMBER 8, 2023 PART 1

JESUS CHRIST

"CHARACTER, THE PEOPLE OF ISRAEL AND THE PROMISED LAND, HIS RETURN AND THE WARNING"

At the beginning of the apparition, a strong authority can be felt emanating from Jesus. There is a certain sharpness in the room that He has already shown in the past. He has a piercing, piercing gaze. You feel the need to prostrate and cower out of respect for him.

Thoughts like: "What did I do wrong? Have I incurred your displeasure? What have I done? Oh, my God, don't hurt me!"

His power, sharpness and authority are clearly felt. One feels the need to ask, "Did I do something that offended you?"

Have I done something to lead me astray? Then I apologize. Please help me to come back.

Jesus answers: **"No,"** thereby answering the questions that have arisen within.

He allowed her to sit up again, for she was crouched on the floor in a respectful position.

Jesus conveys the following words: ***"Quickness is required, child of truth! There is a need for haste at this hour. Don't worry about the outcome. It is in My Hand. Patience. I'm with you. Do not worry. I'm supervising the process."***

Jesus extends his hand to her and pulls her with him.

Jesus: "Trust me. We're going back in time. Get ready!"

Then it is as if Jesus had placed Himself in the body of the seer so that she could see through His eyes. They are in the time that He lived here on earth. It is to feel that He is a person of pure heart. Again and again He connects Himself for a short time with a white light channel / beam upwards, with the Father, in order to find out for Himself what His next task is now, what He should say. He is thus in unity with God, as if He were not Himself as a person.

He gives everything upwards.

This seems to mean the meaning of the cry "Thy will be done!" Jesus was able to see into souls and immediately understood what the nature of a person is and what his intention is. He could read people with ease.

He also used this gift with pure intent, without manipulative or deceitful abuse. Jesus saw himself only as a vessel that carries out the divine will. He was very helpful and often offered his help. In the vision, Jesus is seen speaking very lovingly and compassionately to a woman whose animal is sick. He has this love and compassion for all beings.

It is through this love that he has access to God. He opens his heart and then connects upwards through it, also to pass on healings, for example, to heal. The healings come from God and are passed on through and by Jesus, by going into love, by attuning himself to love. Jesus was also a very clear character. He has boldly spoken what He meant and what He thought needs to be said. He spoke openly about things and always hit the heart of the other person. He knew that what He says is true, that it is the truth, because He has always been and is in the intense connection with the Father from which He draws all information.

The Promised Land

Then the next vision is about Israel and again and again the words "The Promised Land!" come up! Various images can be seen, e.g. how the sea splits. His people shall go to the Promised Land.

He leads his people into the promised land through the desert. Then Jesus is seen standing slightly elevated. The sun is shining on Him, and He is giving a kind of talk, and there have been people who have followed Him. People whom He has led, independent of the apostles. The great love for these people is clearly felt. Then Jesus and the seer return to the now. It seems that the Jews refused him, as it was then.

#84 MESSAGE FROM NOVEMBER 7, 2023

JESUS CHRIST "THE WARS, JESUS AND THE ANTICHRIST. CONTEXTS"

1. Gaza and healing through Jesus

Jesus appeared before the prayer group began. In a vision he shows many children with slightly darker skin.

The seer sees them running away from something, frightened and frightened; sadness is also felt.

Jesus approaches and says: **"Are you ready to look, child of truth? Then come."**

He stretches out His hand to her and she puts her hand in His and He pulls her up to Himself on a hill where He stands.

He looks different because he carries a shepherd's crook and wears a robe made of fine linen. Jesus appears very calm and exudes a pleasant calm.

Jesus looks in a different direction that is initially only visible to Him. Then they turn and look together in a different direction. She hears the words: "Your rod and staff comfort me."

Suddenly they find themselves in the time in which Jesus lived. He shows a scene of him bending over to a man who is half-sitting on the floor. Jesus extends his hand to the one who is very moved and he stands up. The man bows to Jesus, who radiates great gentleness.

Jesus is very compassionate and loving, very loving. In this encounter, Jesus essentially tells the man that he should not thank him, but rather the father. Jesus: **"Go and tell your friends what the Father can do, only the Father has that power. It's not me who's doing this, it's the Father doing it through me."**

Jesus didn't have to do anything special, He didn't have to make any effort. Jesus just touched the man and made him stand up; then the man was healed. The man had bandages on his legs. Jesus pulls him up and he can stand again, because he couldn't before.

It is as if Jesus only had to open his eyes and the person would be healed. Jesus extends his hand to the seer and says: **"Come!"**

2. Vortex of Light

Jesus takes the seer into a whirlpool of swirling colors. Situations and people mix up very quickly; it seems to be the time.

Jesus: ***“I will never leave you.”***

There is only the possibility that the seer can turn away from Him, but He will not turn away from her, He explains to her.

3. West Bank

Jesus stands in front of her and asks: ***“Are you ready for a general message?”***

The seer sees herself with Jesus again on the American base where they have already been together twice. You can watch world history there in fast motion; all the wars that have happened there over time. It's like watching movies on multiple TVs at the same time, but layered on top of each other. Scenes with war planes, tanks and politicians driving around and Jesus walks through the middle of the scenes and the seer goes with him. It is as if He wanted to ask whether humanity has learned nothing because the wars keep repeating themselves. Jesus walks forward a little and puts his hands together. The seer follows him and they stand as if on a balcony and they look at a land.

Jesus is very calm and centered.

4. Hamas and Jews

There isn't much to see at first. A city with rather simple and flat houses and the region seems to be warm. There is a large winding river near the city. What's on the other side of the river. Can't be seen.

Then the bald eagle is back, flying over the area with an attacking cry and dropping something. She connects the images with the West Bank.

By this she means that the USA is interfering or has interfered [in the West Bank].

Jesus tells her: ***“Watch carefully what is happening!”***

The seer recognizes the beauty of the country and feels that it originally had something peaceful. Palm trees stand by the river and the sun shines on them. It is a beautiful region in terms of landscape and you can feel that the people there want to live peacefully.

Then dark clouds come into the picture and move over the land - they bring violence. The clouds are a symbol of hooded, dark-clothed men. They want to force their ideas about the world onto others. They say they are doing this for God. They murder. They murder for God. You can see machetes injuring people... (the details are omitted here).

She sees hooded men who act either out of delusion or fanaticism. However, it doesn't feel judgmental in this vision. It feels like people who believe it is their right to implement what they think is right in religious matters. They are convinced that this is what is wanted.

However, the seer feels that this is not true from a divine perspective. Jesus also tells her that what these men think they know as truth is not true and does not correspond to the highest truth. Jesus makes it clear that it is not the highest truth. A dark wave can be seen that is changing the country greatly. A lot happens in secret and it shouldn't be talked about. People have withdrawn and are afraid.

As an explanation, Jesus presents developments years or decades ago. Now we see Jews who don't feel dark or threatening. They feel very godly and bright. The seer sees images of men wearing a yarmulke on their heads and praying at the Western Wall. They follow their faith and are peaceful. In the vision they have an inner glow. A strong radiance emanates from them. They are very God-believing people; This is how Jesus presents it.

5. Spiritual and geopolitical level

Now you see Jews at a river performing a kind of religious ritual, which is similar to a baptism. It feels very comfortable, believing and humble. The shimmer they emit seems to have something to do with Jesus, as if the people of the West Bank and Israel were animated by Him.

Jesus explains the Gaza conflict from a higher level. He says it's about the purification process and the ascension process of the world and it's about the spiritual forces rebelling against each other. In reality, the process of separating the world, good versus evil, is taking place.

The dark forces, with "black magic", are about power, about very selfish aspirations, for which religion is used.

These are very different approaches because you can use your power to serve yourself or you can use it to serve the greater good.

It's a fundamental distinction. Those who serve the greater good belong to the light side and those who serve themselves belong to the dark side. It is the question of how power is used. This is how the seer sees the connection in the vision.

She sees how a large shadow moves across the land, from this dark power energy or intention to subjugate everyone according to her own ideas. In contrast to this are the Jews, who in this vision have a golden-white glow and Jesus shows that He stands in their midst.

Jesus: ***"In large and small ways, this is the battle for souls that is taking place here. The separation process..."***

"Who do I belong to? Am I just working for myself? Am I pursuing my completely selfish pursuits? Or am I pursuing service for the good of all?"

What can be seen is a dark, black mist and a golden white mist. The black mist tries to push back the light mist; to attack it, to jump in, but the shining one simply holds its ground. It does not attack, but remains standing and opposes the darkness with peaceful steadfastness.

This is the spiritual level, but there is also a geopolitical level.

Now American President Biden can be seen with Ukrainian President Zelenskyy. Further back you can see a bear that stands for Putin or Russia. He was pushed into the background. It's like a chess game planned by someone. As if they had forced it to get to a certain point, so that Zelenskyy and Putin slipped into the background. They stand like figurines on a platform and are pushed further and further back so that you can almost no longer see them.

6. The wars and the Antichrist

To return to the topic of Jews and Hamas - Jesus explains that it is fundamentally about and against Jesus. Those who are on His side or animated by Him, or on the side of love. The feeling arises that the darkness is against Jesus and His followers.

You can see the platform again. Zelensky and the bear drive to the rear so that they can hardly be seen, even though there is still a lot of fighting going on and the conflict is not over. However, it seems that they want to draw attention to something else, namely the conflict in Israel. This can also be seen on this wooden board or platform on rails. One is pushed backwards, now the other conflict comes forward. It's like the theater, where the spotlight's light is cast on different things. That's where attention should be drawn, people should look. You are guided by what you should think about, what you should think about, perhaps even which side you should be on.

It's like a miniature model train.

The spotlight has shone on Israel. Jesus is standing at a table and on the other side of the table is the Antichrist.

It gives a very uncomfortable feeling. It appears to be a man. He is dressed in dark clothing, wears glasses and has olive skin. His eyes and their expression are creepy and make you shudder. He cannot see the seer, but she can see him. It's like he's looking for her and that feels very uncomfortable. Jesus is completely relaxed. None of this bothers him. He just looks at it.

It becomes clear that all the current wars are connected to the Antichrist. The Antichrist likes to see it because he likes wars.

He wants people to hurt each other, to destroy each other. He is available for anything that goes against Jesus, against his followers, against his churches, against everything that has to do with Jesus' spirit.

The Antichrist walks a bit around the table. It's like a chess game and he moves individual pieces. It's like tactics. Like a cat staying in front of a mouse hole. She sits there and waits for her chance. As soon as the mouse takes a step too far, she grabs it.

He has a very specific plan and these wars have to do with that. There will be a few more steps to follow. He seems to be a patient person.

At some point he will take his step and show himself. The seer sees him pushing one leg forward into the light, slowly but surely pushing himself forward and becoming visible. Not as such. He is not yet recognized as Antichrist. He cannot yet be recognized. He's tactical. He follows a plan and has world political connections where he manipulates, tactics and influences to get certain chess pieces from A to B.

Jesus watches, completely relaxed because he knows he cannot be attacked.

He is so sure of himself and completely centered, completely self-confident and especially trusting in God.

#83 MESSAGE FROM NOVEMBER 5, 2023

JESUS CHRIST "IT WILL GET WORSE BEFORE IT GETS BETTER"

Jesus visits the seer while she is half asleep and begins to deliver a message. First it begins with the horizon, at the center of which rises a large white cross. High flames blaze in front of it, it is almost as if the cross is on fire and the flames are moving towards the cross. The cross extinguishes the flames by emitting a small pressure wave of light.

This is followed by a kind of explosion of light emanating from the center of the cross. The immense light wave that is released is white and exerts a certain pressure, but at the same time feels pleasant. This wave of light reaches all people in the hearts, everyone is captured by it.

Now the scene changes. A slope appears on the mountain with a very large amount of water flowing down it. Suddenly there are many houses in the water masses, which are torn down along with their appendages. It feels like it is something drastic, some kind of threatening event that makes the seer breathe very heavily during the apparition.

Afterwards, Jesus shares with her a vision of the Gaza Strip. It is a picture of a region in which there are low-rise houses and everything is in a brownish, sandy tone. Also the surroundings. In the city that can be seen there, fires and lights suddenly flare up, then go out again, only to flare up again elsewhere. It's as if bombs are exploding or as if the city is under attack. It becomes clear that Jesus wants to communicate something about the Gaza Strip.

First, Jesus and the seer stand apart in the vision, so Jesus draws her to him. He stands slightly elevated and radiates a lot of love and security. Together they then look at the area that is under attack. Jesus tells them to look closely.

As a result, a huge sequoia tree formed around the Gaza Strip, its bark twisting upwards like a cloth napkin. The dense bark covers the entire Gaza Strip and Jesus says: "Some see it and some don't see it." What this meant, among other things, was that the energetic separation of people, which has been talked about for a very long time, continues to take place and accordingly their perception of the world changes.

Jesus further says: **"The wars will get worse before they get better. It is a war of powers that operate in the background. At the heart of the matter, this conflict is not about religious issues."**

What is clear here is that the wars will get worse before the world situation gets better.

"It is important that you only adhere to Me. There are no other gods."

The seer replies that she understands that and asks what exactly He means by that.

"It is important that you only adhere to Me. The other religions will at some point understand that there is only Me.

They will have insight and reorient themselves."

"Pass on my words, child of truth."

#82 MESSAGE FROM SEPTEMBER 18, 2023

JESUS CHRIST "THE FLOODED EARTH"

At the beginning of the apparition, Jesus Christ tells the seer to be ready and not to be irritated. He announces that together they will go far ahead in time.

The vision starts with a white swan on the water and a cow that looks unusual. She has a double horn. The first horn is larger than normal and another horn emerges from it, only steeper upwards.

A technical box is attached to the smaller horn.

Another cow then appears that has normal horns and is chewing grass. The seer has (senses) an association with robot cows, but this is not explained in more detail. Switzerland can be seen in this vision. A beautiful green valley and rolling landscape fill the panorama, as do higher and medium-high mountains around it. You can see far away, the cow is in the foreground, but further back you can see a fantastic Swiss landscape.

The next images are irritating because they are reminiscent of the film "The day after tomorrow", where the Himalayan mountains are flooded by seawater.

It is an association with the current vision and a clue to the seer. From far back in the mountain landscape, a huge wave comes from above and runs into the scene like a pool being filled up. Jesus can be seen again. He points out the flooded mountain landscape.

Suddenly the picture changes and you can see Greek or Egyptian columns with figures and pictures carved in stone, which are also half submerged in water.

A waterfall flows down an uneven rocky slope. It is reminiscent of the Grand Canyon in the USA, which was also filled with water a long time ago. It's as if something similar is happening in Switzerland. And in places where you wouldn't expect sea water to reach them. Now the entire picture is filled with water, no matter where you look. It's a very beautiful picture.

However, it is not the normal sea, there are small peaks and objects sticking out of the water surface everywhere. It seems peaceful in itself and a sunset can also be seen. However, the question arises as to where the people are. Because these are nowhere to be found.

The picture changes again and you see a small white marble cross that quickly grew to huge proportions in height and width. The cross changes shape and becomes a huge Jesus. As always, he wears a simple white robe and shoulder-length hair and he wordlessly tells the seer that he "rules" the earth.

The added message is that all are one. All are one with all life. Jesus wants us to understand this.

At the end he comes back to the seer as an apparition and says goodbye.

#81 MESSAGE OF SEPTEMBER 15, 2023

THE BLESSED VIRGIN MARY "AVERTING NUCLEAR ACCIDENTS"

At the beginning of the vision of the Blessed Virgin Mary, a magnificent, sublimely shining lion enters the picture. He looks angry, hisses and slaps his paw across the floor and in the direction of the seer.

In the background is a large white glowing cross. The lion walks past her and looks with a searching gaze, but also critically and observationally. In the next moment, a paradoxical image shows burning seawater and flames on the surface of the water.

Next, a cemetery appears. At first only a gravestone with a stone cross on top, both in grey-white. Then there is a very long row of gravestones, which are very close to each other, as if you were driving past them at high speed with a camera. Every tombstone has this cross.

The gravestones become flatter and flatter towards the back. It's as if they're getting smaller and smaller, or as if a large part of the stone is hidden underground, but the cross itself still protrudes from the earth. This row of tombstones moves towards a certain point and at the end the white cross shines. It means that Jesus Christ receives the dead.

This gave a sense of oneness - that in death one becomes one. Then again a picture of an enormously large cemetery with a lot of dead.

From the perspective of the surface of the water, you can see an imposing and intimately large warship, which is equipped with a large cannon barrel and lowers its anchor. These are scenes in the context of war.

The images alternate with those of people suffering pain on land, being injured and loud fighter jets flying past. The next moment a ship shoots its cannon barrel towards the mainland and the projectile detonates there. The bald eagle appears near the warship, and this time it gives a loud, satisfied cry. If you were to imagine the eagle with human facial expressions, you would see an evil, mischievous grin.

Suddenly a fighter jet flies at high speed into a building - it is an old nuclear power plant. Fighter jets fly over it again and again. The feeling of a warning arises and the yellow and black warning sign indicating nuclear radiation. The memory of Chernobyl comes to mind.

In the vision, the seer repeatedly sees jets flying over the nuclear power plant and sees them dropping something.

Suddenly the image of the brown bear appears - baring its teeth. He turns up his nose in a threatening gesture and shows his teeth very intensely and angrily. He feels threatened and is about to escalate. If a little more is added, he will completely lose his temper.

Maria suggests that when the bear loses his temper there are consequences - for all people, in different countries.

The bear repeatedly paws in a combative motion with its paws, like horses with their hooves, as if it were about to jump to attack. He repeatedly wrinkles his nose and bares his teeth in a threatening gesture.

Behind it, further up, sits the bald eagle, laughing spitefully, with a feeling of superiority, as if to say: "Now I have you where I wanted you!" He likes that the bear is losing his temper. All of this takes place in front of the nuclear power plant, which can still be seen in the background. You can now see white ambulances with a red cross and siren.

In view of this news, the Blessed Virgin Mary urges people to remain calm. It is a possible scenario that can be averted and which you want to avert for us. However, for this she needs the prayers of the believers.

She lovingly asks to pray against it or, in positive words, to protect this nuclear power plant.

Maria asks people to pray so that there are generally no nuclear accidents or attacks that then lead to corresponding explosions.

Maria now stands oversized and slightly transparent in a white dress, white veil and light blue long belt around her waist in the nuclear power plant.

In this appearance she is a kind of patron saint. She wants to avert catastrophes for us humans and this urgent danger that she can see and which, as she says, has the possibility of occurring.

The seer feels Mary placing a kind of protective balm over the situation. There is something reassuring about calming the nerves, perhaps of heads of state and all those associated with it.

It also protects and calms those people who are afraid or who work there.

It is as if she lays a very delicate protective film of calming, serenity, healing, harmonization and a divine peace over it.

This is what you put out into the world for us, especially on this topic or other threats.

She wants to express that she is there. We can put our trust in her. She won't disappoint us - she wants everyone to know this. She asks for prayers. She "needs" them as a kind of offering, but also as proof that there are still people who care. It is as if no one cares about it anymore, as if one simply abandons oneself to world events instead of praying against it and exercising one's own freedom of action through prayer, which certainly has power. This is how Maria explains it. It seems like you need to make sure that there are people who want to say that it is our wish that something like this be averted.

Now the visionary sees Mary distributing small bouquets with little flowers, but they look like flowers that are placed on graves as a devotion. She walks across a battlefield, a war zone, and distributes these flowers there. It means that she takes care of the dying of war and that she accompanies the souls.

She radiates a great peace and conveys that she is also there where war has already raged and brings peace.

She says goodbye with the words: **"Go in peace."**

In the name of the Father, and of the Son, and of the Holy Spirit. Amen

#80 MESSAGE OF SEPTEMBER 3, 2023

JESUS CHRIST "CONFRONTATION COURSE"

Jesus accompanies the visionary to Sunday evening Mass and reveals a brief vision to her. A very angry brown bear can be seen, roaring loudly and baring its teeth. He builds himself up and shows his aggression openly.

The image is expanded by a very large bald eagle facing the bear.

The proportions in this image are unusual, as the bird is the same size as the bear; almost a little bigger. The bald eagle spreads its wings far in front of the bear, threatening and rustling wildly. It is reminiscent of a lizard that rustles threateningly with its raised collar before attacking.

The bird and the bear are facing each other threateningly, almost spitting, and are both very, very angry.

In the next scene, the bear's head appears, alternating with the face of Russian President Putin again and again. Behind Vladimir Putin, a missile slowly comes very close to him.

Putin can be seen from afar as a small human being and an oversized rocket is approaching next to him. In comparison, the Russian president seems ridiculously small.

Overall, it triggers a very threatening feeling. The anger of the opponents described earlier was also very impressive and intimidating.

Both are situations that cause great anxiety and worry in the observer and arouse fears.

At the end, a hissing tiger enters the picture. He walks on red sand.

For the seer, this is a reference to Africa.

Then the images fade away and Jesus says goodbye.

#79 MESSAGE FROM AUGUST 15, 2023

THE BLESSED VIRGIN MARY "ASSUMPTION OF MARY"

On this special holiday, the seer and teammate Sandra received an apparition of Our Lady. For Sandra it was the first time receiving content during an apparition.

On that day, Mary appeared as a queen with a starry halo, very fair skin, big eyes and a sweet face. The apparition alternated between her face and her entire body. It was as if she was floating and this made it different from Mary's previous visions. Pigeons and very small angels flew in circles around you. A wonderful sight that expressed your special position and power. Archangel Michael was also there.

In particular, Her divine power and a strong wordless presence came through very clearly; especially your power combined with a tender grace and strong love. Without a word, she left her blessing, her wisdom, love and tenderness, which the readers and listeners can accept for themselves. An image and also sounds of sloshing water were part of the phenomenon.

Sandra also reports the strong impression of Mary's power. She also saw Mary as a queen in heaven, whom we can all still see as a close friend. She conveyed to Sandra the certainty that the darkness had already been "defeated" and that we did not have to fear it.

When Mary showed Sandra her natural and self-assured power, it became clear to Sandra that we humans also have power that we have access to through prayer. However, it was also about asking who will hold the position - the position between good and evil. The position of those who use this power of prayer and who have Mary's favor as their backing to push back the approaching darkness. Because with Mary's help we can feel courageous, steadfast and completely safe as we "hold the fort."

#78 MESSAGE FROM AUG 7, 2023

JESUS CHRIST "AFRICA"

At the beginning of the apparition, the visionary is led in a trance to a place in the clouds. To get there, one must pass through a golden, delicate gate, with a golden fence that separates the area. Angels with golden trumpets fly around while playing heavenly music. It is a symbol of God, the Father, whom the visionary may behold here.

Jesus begins to deliver a message to the public and suddenly the visionary is overcome by a feeling of tightness in her throat, fear, almost a panic. At the same time, an image appears before the inner eye. A large, pointed object falls from the sky and people scream in panic. People feel powerless because of this incident.

This is followed by the face of a light-skinned strange man who has a very intense look. He has nothing good in mind and looks evil. Then the image changes to a bald eagle. Over this is a superimposed portrait of another person who looks very threatening and vicious.

In the next sequence the bald eagle can be seen flying in the air - circling and screaming. His gaze goes down and he dives to attack. Again, the image of a shipwreck on its route, far from land. It resonates with a feeling of lurking danger. Loudly audible, an airplane flies past the ship and again the eagle suddenly appears.

The eagle has an unpleasant glint in its eyes and in front of its eyes there are films showing what is going on inside it - the American flag; it is all about money interests and profit. In itself, it is about representing and pursuing the interests of one's own country, which is nothing reprehensible in itself. However, the way it is done makes it something, which harms others. Harassing, pressuring, "imposing" something not openly is not okay, Jesus explains.

The eagle flies up again and sits demonstratively on an electric pole. Meaningfully, he transmits the following threat:

"I have your electricity here very close to me. If you do not feel it, then, I have ways and means. Think about it!"

The scenery changes. President Biden smiles kindly, though in this case, a fake smile. He greets various people and shakes their hands.

An African president or The Head of State of an African country appears. He is wearing beautiful African clothes. He and Biden meet.

They sit together, as seen on television, in a white room with a fireplace, where conversations and negotiations take place.

To the left and right are small sofas and they sit facing each other. The African president leans forward as if he were whispering to Biden, whispering something to Biden and making deals, proposals. The African president is trying to get something for himself.

The seer sees weapons - it is about weapons. These are contracts they make in secret, but they are not part of the press meeting.

That is, the contents of these secret agreements will not be leaked to the outside world. There will be negotiations between the two and they will find an agreement that America will supply arms to that state. There is again whispers between the heads of state, as if no one else should know about it. President Biden promises himself oil for America from this.

In the next scene, the seer sees a huge dark gray-black cloud of fire, as if something big is burning. Some reddish sandy ground, scattered bare bushes and again, this huge cloud of smoke.

It seems to be a building in Africa. You can see a jeep and people coming towards it. People have gathered around something and are upset and sad. It is the African Head of State who had met with Biden earlier. The African Head of State is dead. Again and again, the African Head of State can be seen lying there with his eyes open. He has been assassinated, which at first, is not clear to those gathered there. Someone emerges from the crowd and asks what has happened here. The murder occurred after the oil was delivered.

The African did not expect it. The seer keeps hearing the country's name "Ghana". This incident creates a power vacuum in the African State of Ghana. Someone else would like to occupy this place. There is someone who wants to take advantage of the situation for himself.

As if the murdered person had to make room for someone else.

The picture of an area with national borders, which has become free, clarifies the impression.

On this surface, a leg with a goat's foot pushes itself. It conveys the feeling of global connections, as if it were connected with the Antichrist.

As if he "gets a foot in the door." It's like being at a roulette table, where a ball rolls and then stops somewhere. As if one would sell the land to the highest bidder and thus open the door to this person.

On a sandy road, a wild cat approaches the seer and hisses. This cat looks very determined, but it is shot down by arrows. Thereupon, other big cats join in. The scene takes place in Africa.

The wild cats are walking side by side in a line. It seems to be a reference to the Union of the African states. These cats are teaming up, which does not look less threatening. They can do quite a bit if they appear united.

Behind the cats a line of elephants are walking and following the orders of the cats. It seems as if they are trying to win allies or power.

Behind them, in turn, a wide row of bald eagles. Then a female big cat with a crown emerges as the leader. A group of African men runs behind it.

They jump, shout and threaten. There is a lot of aggression coming from them, as if they are even claiming lives. It seems as if Africa wants to rise up. It is about the issue of oppression that has lasted for centuries and likewise about liberation.

It is also about prosperity. Africa wants to be on top of the world. In a way, it seems as if It had someone promised them something or incited them, possibly running campaigns of influence. Again and again the bald eagle flies over the picture. He has his fingers in the game.

Maybe he promises them something; incites them to turn against someone, but not against him. It is only a phase and then one sees the cats disappear again into the swirling cloud of dust where they came from.

A very short inspiration follows and this one is related to water. The sun is above the Savannah and a vulture circles, already waiting for prey.

Now the seer is mentally led into a completely different environment - a mountain top above the clouds is illuminated by the brightly shining sun. It is peaceful up there. Jets fly above the clouds and they shimmer in the sun. There is nothing threatening about them. Rather, they fly to God through a golden gate. There are more and more jets and with the time, countless ones gather there, piling up in a tower - figuratively speaking.

They are the souls of the deceased soldiers, air pilots and tank drivers who died in the war.

After the war, they line up in a long row before the great white light - before the Creator- and He speaks to each and every soul.

He does not rebuke them, but pardons them and takes them to Himself. He does not reproach them.

The seer sees Him as a huge tower of clouds from a white glistening light. An imposing picture as the men stand in front of the huge white creator light. They are sorry. They apologize for flying in the war. It is as if God is discussing it with each individual. Some say that they missed on purpose because they didn't want to hit anyone, but in order not to lose their job, they couldn't miss consistently, they explain to Him.

God asks them if they believe in Jesus. Jesus then comes and takes care of the souls of these soldiers, drivers and pilots. The visionary sees Jesus embracing a young soldier. His heart is heavy because all this makes him uncomfortable. He did not want it at all. Jesus talks with him about it. He explains that it is a grave sin to take a person's life. Therefore, he says, it is necessary for souls to go through a kind of purification. The souls are to be purified and when this is completed, Jesus will receive them. Some are afraid of this. Jesus discusses with each one that He can understand the soldiers. That is what He is for, Christ - to take such sins upon Himself as well.

Some are afraid of having to answer for it, for a war they did not start.

The healing message is that the Creator's Light welcomes everyone and receives them lovingly and cares for them.

At the end, little angels with trumpets can be seen flying around a large shining light.

Jesus is back and makes the sign of the cross.

In the name of the Father and of the Son and of the Holy Spirit.

Amen

#77 MESSAGE FROM JULY 31, 2023

JESUS CHRIST "RUSSIAN INVASION OF GERMANY"

Jesus Christ appears in a white robe, with sandals and an ancient flair surrounds Him.

"Come my child, I have something to show you. You are safe in Me. It will be a difficult message, but please remain brave. I am here.

Don't take it personally. We are going back in time."

The visionary asks for verification of his identity. She sees His crucifixion as He looks up to heaven in despair and then dies.

Shortly thereafter, a golden cone of light surrounds Him, which causes His soul to ascend. The seer considers this as identity affirmation.

Jesus now warns, **"It will be somewhat unpleasant."**

At first, seemingly unrelated images and scenes appear in quick succession. The visionary sees images of Russian President Putin pressing "the red button"; missiles flying; bombs being dropped from Soviet planes. A fountain is created that reaches into the sky and can be seen from space; a number of fighter jets drop bombs or mines on small parachutes that sink to the ground where they explode.

In connection with the Russian president, the seer hears the word "calculus." The image of a dam is also included. The dam is blown up by airplanes or drones, whereupon a city is flooded by water and the visionary hears the word "Zaporizhzhya".

Now Jesus shows the seer pictures of darts flying in the direction of Putin. With this information, the seer thinks that one tries to annoy and further irritate Putin to make him more angry, more rigorous and more extreme. So that he will be forced to take even harsher measures.

Now the image of the Russian army comes to the fore and it starts to move. Anger glows in Putin's eyes. Indirectly, this announces that he will be guided by feelings; the jibes will eventually wear him down. He continues to pursue his goal, which is to make himself and his country more independent and to establish new state connections. However, he overlooks something. Some people are not serious about him.

The word "Africa" comes up.

Now the visionary sees the Russian army moving further into Europe. The vision changes again and it is as if Putin is standing next to the visionary, presenting his army to her and proudly proclaiming how strong it is. He continues to explain to her that he wants to preserve the values of his fatherland. It seems as if he also currently has delusions of grandeur as a theme from his family or from his ancestors.

His goal is to expand the Russian empire, to build a tsarist empire.

One sees the image of an army, divided into many small troops, marching with swollen chests over a symbolic map. Then the seer sees Russian airplanes over Germany and hears the associated propeller noises. The invasion of Germany follows.

Now one sees a certain cunning in the form of a shadow in Putin's face, a glint in his eyes. Deceitfulness.

He wants to expand his empire. This is something he doesn't talk about publicly. He stands there and behind him is his army as if behind a veil which conveys a sense of an ambush, of an army ready for action.

The seer sees again a map, that of Germany, and how the Russian army is marching in from the east and then splitting into two strands.

This will happen if Germany continues to participate in the war. This is the next stage of escalation. The Russians will suddenly be there.

Jesus urges us to build up water and food supplies.

"Pray for a positive outcome!" He says.

"The politicians won't help you. They can't even help themselves.

They are just trying to ride the wave. Go forth in peace! Pass it on!"

#76 MESSAGE FROM JULY 17, 2023

JESUS CHRIST "THE NEW EARTH - A REVELATION"

Jesus Christ appears and delivers a vision to the visionary, which begins with a starry sky.

The image of the sea on a coastal wall appears. The water level is raised, the water is up to the top of a wall and sloshes over it slightly.

A small gate appears that holds the water, until suddenly the wing doors open and large amounts of water flow onto the piece of land.

The water spreads further and more water flows and spreads furthermore.

After a short interruption and checking if the apparition is real, Jesus says: **"Look into the distance, child of truth."**

"Are you ready for a revelation?" asks Jesus.

First, he shows the visionary a sequence of a lion that has a golden, fine wreath on the center of its forehead. The lion runs toward the viewer and then scuffles with its female lion. Various disjointed images follow, such as white church aisles with ornate arches, a steep climb up a mountain with Jesus standing on top. Then His crucifixion can be seen.

He then enters a tunnel of swirling bright colors with the visionary. Arriving on the other side, Jesus emerges from the tunnel dressed as a king. Together with the visionary, He is in a kind of castle with a large stone balcony. He wears a crown, a noble white robe and a broad mantle dotted with black on a white background. The mantle is very broad and noble. Behind Jesus is a long row of chairs against a stone wall.

Only the seer sits there, but it becomes indirectly clear that many other people belong there, who will also sit there at another time; including other seers.

Quite abruptly, a kind of meteor falls from the sky. This large ball of fire, however, does not hit the ground, but stops right in front of Jesus in the air. The arrival of this fireball is very frightening.

Jesus, however, is not afraid at all. He remains very relaxed and it is rather as if he were one with this ball of fire. The appearance of this fireball heralds something.

Now the visionary is allowed to step forward onto the balcony, at Jesus' side. She now wears a wedding gown and stands next to Jesus - full of reverence and filled with trust.

The flame of the sphere is made of holy fire that purifies. It is the concentrated power of God. In front of the fireball, one feels very small. It acts like a mirror; it shows you your own life, your own behavior, and it goes through your own lifetime as if in fast motion. It is like a test.

The fireball speaks to each person and to everyone at the same time.

From the balcony Jesus can look at the other people. Some of them are rolling across the floor in

agony, as if they were having convulsions. They writhe in bizarre movements and call out to Jesus. They know that He is the only one who can help them. But many now have to go through this agony while the fireball talks to them. They shout, scream and cry. It is the Judgment Day.

When this process is completed, the earth will be new. It will be purified, even in deeper layers. Water quantities are to be seen, the earth is literally flooded with water.

Jesus now leads the visionary further, to the time after the Last Day. She sees herself in heaven, walking in the clouds over a rainbow bridge. Jesus is already waiting for her there and stretches out His hand to her. Jesus shines even brighter and whiter than usual. It is a beautiful place here in the clouds. Peace, security, perfection and love fill the atmosphere.

It is not explained how the visionary came here, whether she has died or is about to die.

She is given a view and left to decide if she wants to go "back" to earth or if she wants to stay "up". She decides to go back and is sent back to earth by Jesus with a nudge.

Now the "new earth" can be seen. The seer is lying on a white earth surface and slowly wakes up. She gets up and observes some other people who also wake up and get up. There are not many people around. Jesus comes there into view in a gigantic appearance and all the people can see and hear Him. All the people present can also see when Jesus has personal conversations with individuals, for example.

Jesus smiles and welcomes the newcomers. Living in this new age means consciously living in Jesus' light. It is love and bliss.

Living together is based on high vibrational energies. It is based on love, respect and fear of God.

People sit together in groups and meditate. They live in conscious unity with everything.

Jesus explains to the visionary during the vision that all who are there are his "new disciples", but they are called differently at this time.

Jesus ends the vision and now wants to convey something to everyone:

"My dear children, give yourselves completely to Me. Resist earthly riches and temptations. For into My Kingdom comes that which fits through the eye of a needle. Trust Me and prepare yourselves duly, for that day is not too far off.

You will find My peace in prayer, in giving, in serving and in serving your neighbor. My children, this day is not far away and all of you will experience it, whether on earth or in heaven. Prepare your soul for this time of purification and soul vision. I will provide more information on this."

There is a leap in time back to the appearance of the fireball. Once again the image of the fireball appears. It comes flying down from the sky and triggers a shock wave. The seas become restless, the water moves more. People also become restless because they are afraid of the fireball. Dark spirits, who normally remain hidden, now show themselves. They reach for individuals and people run around fearfully.

They tremble and shiver. The sky is darkened by the beings of the night - now also in the daytime.

The Holy Mother of God Mary will announce this time. There is a kind of hologram of the globe and on it natural disasters are happening.

The seas flood the land, earthquakes occur, fires and volcanic eruptions happen more frequently and these natural events usher in the time before the Last Judgment. It is like a hint for the believers.

Jesus gives thanks and says goodbye.

In the name of the Father and of the Son and of the Holy Spirit.

#75 MESSAGE FROM JULY 15, 2023

THE BLESSED VIRGIN MARY "ANGRY BALD EAGLE"

Our Lady appears all in white, with dark hair and white veil. She radiates a special majesty. Mary spreads her arms and radiates great power. She is silent for a long time and conveys what she wants to say through gestures.

Mary shows the visionary her great heart, which suddenly loses its radiance. Her heart sinks. Thereupon a vision begins and images of sheep appear.

A flock of sheep is grazing in a meadow and it feels like they are oblivious. But in the background a great disaster is brewing, of which the sheep have no knowledge. They are unprepared. Completely unexpectedly, a bald eagle flies over the flock, as almost as an arrow. In high speed it crosses the scene in flight, whereby its exact movement is not recognizable.

Everything concrete remains hidden. He cries out once loudly, dropping something. He is now angry, even aggressive, and goes on the attack.

Then the image changes and a life preserver on a ship comes into the foreground. A ship lies at anchor in the harbor.

It feels like Mary is trying to warn us. It is about a timely event. At the end she says, "**Prepare yourselves. The eagle...**"

#74 MESSAGE FROM JUNE 19, 2023

THE BLESSED VIRGIN MARY "7 YEARS OF TRIBULATION"

The vision that Our Lady transmits begins with the image of a Bishop dressed in white in a church. He is sprinkling holy water.

Now the perspective changes and the churchgoers are seen - they are wolves dressed like humans sitting in the pews. They look friendly and innocent. So innocent that you almost overlook the fact that they are wolves. Suddenly the bishop is grabbed from behind and pulled out of the picture.

Then Lucifer, the fallen bringer of light, can be seen standing in a ruined church. Only the outer walls with colorful windows and parts of the roof are still standing. Wordlessly, Lucifer turns around and heads for the exit. As he leaves the church, he hits the walls with both hands and the ruined church completely collapses. The church collapses.

Mary now shows herself and she announces a vision.

She reveals the image of a kind of pyramid or mountain on which a dragon is perched. It is black and has its great wings spread. She says, **"7 years of tribulation."**

With this, she is addressing a specific time. For the dragon stands for evil or the Antichrist, who will temporarily take it upon himself to occupy a supposed throne. The dragon flies over the land and the people fear him because his shadow precedes him. A black smoke emanates from him and he just thinks he is the crown of creation. The sky is darkening. There are very dark clouds and lightning and they convey a kind of hopelessness - a very unpleasant atmosphere that emanates from the Antichrist. It is like in a dark fairy tale, where the evil dragon holds the village in check with dark magic and does his will without them noticing it.

Mary explains that the Antichrist uses televisions, tablets, cell phones and computers, that is, screens of every kind, to spread his dark magic. And he will persecute those who do not recognize him as "ruler." He will track down these people and try to eradicate them.

Subjects are those who are faithful to Jesus Christ and this will include priests who will die a martyr's death. Those who are concerned already know it in their hearts and they will do it consciously in service to Jesus.

Mary points to one particular person: The English-speaking priest Michel Rodrigue.

Mary predicts persecutions of Christians, but that there will also be those who will manage to go completely unnoticed, who will continue to carry on their faith in silence. Jesus will be there to protect those who have remained faithful to Him. He will accompany them through this time and bring together those who belong together in faith. Contrary to the self-perception of the Antichrist, Jesus Christ is more powerful.

In this time, inhumanity will become stronger and many people will be completely disconnected from themselves.

Figuratively speaking, there will be implants or machine parts which will be implanted into people - people as hybrids. For example the implants will be in the head or in the brain. Humans have allowed themselves to be diverted from their original biology and physiology and have fallen prey to complete delusion. Overall, humanity will decrease and interpersonal hardness and coldness will become dominant.

One will lose contact with oneself.

These changes to the human body are generally considered an improvement at this time.

As if one had climbed the evolutionary ladder one rung higher or as if one had cheated the Creator. On the contrary, it has a rather repulsive effect. You can also see people who look like the Terminator, only not as vicious, but emotionally completely dulled. These persons are partly connected with other machines and computers. These represent an extreme form, but that will also occur.

The seer sees a bald man without hair and with an electric eye, who looks out of the picture to the left and feels nothing, relatively extreme inhumanity and emotional coldness. He waits for instructions on what he has to do - what he should think, that a guideline be given to him.

He follows the dragon, because he considers this to be his lord and master.

The people will be led away from their own naturalness, to the complete aberration.

They walk like robots and partly also look like a robot army - half man, half machine.

They are like puppets.

The connection to spirituality and faith are completely cut off.

The seer sees the dragon's eyes glowing and as soon as his eyes glow, so do the eyes of his followers. This is reminiscent of Lord Voldemort [note: from the Harry Potter stories] as soon as you tap your wand on your arm, then the identifying mark on the arm of all the followers moves.

It's total control.

Now a person is seen trying to protect themselves from it because the person has seen through it. The person recognizes it because it seems to be something that is also in the Bible.

This person knows the Bible and stands symbolically for all those who know it, who recognize that this is the tribulation period stated there.

This person knows not to look at the screens, not at the cell phone, not at the computer, not at the television.

She prays, she prays unceasingly. She prays the rosary and she has to do this alone, because even over Zoom it is too dangerous.

The screens as well as the cell phones are like "bewitched" so that it becomes difficult to use them at all. As if dark magic emanates from them.

As time goes by, it gets darker and darker clouds, darker fog. This is symbolic of the distress that will become greater for those who do not want to participate in this. They will also be socially excluded.

The visionary sees someone shopping, holding out her hand for scanning, and one hears the classic "bib" sound, when products are scanned at the checkout. What can be felt is the complete subjugation and control over people.

There will be people who don't want this and they cry. They don't want to have anything implanted in their hand.

It is a kind of chip in the hand. Once the chip is in the hand, the brain also works differently, so the person is no longer free to make decisions as if there is a computer in the brain. It is like in the movie "The Matrix" [note: Hollywood movie] where you can see the green data going through.

As if the person was a PC and was processing data, although of course the human brain should actually be his controller.

Those who have this implant in their hands are completely dehumanized. The connection upwards is destroyed. It is like being controlled by others, like a toy car.

Those who have opposed, cry, because they have been excluded from society. They live apart and

even there, they are left completely without peace. These people try to grow something in the outskirts of cities and to be self-supporters in the countryside. With wells, cisterns, rainwater tanks, vegetable gardens, animal husbandry with chickens and sheep, are examples.

Farm livestock are used for food. They live together in communes.

This is known and also dangerous because they are visited time and again and under pretexts, searches are made and the people are harassed. They are accused of disobeying laws and are sometimes taken away. It's a very dystopian scenario. Only the tough ones will survive this phase. These are hard and unpleasant times. It will be the light bringers who will hold the light up.

Only those who are properly established in the faith will be able to do that. It is the last chapter of the eye of the needle.

Many will go back to Jesus at that time. That means, they die, they go "home" to Jesus because their soul can then be guided by Him and they are safe with Him. This will also be for souls who cannot withstand this pressure.

Many would be taken out of this life as a precaution, they do not even come to this time of tribulation.

Now the seer sees water and hears alarm sirens, which are related to flooding. A storm and a whipped up sea are seen.

Waves, rocking ships, seagulls are carried away by the wind. A seagull sits in front and points to the right, along a beach. One can see a cloudy sky and tidal waves lapping at the land.

War planes can be seen and a bomb is dropped into the water. An underground network of pipes can be seen, with many branches reaching to the land. Aircraft noise and propellers can be heard over and over again.

It seems to be an airplane attack on a coastal area, but at the same time something is shooting through the underground pipes.

Again war planes are heard and a siren. The planes are dropping something on small parachutes.

The sun keeps rising and setting, one can see moon cycles. It feels like a warning that there is not much time left, that time has diminished and that events are drawing near.

Urgency is in the air.

Again, fighter jets can be seen in the sky, shooting through the air at high speed. The hold of an airplane opens and inside of it is a large bomb - an atomic bomb dropped over the sea. It explodes. There is a huge fountain. Then a flag can be seen, stuck into the ground. It flutters in the wind. The water rises. It is the American flag. The images are unspeakable.

The seer sees flags in a line which are no longer stuck in the ground, but on coffins. There is a coffin for each country. They are dark wooden coffins - unbelievably many coffins with flags, from many countries. That means there will be many deaths in many different countries. This is happening in America, in England, in Ireland.

That is one possible timeline. But there are two different timelines.

There is the one with the atomic bomb and the many coffins which includes France. A complete disaster scenario.

But there is also another timeline and this is the amicable settlement timeline where the Russians are not pulling out all the stops. Peace talks begin. Statesmen shake hands.

Putin shakes hands with President Zelensky and other politicians. An agreement is reached. So there is a possibility that the states will find solutions with each other and the scenario of the other timeline completely falls away.

It is not there, because it is only a weighty alternative future. It looks like there are a whole lot of different timelines.

Moreover, this includes one with tanks, where a nuclear power plant is shot down. It seems fascinating that there are so many different possibilities and that we can have so much influence on them.

The seer is given the impulse that prayer communities be formed so that this field of peace becomes larger.

This timeline is quite bright and pleasant. When we increase the community of people meditating and praying for peace, we also nourish this positive outcome through peaceful small and large actions.

This is our influence and it should not be underestimated - Our Lady refers to this before she says goodbye.

In the name of the Father and of the Son and of the Holy Spirit.
Amen.

#72 MESSAGE FROM MAY 27, 2023

JESUS CHRIST "ARMAGEDDON"

Jesus Christ appears and greets the seer: "**Thank you for answering my call.**"

She sees a flying white dove in her inner eye and asks for confirmation of His person, whereupon

He presents her with the hole in His foot.

She sees a picture of an orange sky.

Jesus asks her, "**Are you ready, my child? It will be hard.**"

The previous image is repeated over and over again and an immense explosion, a large mushroom cloud and a shock wave are seen.

The explosion takes place on the water. Ships are thrown away and they burn. One can see and feel heat particles and embers in the air.

A war scene can be seen with tanks, fighter planes and flying missiles. A single person can be seen on the other side of the field raising a white flag - the signal that he is giving up. Jesus is relaying the information that Ukraine is defeated, however there are individuals or groups of individuals who have an expressed interest in the war continues. The warring parties are being pushed further into it, so that more states will join in the war, even though it is actually long over.

Jesus warns us to watch this happening very closely. The bald eagle (*note: symbol for USA*) appears and gives a loud cry full of rage.

He has lost and will try to further fuel the situation. The eagle circles in the air and looks for new attack targets and suddenly it swoops down on Chancellor Scholz. The eagle spits out the fish he was carrying in his beak a moment ago and says, "I will destroy you."

The vision now switches to Russian President Putin. The seer sees Putin's face and senses his inner coldness. At this point in the future, he has completely disconnected from compassion with the thought, "It's you or me!" Putin pushes the red button. He commits to the use of nuclear weapons, against America - with uranium-enriched weapons.

Jesus warns, "**This is the future you choose, if war continues for years to come. This is a distant future.**"

It would be Armageddon. Explosions and nuclear weapons are everywhere. A two-sided use of nuclear weapons. It means the destruction of the earth and all its inhabitants. The earth would no longer be habitable. What keeps Putin from pushing the button are his advisors.

In brief flickering inner images, Putin can be seen meeting with President Erdogan (Turkey). Chinese President Xi Jinping also shakes Putin's hand, but behind his face is the face of a nasty grinning wolf. He plays off Russia and only pretends to truly want to ally with it. Xi Jinping wraps Putin around his finger and takes advantage of the situation for himself. The latter will "stick a knife in Putin's back" - that is, betray him.

Jesus blesses everyone with the sign of the cross. "**Go in peace**"

In the name of the Father and of the Son and of the Holy Spirit.

Amen

#71 MESSAGE FROM MAY 24, 2023

THE BLESSED VIRGIN MARY "THE WOLF LEADS ASTRAY"

Our Lady appears to the visionary simply dressed in white with a white veil.

She shows her a wolf, which seems threatening and faces the visionary in a snowy environment. He bares his teeth and snaps at her, then backs away and snaps again. He repeats this several times as he gets closer to her face.

Then the vision changes and a path is seen with a fork in the road. The wolf runs along the path in front of the seer and turns to her again and again like a dog to see if she is following him. He seems to be like a dog, but in fact it is a wolf and this is already an indication that the darkness presents itself as friendly, but it is not. At the end of the path is the light, the sun, but the wolf wants to take you down the paths that lead to darkness. Nothing grows there in the dark, the trees die and he leads you further and further into it. If you follow him deep enough into the forest, he suddenly turns around with a wicked, devious grin. The wolf has trapped you.

Our Lady said:

"The other way is protected from the wolf. It is a path that requires more "work", more self-discipline, a respect for the divine laws, the laws of nature. There are many forks (temptations) that lead away from this bright path (from the right path). It is necessary to pass through a door. A door from which one feels inwardly that one is breaking a "law", that one is making a mistake if one so decides. It always requires a conscious decision to go wrong."

Mary asks to be vigilant, because the wolf is waiting at every corner! Every little temptation, every little turn leads away from the "right", "helpful" path. From the path that leads to our true fulfillment. If you continue to follow the path within the dark path, you will be led away from the divine path. This leads further and further into the darkness and can lead to getting completely lost there, like in the dark forest where the "bad wolf" lurks - as we know from fairy tales. The further one moves away from the divine, light-filled path, the more difficult it is to find one's way back.

Mary's face appears large before the visionary, with a worried and sad expression. She is worried about Her flock because they do not realize that they are in danger. She wants Her flock to be safe and their original divine essence is inviolable, but here with us on earth there are divine laws to respect and it harms us - the flock - to transgress them. This can lead us into confusion, into disorientation, into an inner emptiness, into sadness that we cannot assign. We go round in circles, like a dog chasing its own tail.

One of the laws is to respect the life we have been given. This includes, for example, giving life to children (giving birth, not aborting), not making life difficult for others (drama, arguments, resentment, teasing). To value one's life, to use it for the best, to use and share one's talents, to use one's time, to enjoy life, not to use violence against others, whether physical or psychological; to protect and respect the body and the mind. In short, to live life.

The wolf (evil, the adversary of life, of good, of the divine) tries to get in the way of life; to slow us down, to confuse us.

He seduces to complicate life, to negate, to harm.

From the Divine point of view, from above, it is his "task" in our world of duality, in the world that naturally carries and unites light and darkness. And a conscious person has learned to dismiss temptation, not to follow the wrong path, from wisdom and from his own experience.

But not all possess either the awareness or the wisdom to let the wolf be the wolf. Too many get involved in the game of light and shadow.

They succumb to the illusions, get lost in the maze of worlds, where they believe they can - loaded with bigger and smaller "sins" - climb Mount Sinai.

The seer sees people who carry a heavy package in front of them and try to climb a mountain in this way, which proves to be correspondingly difficult, impossible, so to speak. They believe they could carry that load to the summit of the mountain, where the sun shines eternally. But the ascent to the "evergreen meadow, to the eternally shining sun" requires the "unloading" of the parcels. To get there, one must become light, clear the soul, be close to the Divine and stay there. It is not directly wrong not to do all this. It is a guideline, a directional sign for all those who want to "see the evergreen meadow".

It is a warning from Mary and a kind of tool for all those who want to "climb this mountain". Mary serves as a guide, as does Jesus Christ. They can point the way to get there and stay there. This works through the laws that Jesus gave us. Love, truth and truthfulness. "Strive to live these values and you can climb this mountain." Mary explains that it is not helpful to blame oneself internally, as it leads away from "the top of the mountain." Only through act of forgiveness towards oneself, one opens a new opportunity and thus it becomes possible to "climb up" and reach the "top of the mountain".

She explains, ***"Many of you are already doing it automatically. You feel the pull of the light, the presence of the Christ energy, and you naturally want to surrender to it and follow it. Do not condemn yourselves if you do not succeed in implementing it every day. Rather, strive to always become a little better. Always be a little bit more luminous. Always be a little more courageous, be a little more truthful. To let love into your heart a little bit more and more. This is how you stay on the path. Forgive yourself when you don't succeed; when the temptation was too strong. Lay it at Jesus' feet in repentance and humility and try to become a better person every day. In this way you create a truly God-fearing life for yourselves."***

In the name of the Father, the Son and the Holy Spirit.

#70 MESSAGE FROM MAY 8, 2023

THE BLESSED VIRGIN MARY "THE ENERGY OF THE CROSS"

Our Lady appears during the prayer group. She is very tall, wears a white dress and a veil. She glows and her heart shimmers pink. This high form of love that emanates from her can hardly be described with human words.

Images of water, waves and crosses now appear again and again. The image of water flooding sheep meadows also arises, so that an association with Ireland arises. As if it were Irish meadows being flooded.

Jesus, dressed like a king with bare feet, crosses the image. He is immaculate and regal. He says, **"It is important that the energy, the essence of the cross, can fill the world. That they are distributed everywhere."**

Jesus wordlessly communicates that there is power emanating from every image of Jesus on the cross. It seems that it is intended that this power be evenly distributed earthly. He explains that certain changes made by the Church have caused people to turn away and not be able to use this power provided, or worse, turn away and not take it seriously.

#69 MESSAGE FROM MAY 5, 2023

THE BLESSED VIRGIN MARY "STORM BELLS"

The Blessed Virgin Mary appears in a light-blue dress and mantle, mildly smiling, gentle and loving. She shows herself hovering over the planet Earth.

Mary wants people to know that she can bring enlightenment to all of us. Mary says: **"I protect all the children of men. I will never leave you alone. Never allow the idea that I might leave you or that I might miss something. I hold my protective hand over you. Trust in this: Nothing is left to chance."**

Further she explains that she cannot take away the people's free will. The people are also here to learn and to discern. She can only encourage them to choose the good path and support them in doing so. But she must respect our free will. She assures us: **"My children are safe with me. The sick and dying are also safe with me and I will accompany them after their transition and send heavenly helpers on their side."**

Now images of a war zone occur, a tank rolls through the image while the Virgin Mary standing to the side looking at the warfare.

She emphasizes: **"People don't know how powerful I am! If more people would pray, I could end the war immediately. But people don't believe in it anymore. Remind your brothers and sisters of this strength and power!"**

She asks the visionary to strengthen the "Field of Good Output." Not much is needed to end it, she says. But too few turn to God or Our Lady for help. Too few know her power.

Now Mary's face appears very large before the visionary.

She wants to give courage, to give hope. **"You are not powerless, human beings. A good outcome is possible."**

Our Lady stands in front of a deep blue sky and shifts the stars a bit.

She wants to express her power with this.

"It is more possible and even more positively attainable than your mind could imagine. I am the QUEEN OF PEACE. I can influence the course of the world."

Now Mary shows the visionary a very large wave rolling towards America from the sea at high speed. She asks the visionary to warn the people. So that they can make preparations, leave the coasts, bring herds of animals to safety.

The vision continues. The immense wave is rolling towards the USA. Towards a city with a big red bridge. Ringing of bells is heard - storm bells. Seagulls are startled, the wind whips. At this moment you still think that a storm is coming, but it will not be a normal storm, but a wave as high as a house.

In September. Meteorologists will be able to see this brewing disaster. [Hurricane season?] Ships on the sea will sink and sailors will perish. The water masses will cover fields, meadows and houses. People drown.

These floods are also part of the prediction by Jesus Christ, who announced that the water would turn against the people.

Now the face of the Russian president appears. He radiates - "Vengeance is sweet." The water will be unstoppable and it will cause immense damage. The consequences will be: Hunger, poverty, homelessness.

Our Lady says: **"It does not have to happen! I ask you to pray for it. God is able to do everything."**

She proposes a prayer crusade together with USA and asks to pray for USA. Preferably, all people worldwide should pray for it. It can be completely averted. As a farewell, Mary gives the visionary a kiss.

In the name of the Father and of the Son and of the Holy Spirit.

Amen

#68 MESSAGE FROM MAY 1, 2023

THE BLESSED VIRGIN MARY "BIBLICAL TIMES"

Mother Mary appears all in white, floating on a cloud.
 She wears a small, delicate silver crown and holds a golden sceptre in Her hand.
 Coming from the background, glistening rays of light surround Her.
 Mary says: **"I am the Queen of the Angels.**

I am the Queen of Peace.

I am the Queen of Angels.

I am the Mother of Christians, I am the Seat of Wisdom, my child.

I am the God-bearer.

I do not transgress.

I do not punish.

I love.

I admonish, I warn, I protect.

Are you ready?

But I warn you, it will be intense."

After a private message to the seer, the vision of the future begins for the public.

Shadowy images of a mob of people randomly arming themselves with objects emerge.
 You see an angry riot, people are very angry because of the conditions in Germany.
 There is a lot of unemployment and poverty. Some of the people have little to eat.
 Many bakeries have closed. These are dark times.

The mobs are getting bigger. They are flocking and more and more people are gathering at the Bundestag in Berlin. They want to make it clear that things cannot go on like this and demonstrate that they need the help of politicians. People are giving free run of their anger. The government officials, however, have their own way of looking at things. They do not see these hardships, or rather, they do not care about them. They have their own plan for the country. In the vision, their attitude seems ruthless, devoid of empathy. For the sake of good impressions, apparent help is granted to the population, but in reality nothing changes in the overall situation.

No great help is to be expected.

The citizens protest with signs and on the other side police squadrons on horses can be seen. They want to get the mob under control, but this is difficult because the people cannot be calmed down or contained.

There seems to be no violent rioting on the part of the police.

A little later, the people have ended their protests and leave without having achieved anything.

A great chill emanates from the government building. In it there is a kind of hiding place where the government representatives can retreat. Inside they couldn't be disturbed. Images of an arson attack on a government building flash up. It is reminiscent of German history (Weimar).

A vision of Germany in the future seems to be economically run down. Crime and human coldness are rampant. Poverty, many homeless and beggars characterize the picture. It seems dystopian and disturbing.

Only small plumes of smoke come out of the chimneys of the factories, the fires of the factories have gone out, companies have moved away. There is a strange atmosphere in the country. It is no longer as colorful, lively, bustling and cheerful as it is now (2023).

Germans are normally very industrious and work a lot, but there is no longer any sign of that in the vision. People are looking for work, but there is none.

The clear deterioration of the economy, is figuratively depicted as ruins.

But from this, a completely different society emerges. In the vision, shining lights and plumes of smoke rise from the ground, as if hope is rising. A symbol that there is also a magic in new beginnings. It also recalls a lyric from an old German song, "Risen from Ruins."

This situation also holds opportunities. A strong nation like the Germans, which has produced a great many medium-sized companies, good thinkers, reliable forces, workers, a diligent people - that cannot be destroyed so easily. You can try to humiliate it and make it small, but the essence of the German people cannot be destroyed so easily. Something good and new will come out of it -

is the hope-giving message that Our Lady does not leave unmentioned.

In the next section of the vision, it is indicated that the Chancellor's Office will stand empty, as if the incumbent Chancellor did not even exist - symbolically or factually. He seems to be irrelevant to the people.

The seer symbolically sees Chancellor Scholz in a huddled state, curling up in fear because he is strongly influenced and harassed.

He serves another master, who seems to have been commissioned from the outside. It is as if someone is standing behind him and directing him like a puppet. This is to be understood in an exaggerated way.

It means that he is not working for the interests of the Germans, but for the interests of another head of state.

He cannot break free from this either, because they control him for unknown reasons.

There are complexities to this. It seems to be a conclusion, an alliance of allies who have determined that certain countries should act in a certain way. The chancellor is not speaking the truth in this vision. To the outside world, he seems to be forced to lie because he would be immediately overthrown as a result. He has to put a "good face on the bad game."

This set of allies feels like a circle of heads of state and business bosses, etc. - extremely influential people - in whose midst the Antichrist moves.

It feels like preparation, like small steps on a staircase that keeps going up. Like a chess game. Different people make different moves and it's not easy to see from the outside, because you don't know the plan they have concluded inside.

This is something that can probably only be understood in context after the fact, since most of it takes place in secret.

The seer must shake when she perceives the Antichrist, who stands in the middle of the allies, and yet he still remains invisible.

The magical and spiritual connections are not clear to all involved. They have made agreements with people in this circle about a procedure, certain cornerstones, a certain plan, which is tried to be implemented and this serves nevertheless finally only the Antichrist.

This is kept under a cloak until a certain point in time is reached.

The English word "Rising" comes to the seer's mind. So the Antichrist will "rise" and rule for a certain time.

He will bask, (from his own perception) in his own light and brilliance, which he lets shine.

He puts himself above God and does not pay attention to the laws of creation. He thinks he is God or something equivalent, because he does not believe in the existence of a God.

Temporarily, he will symbolically sit on a "throne," but it is a very dark glow that surrounds him. Extremely uncomfortable and unpleasant.

Our Lady gives the visionary an insight into the nature of the person of the Antichrist. He has a very special look in his eyes.

The hellfire in his eyes and also the tendency to Satanism stand out there. He is full of dark magic. He performs satanic rituals.

Among other things, he seems to ritually slaughter goats.

He turns everything around. Just as he turns the Jesus cross upside down, he turns everything else upside down - as well as all meanings and values. With him, so to speak, up is down and down is up. He will completely and utterly confuse people. People will no longer know where up is and down is. He has a very strong mental power. It seems as if he can influence with his eyes.

The Antichrist is extremely manipulative, not reliable and he does not adhere to anything.

He is like a spawn of hell and driven by a dark magic. When the seer focuses on the fire in his eyes, she sees Satan flashing.

The essence of the Antichrist is like Satan. She sees Satan as he is pictured strikingly - standing in the fire with horns, rod and goat feet and red skin. The Antichrist has smoldering eyes with a tinge of green. This, however, is not the green flame of healing that Archangel Raphael guides, but like some kind of magical fire. His soul is deep black, as if covered in soot in dark shadows.

He will come to the top and rule over the world. It will be terrible years because people who are not established in faith will not understand it and will not be available for information from people who have seen through this. The Antichrist will be able to misguide a large part of the people. Those who have seen through him, he will hunt down. At that time, there will be people who see through his doings and are so solid in their connection to God that they will not be able to be influenced. They will find ways to evade it.

His reign will be a dark reign. It is the time of revelation. They are biblical times. They are the times described in the Bible about the end times.

The Antichrist will be completely visible in public and he will be able to turn the word in your mouth without you even noticing it.

Proverbially pretending an X for U. He is a master of manipulation, a master of deception.

But this time will also end. He will be allowed for a period of time to mislead people. It can also be seen as putting faith to the test.

But he will lose this throne again, because he has deceived. He is not God and he will never be God. He lives in a delusion and will be set right and overthrown at the right time, namely by the true one God.

This supreme authority will then put an end to the dark goings-on and restore the Antichrist to his actual position. Only those who are truly connected to God will survive this. Those who have strengthened their faith and are established in God. Otherwise, they will not be able to escape the nonsense that the Antichrist utters. In this time many people will be completely controlled by others and roam around like the undead, because they are no longer able to think for themselves. They will be numb.

God allows this and will end it again in due time. This will be followed by the Last Judgment. This will be a complete state of emergency. There will be three days of darkness. The sky will be darkened by beings of the night. The trumpets of the last judgment will follow and the divine sorting will take place.

Now Mary appears again and the vision is finished. She had announced at the beginning that it would become intense and so it was.

Mary makes a sign of the cross and says goodbye.

In the name of the Father and of the Son and of the Holy Spirit.

Amen.

#67 MESSAGE FROM MARCH 27, 2023

THE BLESSED VIRGIN MARY "WAR COMES TO ROME"

An adorable presence fills the room - the Holy Mother of God has appeared. A holy, pure youthfulness and flawlessness emanate from Her.

She begins to transmit the image of a great river. From a distance, large amounts of water can be seen breaking down the 3 bridges that cross this river. Which place this concerns is not quite clear.

Then a new vision begins.

Out of a large crowd, a commander rides into Rome on a white horse, heading for a stone gate in the background. It reminds of antiquity.

He returns victorious from a battle. When the commander has ridden through the gate, a foreign army appears. It is a large army, consisting of many Asian-looking soldiers. [Chinese] They wear shimmering golden armor with pointed helmets and look grim.

Another image change - Our Lady shows herself standing in front of the Trevi Fountain in Rome. Next to her, a tank rolls into the city.

The feeling of war comes up.

Mary prepares us: ***"My child, war is coming to you. War is coming to Rome."***

#66 MESSAGE FROM MARCH 19, 2023

JESUS CHRIST "WHERE DOES PEACE BEGIN?"

Jesus Christ appears to the visionary and first speaks to her personally.

Then He says:

"Now let us come to the next part. A new escalation stands before and I would like to share it with you. As you have already correctly grasped, it is a possibility. If people continue to remain unchanged as before, this possibility will be within close reach. And yet, it is possible for peace to take hold of people's hearts every day. It is their decision whether they allow peace. Whether they want to achieve peace by supplying tanks or peace by sending the dove of peace. Think about it.

What is your idea of peace?

How do you create peace?

Where does peace begin?

Could it be that peace begins in each individual heart?

Inspired by the divine spark?

Animated by the hand that I place on the heart of everyone who asks for peace.

For himself and for the world.

Yes, my children, it is a time of decisions. And they are far-reaching choices.

So choose wisely.

What do you want for humanity?

What do you want for the continuation of your species?

How can you ensure the continuity of humanity?

Do you secure and strengthen it through warmongering?

Do you secure and strengthen it through weapons, through agitation, through hatred?

By focusing on what is not going well?

Or how does that work? How does it actually work? Tell me!

How do you want to decide it? How do you want to create it? How do you create a healthy humanity?

A happy humanity. A humanity united in peace and freedom. How do you do that?

You are all fortunate that there are those who hold the peace and light above.

Those who some call light bearers. Or I call them peacemakers. The wise among you, the seers.

Those whose sense goes beyond through time and space. So that they can grasp the core, the essence of things - as far as it is possible for them. But there are those who can see further than others.

And you are lucky that they exist. For they can warn you.

Come now."

Jesus reaches out his hand to the seer and smiles. Suddenly, the two of them find themselves in the air.

Around them are fighter jets. The jets are flying and shooting projectiles. The projectiles fly a short distance ahead and then fall down to earth in an arc.

"I want to point out to you that this is an option. It is not written down that this will happen. But it is a real danger."

Now a large Russian military aircraft appears in green. It is carrying a large hydrogen bomb in its cargo hold. It is dropped, hits the sea and explodes. There is a huge fountain, a shock wave and a kind of earthquake. Great devastation and chaos ensue.

People have to be brought to safety. Floods occur in America, with herds of animals also perishing. A real state of emergency is declared for the American population. This is officially declared.

It is a revenge campaign on the part of Russia because of the Nord stream blast.

Now President Putin can be seen. He has allowed himself to build such immense rage at this point in the future that he is no longer clear in military decisions. He sees himself as being in the right. From his point of view, he is taking revenge and his unwillingness to put up with the abuse (according to his experience) is as strong as ever.

As in earlier messages (from Mary, Jesus & Archangel Gabriel), it is conveyed through Jesus that it is in no way advisable to further irritate Vladimir Putin. It is also made repeatedly clear here that he will not back down. He will always strike back. And so the conflict will continue to build up.

It is not advisable to go further into conflict with him. That is clearly felt. A warning.

To everyone who can decide about it, let's say - "take a step back! Think how you can enter into negotiations with Putin, because this way it will get worse and worse. Putin is too proud and too stubborn to give in."

Jesus wants to draw attention to where it will lead if you continue to engage in warmongering. President Putin will indeed use such weapons and others like them. Jesus warns that it is dangerous to continue to engage in belligerence with this great power and to provoke each other.

He warns that it is insanely dangerous because Putin will eventually achieve a kind of frenzy. Then he will be indifferent to the victims of war. Who perishes, how much suffering occurs. At some point he will lose touch with it.

We are warned here by Jesus Christ that Putin will lose touch with humanity.

Jesus is concerned to pay attention to what is achieved in this way. Namely, nothing at all. Everything will be worse this way.

He asks us to go to church, to participate in masses, and thus to purify our own world of thought. He exhorts us to be attentive to our own thoughts.

To free oneself from the old; Perhaps to go to confession to give up the old, to free oneself from sins. This will help us to be close to Him, He says. To listen to His words, to align ourselves with it.

It will help to get through the general process of change and separation that is going on and to align ourselves. It's about positioning yourself on the side you feel you belong to.

With Jesus or not with Jesus.

If one takes Jesus' side, he recommends what has just been listed and beyond that, to engage with him. Series, movies, the Bible and in general books about his life and work.

To deal with his life, with the miracles he worked, with the word he spread.

All this can help to get through this time of purification, separation and transformation well.

By consolidating oneself in him. In faith, in light, in truth and in love.

Jesus thanks all of us. ***"I thank you. I am with you all the time. I never leave you alone and I can always help you if you ask me.***

In the name of the Father and of the Son and of the Holy Spirit."

Amen

#65 MESSAGE FROM FEBRUARY 16 & 18, 2023

THE BLESSED VIRGIN MARY - SHORT MESSAGES

February 16, 2023

Mary appears. She is very tall, wears a dark blue cloak and it looks as if the starry sky embodies her dress.

An impressive appearance. A big wave appeared before the inner eye and Mary said:

"The water is coming soon." The image repeats itself several times.

February 18, 2023

During the prayer group, Mary, the Mother of God, appears and warns of floods.

An image of crosses lying on the ground appears in the inner eye. The crosses move across the floor as if on an assembly line. The large gold-colored crosses are reminiscent of engravings on coffins. Again, an inner image of high waves across the sea and rocking ships appears.

The earth trembles. [Tsunamis]

Mary asks us all to remain in prayer.

#64 MESSAGE FROM FEBRUARY 09, 2023

THE BLESSED VIRGIN MARY "WITH THE PLANES COMES THE WATER"

The Blessed Mother appears. She stands in front of a blue sky. In the background, fighter jets fly past Her. The scene is accompanied by the noise of flying jets. In the next image, Mary is standing in the water and a huge tidal wave is building up behind Her.

She says, ***"With the planes comes the water."***

She warns of a pending threat. Dolphins jump through the sea water. The image of a distant city appears and Mary announces the flooding of a city in the United States. The amount of water that will reach this city is enormous.

The huge wave will also flood the Golden Gate Bridge. This is also to be taken as a hint for the place of the event.

The seer is asked by Mary to warn the authorities of this city in the USA. It is about the city where the Golden Gate Bridge is located.

[Note: later looked up: San Francisco.]

When asked to explain the connection between water and fighter jets, Our Lady explains that there is a temporal connection.

These events, she says, are sequential and related. She further explains that it is not about fighter jets in the United States.

The jets are Russian. A picture came up of 3 fighter jets flying side by side. One left blue smoke, one white, one red.

From the perspective of the plane, you can now see the flight over a beach; a coastline.

It's a combat zone. There will be an escalation there. "Cherson" On it can be seen how many suns and many moons rise and sink again; probably a symbol of time passing. Mary looks very sad.

This is followed by the image of a map of Russia, Europe and America. From the side of Europe, a huge wave is developing, moving towards the USA. It feels like Russia owns pipes under water that can cause floods. [It is to be understood symbolically.

In the vision it seems as if Russia would attack the USA in the future by means of flood waves.

It is possible that there will be a tectonic plate shift. It will not be clear that it was Russia.

The origin of the floods will be unknown.

"Warn your brothers and sisters in the US. Via YouTube. In English."

"In the name of the Father and of the Son and of the Holy Spirit."

Amen.

#63 MESSAGE FROM FEBRUARY 01, 2023

THE BLESSED VIRGIN MARY "ESCALATION STAGES"

Our Lady appears and she looks sad.

At the beginning She transmits a picture of a tank by the sea. Above it circles a bald eagle, which swoops down on the tank again and again.

It is attacking. You can see how the tanks continue their way along the water. They cover a long distance. At first it was only one tank.

The image changed over time to a long line of tanks driving one after the other.

It is about the Ukraine war.

Suddenly, the face of Russian President Putin appears. A glimpse of his person is provided and here it is indirectly communicated that he will not bend. The vision changes to the image of a brown bear (= Putin) sitting on the ground. Again a bald eagle (= USA) circles across the picture, this time above the bear. The bear stretches one arm up in the air to strike at the bird. Initially it is just a playful reaching up, before it becomes angrier and more aggressive. The eagle attacks and the bear swats it away. The bird goes down and firstly trots away with a reproachful look.

The brown bear now reaches another escalated degree of anger. The spit flies out of his mouth with rage. He builds himself up again, stands on his hind legs, because he feels strongly threatened [by the armour]. He now comes to the edge of furious rage, which almost, but only just, reaches madness. The bear's blood is boiling.

Afterwards, the brown bear strides in the lead with a whole pack of brown bears.

He brings reinforcements. There are different kinds of bears among them.

Then the image of a map of Europe and Russia appears. The countries east of Russia are now colored red. This means that countries east of Russia will participate in the war.

This again represents another level of escalation - the participation of eastern countries.

There is a risk of a world war.

Our Lady explicitly emphasizes the word "world war" and thus wants to warn against it. Another image with a bald eagle appears. It is in flight and fighting with a smaller bird of prey [Russian falcon called 'Saker'], which unfortunately cannot be properly defined. Then the bald eagle fights with a snake. The Chinese flag appears. Our Lady transmits the information that the situation will become very unpleasant if the Chinese interfere or participate in the war.

"Pass it on, my child. Pass on my words, my child. Be blessed with my love that embraces you.

I love you. I am with you and I will never leave you. Trust.

In the name of the Father and of the Son and of the Holy Spirit."

Amen.

#62 MESSAGE FROM JANUARY 28, 2023

JESUS
CHRIST "UNTIL SHORTLY BEFORE HUNGARY - PARTICIPATION OF
EASTERN STATES"

"I have a message for you." A brown bear appears before the inner eye.

"My child of truth, speak. Speak what I have to say. Speak the truth. Speak with courage. Speak with confidence. I am the Lord your God. I am Jesus Christ. Don't be afraid of what I have to say. Try not to judge it."

"Tell them that I love them. Tell them that my love is infinite. Tell them that I love each one of them and that each one is safe with me.

That each and every one of them finds their personal peace with me. Tell them that I see every single situation in every life.

That I know them, that I know it.

That I feel it, that I hear it and feel it and see it and experience it with you. And yet, at the same time, I experience it very differently. Because I know the plan. I look at it from the divine consciousness and so know that all is well. Whatever you are experiencing, know that it is meant to be.

Do not be disturbed by news, by videos, by countless impressions from all over the world. Turn exclusively to me, your Lord Jesus Christ. Your shepherd. For I am the love and the life and the way.

But now to what else I have to tell you."

As many times before, the tunnel of light appears, which Jesus enters with the visionary. Bright, luminous colors swirl into one another. At the end of the journey, Jesus and his companion enter an American military base that they had already visited in an earlier vision. [Note: see message 51 of 10/16/22.] As in the past vision, this one also consists of different stations.

At the first station, the image of a leopard and a tank appears again.

"Leopard tank." Thereupon Jesus warned that the USA does not mean well with Germany.

The two continue their walk on the military base and come to the second station.

Here a bald eagle can be seen and fighter jets. In this repeated viewing, Jesus wants to emphasize one piece of information that may have escaped the seer last time. The bald eagle circling above the action in the air swoops down in flight. He represents the United States. He circles and it seems he is monitoring the proceedings below to make sure everything is going his way.

The sky is full of fighter jets. Tanks roll on the ground. Their tubes are pointed upward.

As in many visions before, this battle takes place near the sea. The tanks are rolling to the west. They are accompanied by troops.

Soldiers move with them towards the west. The image changes. Now a kind of map can be seen. Like on a military map, the war strategy is shown.

A small symbolic tank rolls from Ukraine along the water to the west.

It is accompanied by troops of young men.

Again, the bald eagle circles the war scene in the air. In the meantime he drops something. However, this should not be misunderstood.

This is not about dropped bombs by the U.S., but about verbal spikes [criticisms] being doled out. As a result, the war continues to heat up.

The troops are clearly moving further west. They have left the Russia and Ukraine area and are moving toward the Baltics and Austria.

The map shows the troops moving until just before Hungary.

They are not entering Hungary. In general, the atmosphere is very heated and tense. To illustrate this, the picture of a balloon appears on which a needle is placed. If you push the needle in just a millimetre further, the balloon pops.

Then the scenery changes again, which takes place in the future. The brown bear can be seen. He is somewhere in a forest and he is very angry. In this context, the brown bear represents the Russian President Putin.

At this point in the future, Putin is so angry and upset that it brings him to the edge of his nerves.

No nuclear bomb has yet been fired from Russia's side and Putin is acting; thinking about what weapons he will use next. He is not seriously considering the use of nuclear weapons. The bear is now on its hind legs and raging. He pounds the air with his paws, lashes out and bites the air. From the bear's point of view, Russia is threatened and he thinks that he will not put up with all this any longer. Inside he is raging.

Now President Putin can be seen. In this vision he is sitting at his desk and it looks like he is approving a certain military action.

It seems as if he has approved something, for example, to bomb a certain area or people. The inner image of a long-range missile appears repeatedly.

The scene changes.

German Chancellor Scholz is on the phone with Putin, or rather they are somehow communicating with each other. The talks between the two heads of state fail. They will try to negotiate, to approach each other, but it leads nowhere. Putin's attitude here is consistent in this vision of the future. He is defending his country, from his point of view, in response to the "attacks of the West," and he will not be intimidated or pushed back. At this future point in time, he opens himself up to further levels of escalation, to strike back even harder than he has been harmed before.

Now a warship moves into the picture. This means that it is likely that there will be further arming. The warship fires projectiles towards the land. In the background, the rest of the fleet follows and, as in previous messages, this action takes place in the bay at the Ukraine. Furthermore, helicopters can be seen and deliveries are made (note: possibly food?).

Jesus announces a last picture for today. Under a blue sky with clouds a bird of prey flies. It is a bald eagle in a furious swoop. He gives a cry of attack. It is as if it is attacking the seer. Shortly after, there is a big explosion that takes place in Germany. To be exact, in northern Germany on the coast. A ship is on fire.

The ship does not seem to be directly at the harbor. It is still on the water. Either near the port or underway in German waters.

It seems like some kind of attack.

The impression arises that this fire attack would be a response or silent and covert threat on the part of the U.S. to a refusal to cooperate on the part of Germany. The background to this is not known. If this covert attack were to actually take place, the consequences for the German population would be far-reaching. The event can still be averted, it does not have to happen, but it is likely.

"Go in peace, my children. My beloved children. Turn to Me and peace will fill you again. In the name of the Father and of the Son and of the Holy Spirit."

Amen.

#61 MESSAGE FROM JANUARY 25, 2023

THE BLESSED VIRGIN MARY "RETURN TO RIGHTEOUSNESS"

The Blessed Virgin Mary appears. After a personal message, she delivers a message to the general public.

She radiates sadness, her heart is heavy. Mary asks us to repent and that humanity repent. She warns of a catastrophe, of escalation. It is a very haunting, intense feeling that Her presence triggers.

Inner images of tanks come up. Many tanks that were driving together in convoy. Suddenly the convoy makes a U-turn. The tanks go back in the direction from which they came.

Now a new image appears. A wide road lying in the fog, lined with narrow young trees. The entire image is predominantly in shades of white. At the end of the path, the dark silhouette of a man can be seen briefly, but he quickly disappears. Individual tanks pass quickly through the image from right to left. Individual disjointed images of war appear - rolling single tanks, tanks driving in convoy, flying shells, bombs hitting, as well as one particular very huge bomb hitting somewhere.

Maria feels very warning, very worried, her heart is heavy. She is crying. Mary is asking for repentance. She asks to come to her senses and leave the path of war. She suggests that an influencing theme of this current war is money. The inner image of a casino appears, where money tiles are pushed back and forth with sliders. The image of a pusher from the casino, who symbolically shifts piles of gold coins, indicates that it is about financial interests and that certain people or groups or the like "get" money. Money "get pushed".

Mary says: ***"There are people who have left the path of morality. The way of what is morally right and good. There are people who sell or have already sold their souls for money. They enrich themselves in war. I ask these people to repent. To return to the path of righteousness.***

I ask for repentance, because otherwise you are threatened with disaster.

I warn you against escalation. I warn you not to irritate Russia further. I warn you not to provoke President Putin.

And against taking him to his limit. I ask for more prayers for peace. I urge you to negotiate peace. Any levels of escalation are still avertable at this time."

When asked what more we can do, Mary replies that we are already doing a lot. All those who are already praying regularly may continue to pray. Pray even more to fill the atmosphere of the earth with positivity and the energy of prayers. Our Lady's radiance is now caring, loving and conveys security. Those who pray have much power and their prayers are filled with strong energy. A lot of good energy that can be used and if these people pray even more, it will have a strong effect.

Mary asks for trust despite the current situation. Trust in God. She emphasizes again that there doesn't have to be disasters, there doesn't have to be escalation. These scenarios do not have to happen. The flight of all these bombs shown before, can be completely averted. Everything can be completely averted. For this to happen, it is necessary that we let Mary take the lead. She can instruct us and guide us, She says. She will show us the way if we want; if we are open to it.

Mary asks the general public for prayers, for fasting and for conversion. She also asks for an inner attitude of peace, since this also has an indirect influence. She asks for conversion, because in this way many people can be spared much suffering.

In the name of the Father and of the Son and of the Holy Spirit.
Amen.

#60 MESSAGE FROM JANUARY 01, 2023

JESUS CHRIST "THE HEART KNOWS THE WAY"

At the beginning the Virgin Mary appears.

She wears a long, dark blue cloak and around Her head is a large halo in which stars are embedded. Mary radiates great power. At first she smiles at the visionary and comes very close with her girlish face, but then a wave of sadness reaches the visionary, which emanates from Mary.

Shortly after, first a little lamb appears and then Jesus. Standing before the visionary, He says, **"Follow me, my child. I have something to show you."**

A vision begins.

A little sheep is rampaging impetuously and running around. It is in an unusual environment full of distractions, raptures and occupations. It somewhat resembles a casino or the like. The place is cluttered and obstructs the view.

But a path suddenly opens up. The little sheep now runs quite elatedly, for it has found its way. There is only this one way for the little sheep. It is the true path for the little lamb. It is a path paved with bright, level stones, at the end of which waits a very large white light. In this large cone of light stands a slightly transparent Jesus with outstretched arms, who seems to merge with the light.

The little lamb has now understood which path is the right one. Jesus says, **"The light attracts the light."**

That is, the light in the little lamb's heart automatically attracts it to Jesus' light. It cannot escape this strong attraction, it resembles a magnetism. Through its heart light, the little lamb automatically orients itself to Jesus' light. It stands symbolically for countless sheep in the world and to leave the figurative it stands for countless people in the world. These countless people feel the same way.

They also feel magically attracted.

As if in a crowd, they stand in a semicircle around Jesus. He is a luminous orientation, a luminous mark. And Jesus indicates that this will increase. The more that happens around us humans, the more darkness there is, the more chaos, whatever it is the more of that happens, the more people reorient themselves, He says. People go inward and find their orientation in Jesus.

Jesus also explains that in this, slowly but surely, there is a separation. As if one were tying apart coarse meshed fabric. This image comes up. And the threads at the edge of the cloth halves stand out. It is a real separation. This separation arises quite naturally. Some are oriented to Jesus, others are not. And it may be that over time people spontaneously change sides again and again.

They feel that they are not right where they are. That they belong on the "light side". And this "change of sides" is allowed. Jesus announces that this process will continue for a while.

The other side is tricky and you have to be careful. They try to entice and try to pull people to their side. They do this with money, status, possessions, promised wealth. However, there is a catch to these offers from the other side. These offers have something devious, deceptive, tricky. For example, it is about work that is not done honestly with a pure heart or intention, but it has something harmful. It serves only one person, namely oneself, or even explicitly harms others.

Jesus warns us to be careful.

The present time represents a kind of time of decision and sorting. One sorts oneself out. In doing so, one can fall from grace or fall for these machinations. The "dark side" continues to pursue the goal of weakening the light or undermining the good. Jesus warns against selling one's soul for any kind of wealth, for goods or possessions, and in return letting oneself be carried away into something that harms others. Jesus warns against this very explicitly.

Now He holds a golden scroll in His hand, unrolls it and says: "**to the Holy Father: [...]**"
He transmits part of a message to the Pope.
