#59 MESSAGE FROM DECEMBER 20, 2022

JESUS CHRIST "THE OCEANS"

The apparition begins.

Jesus Christ says, **"I have something to show you. Are you ready?"**

When asked, He confirms His presence, "I am the Lord, my child. I am the Lord. I am Jesus Christ."

Asked by the seer to present His wounds, He said: **"I am the Lord Jesus Christ, who died for you and for all for the forgiveness of sins."**

He is then seen hanging on the cross, wearing a crown of thorns. It is a very painful suffering.

Drops of blood run down from the puncture holes of the thorns.

A puncture can also be felt, probably made on the rib cage, near a rib. **"Is this enough for you?"** asks Jesus.

"Then come along now. Get ready. I'm going to take you with me. I want to give a warning."

Jesus and the visionary enter the already familiar tunnel of light made of colors. This is followed by a vision of water. A giant wave appears. It emanates from the sea and washes over the land.

"Warn your brothers and sisters of the coming flood. The water will overflow its banks. The water will then no longer be your friend. Until now it was your friend, but it turns against the people. It will overflow its banks and take revenge. For pollution, for fish deaths, for the selfish use of the seas, which should serve the capital of the people. The water will rise. The water, the seas of the world will rise up against the people and destroy large parts of the land.

But don't get me wrong. It is not that the water has a will of its own.

It is rather that, in a sense, "the pendulum" is swinging back for the pollutions and selfish uses of the seas that mankind has committed and continues to commit. And it is a cry of nature that indicates that something has gone wrong here. It is, so to speak, a logical consequence, not in the sense of the water's own will, but as a logical consequence of nature, which now wants to purify itself.

Because it is also subject to the purification process. It is important for a peaceful and successful life on earth that mankind cooperates with the water and the seas and does not pollute and poison and destroy them. There will be flooding. There will be flooding of large coastal areas.

The people on the coasts will need help." "Whale deaths. Fish kills."

"Respect the water, Respect the oceans. Respect nature and live mindfully with it."

"In the name of the Father and of the Son and of the Holy Spirit." Amen.

#58 MESSAGE FROM DECEMBER 14, 2022

THE BLESSED VIRGIN "SPIRITUAL QUAKE"

Crowned with a large golden crown, the Blessed Virgin Mary appears holding a scepter in one hand and the infant Jesus on the other arm.

She is dressed in a white long dress, with a turquoise belt playing around Her hips

"I want to give a warning," she says. Mary radiates something cautionary. She exhorts us to keep the glory of God, to pay attention to it.

She warns that there are many sheep who have gone astray or who threaten to go astray.

"They allow themselves to be blinded. They no longer know what is right and wrong. They no longer know what is truth and lies. They fall for lies that are spoken in public. It is the wolves who are behind them. It is the wolf, the beast, that brings the lie into the public;

that brings temptation into people's minds."

Mary admonishes us humans and reminds us that the truth is only Jesus Christ.

Jesus Christ is the truth and only those who are oriented and committed to Jesus Christ and who believe His Word have true orientation.

For He is the truth and the life. And all others who claim this are lying, Mary warns. **"They want to put themselves in His place, they want to be at the top, but they are not due this position.**

And yet, in their delusions of grandeur, they want to occupy that position.

There are people who will fall for it. Those who do not understand that only Jesus is the truth and only He can have the leading position at the top. The lie will go around. The lie will be widespread and it will be presented as if the lie is the truth."

We are to be prepared that very soon a "false game will be played with us."

Within the vision comes the feeling of an earthquake, however, it is not the announcement of a physical earthquake, but the warning of a spiritual quake, a "being shaken through."

Soon a time will dawn in which we will be very "shaken through," in which we may falter.

Our Lady admonishes us and invites us to unite ourselves once again more and more with Jesus Christ and with the Father, the Lord our God. He alone is the truth and the life and to use this shining star in the firmament, this beacon of life, which only belongs to God and springs from Him, as orientation is now our task.

As well as to strengthen ourselves in faith, to strengthen our connection to Jesus, to go to church, to receive the Eucharist and to confess.

Because the purer we make ourselves inwardly, the less susceptible we are to the lies, she explains. That is, we are asked to establish an inner purity of soul, again and again. To turn to Jesus and give him our sins; the transgressions, the stain that is on all of us. She asks that this be done, if possible, in church with a clergyman and to receive the Eucharist through a clergyman as often as possible. For now soon will dawn that time when we will be "shaken through." It feels like an earthquake, but what is meant is again the spiritual quaking.

"Make yourselves ready," She says. **"Make yourselves ready. Prepare your soul, purify your soul. Strengthen your faith. Confess your sins. And find peace in your Lord Jesus Christ. Give thanks for your trust. Give thanks.**

In the name of the Father and of the Son and of the Holy Spirit." Amen

#57 MESSAGE FROM NOVEMBER 30, 2022

JESUS CHRIST "A GRAIN OF SAND ON THE BEACH OF TIME"

Jesus Christ, the Son of God appears.

The apparition is very tall, has shoulder length dark hair and wears a white robe. When prompted, He presents the seer with His wounds on each hand, which consists of a large bloody hole in the palm of each hand, which is also surrounded by blood.

"Are you ready? Come with me." says He. **"You had some questions and I want to answer them. Are you coming?"**

Again, a stone wall with an archway passageway appears in the background. Together, Jesus and the seeress pass through the stone archway. Images, scenes, and colors fly past them; as if the story were once again playing out in fast motion. **"I will guide you. Trust me."**

Arriving on the other side, God waits in the form of a glistening great light. A strong love emanates from it. **"You are embraced, my child."**

This means embraced by love and secure. **"In so many times before and in so many times to come."**

At that moment, it feels like there is no time. As if life is a never ending journey that takes place in a second.

As if it were a single grain of sand on the beach of time. Infinity.

God explains to the seer that life can also be viewed like a game something less serious. Our life is a slice of our infinite existence and God reminds the seer that she is infinite.

So do all other people who have forgotten this fact in the "game of life". Our existence is always based on voluntariness and there is no compulsion. The return home is possible at any time. That which is called death here on earth. In truth, however, it is a homecoming.

The love that emanates from God is beautiful.

There is no sorrow, no struggling, no conflict in it. It is exclusively a pure and peaceful being. It is harmony and love, perfect and meaningful. Everything has its optimal time in God, everything comes at the right time.

In the divine perspective, there are no mistakes, no "wrong."

There is simply this wonderful experience of living. God conveys to the seer, this pure joy of existence and lets her feel it.

In the feeling of this pure joy, there are no more unanswered questions. Suddenly, life is very clear.

Now the seer is further accompanied to a kind of castle in the clouds, where she has a personal conversation. [...]

#56 MESSAGE FROM NOVEMBER 24, 2022

THE BLESSED VIRGIN MARY "RUSSIA'S DECISION & LIQUEFIED GAS TANKERS"

The Blessed Virgin Mary appears holding a scepter in one hand and a golden orb in the other. She wears an embroidered white dress and a golden crown on her head.

She transmits a vision to the visionary.

In the first image she transmits, there is a tank by the sea. This image is repeated several times. This is followed by the image of a fighter jet. It flies over the tank and drops bombs. This image is also repeated several times.

Once again, the Mother of God appears with the scepter in her hand, but now she is holding the baby Jesus on her other arm. This is also repeated.

The feelings accompanying the vision are very intense. There is a great seriousness in the air. Mary also has a very serious aura. **"Pray,"** She says. A large white, very luminous cross of light floats towards the visionary again and again until just before her, and then it jumps back to the starting point, and then slowly floats towards the visionary again.

Then the scene changes. The image of the Russian president Putin appears. This situation takes place in the future. He is arranging something on his desk. His brow is furrowed and he seems to be thinking about what to do next. He faces a major threat and has a moment of uncertainty. He looks worried.

Putin is looking out the window and it is as if he can see all the way to a country where a nuclear bomb has gone off. This is to be understood symbolically. The image reflects the issue at stake. He is also threatened with this bomb. This he follows anxiously and it is not what he is aiming at.

It is a point where the noose "tightens" for him. He has to decide whether to launch a nuclear attack or whether to defend himself in this way. He feels backed into a corner.

It is clear that he distrusts America. Now it is as if Putin could see from his window to America, across "the big pond".

However, he has no intention of attacking with nuclear weapons.

It is an option he denies. Even if he has strategic considerations and sees this possibility, it seems that he has decided not to do so.

It seems to be a moment in the future where it is about to escalate. In this vision, America had clearly threatened to use nuclear weapons shortly before, and Russia is now weighing its course of action.

The image switches to American President Biden, who within this vision at this point in the future is embraced by madness, which drives his decisions. He is pursuing a specific goal that is neither affirmative nor beneficial to humanity, nor to life itself. The perspective of vision now changes and it is as if President Biden could see from Washington all the way to Russia. From Biden goes a blame-shifting accusation toward Russia, as if he is pointing the finger at Putin. It is a very one-sided view that does not take in the big picture. It's more of a black-and-white view that is exclusively oriented toward America's interests. The perspective of the adversary is left out.

It seems as if the rest of the world has to follow America's lead. Again and again, the image of a giant bomb appears.

Now a huge, slightly transparent Jesus emerges from the clouds. Jesus holds a staff in His hand and it is as if He stops bombs that are in flight and drops them to the ground. It is a moment in which time seems to stop. He emerges from the clouds and everyone can perceive Him. He is huge and dazzlingly bright. Jesus personally intervenes in the war.

He radiates a great peace, a lot of goodness and love. Across all countries He moves like this across the globe. With bare feet and white robe, He is seen walking while holding His shepherd's staff in His hand. It is as if a kind of explosion of light emanates from Him - for lack of another word - "explosion of consciousness."

As if a sudden "leap of consciousness" overtook people, like a kind of enlightenment. Through this event they are reminded of themselves. They ask themselves "what am I doing here anyway? Who am I really?".

But they are also reminded of the connectedness and heart connection to others, of love itself, of love between people and togetherness.

This particular moment seems to lift the consciousness of all people toward the level of Christ consciousness.

People are remembering who they really are and what they really want here on earth.

They are changing in the direction of love. It is an imposing and overwhelming picture.

Now warships can be seen on the sea near the land. At the moment of the explosion of light, the ships break up. Possibly this is to be understood symbolically. The mission of the warships is finished and they stop fighting each other. It is a moment when the world stands still. In which one pauses and inwardly rights oneself again.

Jesus is now standing at a gallery on a staircase without a railing. He takes a few steps down the stairs and reaches out to the visionary, who is below Him. Jesus pulls her up to Him.

They look down together through the cloud cover to the earth. From this perspective, everything looks very peaceful. It is a view from very, very high above, allowing a view of the continents and the oceans of the world as clouds pass through the picture. Rays of sunlight flash through the cloud cover.

The seer now takes a step forward and glides down to earth. While it seemed very peaceful from higher up, what is happening from earth is very confusing and can only be judged to a limited extent. The view literally only goes as far as "the next corner". The view from above is not possible without further ado. However, only the view from the higher perspective opens the idyll and also the certainty that everything is in the best order. So to speak the perfect divine order.

Thus, the insight is conveyed that from a human perspective we have only an extremely limited view, while the true overview and knowledge of the order only Jesus and God have. The Order of Things. It indirectly asks us humans to trust in Jesus and know that there is no need to worry.

Again, the picture changes to a spreading, ever-growing fire. Exploding oil drums. A helicopter flies above the fire in the air, a siren sounds. The fire seems to be quite unnoticed at first, allowing it to spread, followed by an explosion. The emergency services then arrive, but by this time it is too late. There is a massive explosion.

The vision here is not entirely clear, but it is either an LNG (liquefied natural gas) tanker or a corresponding terminal. Again and again an exploding and burning ship appears before the inner eye.

Our Lady now points out that it is only a danger. The operators are to be warned. This event would take place in 2023 and Mary asks to pray the rosary. She asks to pray for the averting of this event. **"Pray for the good outcome,"** She says. **"Pray for the averting. Pray for peace between countries. Pray for the averting of attacks. Increase your efforts. Please a rosary daily."**

Prayer may take place outside of digital or telephone meetings, at the same time in spiritual connection, he said.

"Better, however, would be two rosaries, if I may ask it of you." For this, the small prayers could be omitted.

She asks that the rosary be prayed because it is the strongest. However, she thanks everyone for every prayer that is said.

Every prayer is important, she says, but here we need a special power and it comes from the rosary. She asks that the rosary to the Sorrowful Blood be prayed.

This should be prayed for three months in the prayer group. She thanks all the members, including all the new members. She is pleased that the group is growing and holds out the prospect that more will join as time goes on.

Again, Mary refers to the fact that a difficult time will soon dawn, but also asks to remain calm. She warns against playing out disaster scenarios in one's mind or indulging in wandering negative thoughts. She cautions that warnings are for specific areas and that rarely or never is everyone affected the same way. But it's still important for everyone to be warned, she advises.

There should be people who are informed about this, Maria advises. The point is that some should be armed by being informed and not being so easily hit by events. This way, they can better stand by others.

"Those who are strong in faith will not be dropped. If they believe strongly, they will be taken care of. Even if there are times of shortage, there will be ways for Jesus to provide for His sheep."

It urges all of us to keep our fears in check and not let ourselves fall into them there.

In the name of the Father and of the Son and of the Holy Spirit. Amen.

#55 MESSAGE FROM NOVEMBER 17, 2022

JESUS CHRIST "MATTHEW 8"

Our Lady appears before an illuminated cloudy sky.

A strong white light emanates from the entire image. A worshipful and at the same time respectful sight. A little lamb emerges from the clouds, while the Blessed Mother disappears.

The little lamb is also bathed in glistening white light. It radiates very strongly and infinite purity emanates from it. It remains like this for some time. Then the image changes.

Now a flagpole leans against the body of the little lamb. The flag on it has a white background with a red symbol on it. The little lamb pushes a black book with golden pages to the visionary and says: **"Matthew 8"**.

#54 MESSAGE FROM NOVEMBER 10, 2022

JESUS CHRIST "ISAIAH 5"

At the beginning of the apparition, picture appeared of Jesus leading a long line of sheep one by one into a marked-off paddock.

He said: **"In as much as you did it to the least of your brethren, you did it to Me."**

Jesus showed the seer a book bound in black with a gold cross on it.

He handed her the book (the Bible) and said, **"Isaiah 5."**

This is about the state of the world. Jesus got a slightly depressed look.

"Faithful child, do not worry. Pass on My words. Trust My word. Pass it on."

#53 MESSAGE FROM NOVEMBER 05, 2022

THE BLESSED VIRGIN MARY "ARMOR OF LIGHT FOR THE WINTER"

The Holy Mother of God appears. She shows a mild smile, but has a warning radiance.

The first vision begins with a starry sky. A shooting star flies quickly through the image. A large bonfire can be seen on the ground. With folded hands, Mary stands before the visionary as if to ask her for something - like a friend asking another for a favor that is important. Mary asks the visionary to give a warning. People on the northern coast of Germany are to be warned urgently. It is important that they be warned, Our Lady emphasizes. She says it can be averted. There is still some time, she says. The visionary receives more detailed instructions on this.

"There is something else," Our Lady explains. It is about the coming winter, She says.

"Price shocks. Food. Food shortages."

Our Lady tells us that we (the German people) should prepare for food shortages, for rising prices, and for less mobility.

To being more constricted, or to less freedoms. She also announces dictatorship-like circumstances and that there will be a political upheaval. The image of politicians with grimaces instead of faces appears before the inner eye. This indicates that the political leaders will yet reveal their true face.

Mary predicts: "They will humiliate the people. They will make it look as if you should trust them.

As if you could entrust yourselves to them. They will make it look like they have the best in mind for you. And will shamelessly abuse that trust. They will use it against you."

It is announced that measures will be taken, rules established, freedoms restricted.

They will increase surveillance, as if every single step should be monitored and controlled.

The "noose" will "tighten" figuratively. For the seer, it feels as if the people are being deprived of the air to breathe.

Our Lady wants us to know: Now it is necessary to arm ourselves and to prepare ourselves mentally and morally for the fact that publicly dictatorial forms of society will take hold.

Our Lady explains that this is part of the "purification process." It won't last very long, She says, but it will be intense. There will be a lot of lying. You can expect that "there will be lies that bend the beam."

She suggests forgiving those in charge in advance that they will engage in this behavior.

If you look at it from a heavenly perspective, they take on these evil appearing roles for people.

Out of love, they take on the roles. Even though it may be difficult to see from the human perspective.

This behavior serves to raise awareness and awaken the people, she explains. In this case, it can be helpful to think it through the other way around. Imagine if politicians did not exhibit this behavior. Could the truth be uncovered? Would the population begin to think about it deeply and come to terms with it?

Probably not. From this perspective, it might be more understandable. So we as a population may forgive them in advance for taking on this role and for the actual, real behavior that will bring out a true malignancy. However, as mentioned earlier, it will only last for a limited time.

Mary emphasizes how important it is to prepare and strengthen oneself, yes, to arm oneself. The feeling that is conveyed here is comparable to preparing for a fight. For example, when one prepares for an important competition, there is a plan. You eat well, train your body well, talk yourself up. Symbolically speaking, it is like putting on your knight's armor. This serves as a comparison of preparation for the coming time.

Mary recommends becoming even more rooted in the faith. She recommends connecting even more strongly with God and Jesus.

For example, by going to church more often, receiving the Eucharist more often, and praying more. Like putting on an armor of divine light, if you will.

This would function like a buffer, she explains.

As if we were wearing a thicker layer of light that would cushion or even keep out coming "attacks." It would even reflect back and reflect the attack back at the attacker.

Those who can strive for an even stronger connection to the Divine and immerse themselves even more in trusting God will be able to experience a certain lightness and carefreeness.

They will know that everything has a purpose and everything is right as it is.

That God knows what He is doing. They will know about their own security through God.

"I am in an infinite security when I anchor myself in God." This is what Mary wants to put on our hearts.

Our Lady rejoices in Mary's devotees, Her "fans" throughout the world, who have increased their light; who have become even more luminous, even more radiant. She says how important it is that more and more people unite, more and more come together.

Like a chain of lights, sending out positive thoughts and words, prayers of hope, love and mercy. She says this contribution is immensely important and She thanks those who do this work.

To those who make such an important contribution by sending out such positive waves.

Speaking positive words, wishes, prayers and thus contributing to the collective, improving it and helping it.

This is very helpful and She thanks all those who do this. Mary assures Her blessings to those who give Her their hearts.

"Please pass on my words, my child, to your brothers and sisters who are thirsty for news. Thirst for hopeful news, but also important predictions and warnings that will affect their lives.

Prepare yourself, my child. Prepare yourself for the storm that is coming."

[here follows another personal warning for the seer].

In the name of the Father and of the Son and of the Holy Spirit. Amen.

#52 MESSAGE FROM NOVEMBER 02, 2022

JESUS CHRIST "TANK BY THE SEA"

"I am Jesus Christ, my child. I am Jesus Christ. I am your Lord, Jesus Christ."

With these words the apparition begins.

"I want to show you something." He says. "My child, trust your perception. I want to show you something. Come with me."

Jesus stands in a kind of archway of stone and asks the seer to step through. He lets her go ahead and then follows her. Images appear before the seer's inner eye. There is a coastline by the sea and a very long beach. One can see very far into the distance. Tanks appear, moving along the sea.

A large bird flies over the sea. As in the previous vision (of 16.10.2022), it is again a bald eagle, symbolically representing the USA.

The bald eagle pushes its feet forward and goes into a dive.

The image changes.

An airplane crosses the sky and drops small packets over the area, gliding down on small parachutes. Then the image changes again to the bald eagle, which is in a dive; as if it were attacking. The combination of the pictures coast - tank - eagle is to be understood in such a way that the troops will move on along the sea (as already announced in an earlier vision (30.07.22)), thus the war will expand along the sea and the USA will "interfere" in this. Again, the image of tanks on the water appears. Many tanks are driving in a row and they have their pipes extended upwards.

Shortly after, an unknown senior military official appears in the vision. He wears many colorful medals on his chest, decorating his dark green uniform. This unknown gentleman communicates nonverbally with the visionary and is obviously trying to communicate something. With his arm outstretched, he points to the sky, where fighter jets appear. A whole formation of fighter jets covers the blue sky.

A disturbing, depressing image. Bombs fly, people scream, cities burn.

The senior military official makes a very determined impression. He belongs to the Russian military. With his finger on his lips he hints at a secret, i.e. he or within the Russian military something secret is being planned.

Then a soldier comes out of the background and rolls something into the foreground. This particular weapon or bomb is relatively large (comparable to, say, a large dog rolled up), round, and must be transported on a rolling base. In the following, a rocket flies into the distance. It flies very far. Where it lands is not visible.

The picture changes.

President Vladimir Putin can be seen. He looks dismayed. Putin is taking strategic military advice and weighing his decision.

A group of high-ranking military officers stand around him, who in turn also wear colorful medals on their chests. The president sits at a desk on a chair with a padded high back with elaborate fabric designs. The group stands in a pompous-looking room with elaborate wall decorations.

On the whole, the Russian president appears very calculating and deliberate in this vision. Cold, analytical and with a razor-sharp mind.

Putin signs a document, which can also be understood symbolically. In any case, it is about the use of certain weapons and a long-term planned war strategy that includes all eventualities. To paraphrase: "In case x, we respond with x, in case y occurs, we use xy."

Once again, the image returns to the tanks by the sea. It becomes apparent that they have left a field of devastation in their path.

Again the large plane from the beginning of the vision appears.

It is a military plane with a large cargo hold. Once again, the image of small packages falling down appears. They could be relief supplies (e.g. food or medicine).

The vision changes again. Now a huge container ship appears, which is fully loaded with colorful containers. The containers, for their part, are also filled. The ship is on the sea for several days. The path of the ship is partly marked on a map, but only on German territory. First it heads for a port in the west of northern Germany, then it continues east.

The ship arrives at the port of Hamburg. There will be someone setting a fire there. The image of the huge container port in Hamburg comes up.

"Warn them!" says Jesus. ***"Warn them about the huge fire. Warn them quickly. In the name of the Father and of the Son and of the Holy Spirit."*** Amen.

#51 MESSAGE FROM OCTOBER 16, 2022

JESUS CHRIST "BALD EAGLE IN A SWOOP"

"I am your Lord, my child. I am your Lord. I am Jesus Christ. Do you trust Me?"

"Yes."

"Good. Do you believe My words?"

"Yes, of course."

"Then I have something to show you. Follow Me." This is how today's Jesus apparition begins. Behind Jesus, a tunnel of swirling bright colors opens up, as has often been the case. Jesus radiates something warning. Already standing in the tunnel, He reaches His hand to the visionary and she grasps it. Together they move through the tunnel. He has put His arm over her shoulder.

Upon arrival, it is as if they are stepping out of an airplane; down a small staircase. They are in a hangar, a large hangar for airplanes.

However, they are not normal passenger planes but military planes of the Air Force. Jesus walks together with the visionary past the airplanes over an American military base. Over a wide path they pass a barracks with many small buildings.

An oversized tank drives past them. The tank looks strange; colorful wafting threads of light surround it. Like you sometimes see in movies with "enchanted" objects. Then an oversized cheetah appears, running very fast. The combination of these two images results in the association of the "Leopard tank" of the German Bundeswehr.

Hereupon Jesus says: ***"Germany is being used. It is being led like a lamb to the slaughter."*** ***"Come along"***, He then says.

Jesus walks on with the visionary and they turn down another street. From where they stop next, the horizon can be seen.

It is an evening sky at dusk and it is full of planes.

A thunderstorm is coming and lightning is flashing. ***"A storm is coming,"*** Jesus announces.

From higher up in the clouds, a large bald eagle now bursts forth and attacks some of the military planes flying there.

It appears like a war and it becomes clear that the images refer to the Ukraine-Russia war. The bald eagle stretches its body and targets the planes with its feet stretched forward. In this context, it can be assumed that the eagle symbolizes the USA.

However, the attacked planes are not Russian, but the allies of the USA. The damaged planes must now be repaired while the eagle disappears again.

There is now less air force traffic in the sky. The bald eagle returns home, which is shown here like a castle. He hops into the castle and is safe there. He is well. At the gates of the castle, there is an uproar, similar to a demonstration with signs and placards. The American bird of prey skillfully ignores the riot. He knows they are there and very angry, but in truth he does not care.

Then the vision changes. President Joe Biden appears. It causes a queasy, creepy feeling. His aura is terrifying. He appears malevolent. The seer receives more information about the American president within the vision.

It feels as if he is devious. As if he is not acting in the spirit of world peace, nor in the spirit of strengthening cooperation.

He turns around and leaves, leaving behind a pile of rubble. He does not care at all. He has only his own state interests in mind.

It feels like he is inciting war.

Now Jesus is back. He radiates infinite love. Again He puts His arm over the shoulder of the seer. Now they stand together at a precipice.

It goes deeply downhill there. They take a step back and turn around. Here a large plateau stretches out, an airplane landing field.

An airplane is landing there.

The airplane reminds of the strange looking tank - as if "enchanted". Around it, too, billows of light in bright colors. Together with the visionary Jesus stands at this airplane. It seems to be a fighter jet that can shoot guided missiles. These missiles move unpredictably in the air, in curves.

The appearance of the missiles is unusual. They have an elongated black part in the back and in the front they resemble a laser pointer.

At the very front, at the tip, they glow in pink color. Again and again the seer sees a rocket coming towards her.

Then the image of a map of Europe appears. Germany and Austria light up in red. Jesus says that Germany will be the victim of attacks by the USA. But it will not be overt attacks. It may be that the incidents will seem like accidents at first. Jesus points out that it seems that the USA are the allies of Germany. In truth, however, they seek to harm Germany, He says.

The map appears again, with the bald eagle circling above it. In flight, it pauses and in a dive, it swoops down on the map as if attacking places. This is repeated several times.

After attacking, the eagle hides in nearby rocks and points its wing away from itself at other animals. Like a bear (symbolic of Russia), which looks quite puzzled with dilated eyes and does not understand why it is accused. The false hostility makes the bear angry.

A new vision begins.

A cow with a thick bell around its neck can be seen. It stands symbolically for Switzerland or for the finances of Switzerland.

The cow is also attacked. It tips over to the side and falls. Jesus and the visionary return to the visionary's living room.

There He shows her more pictures. She sees a storm coming. Jesus says, **"A storm is coming. A storm to brave."**

He advises to literally hold on tight, to take your belongings to safety, possibly to take yourself to safety, and to wait until the storm has passed. **"The storm will be short and fierce."** Tornadoes also appear in the image. When the storm has passed, it is only then all the destruction is revealed.

But this also includes the opportunity to build and create something new. In rebuilding, Jesus will help us all, but He also wants us to be careful and take precautions.

It is a matter of basic provision. In fact, comparable to a storm. Preparing for it as if you can't leave the house. Having supplies of food and drinks at home, blankets, sources of heat and light, and candles. Also, a way to cook if the stove doesn't work.

He asks us to help each other, to help out others in need when the time comes. He thanks us. Again, the love that emanates from Him is felt.

He asks the visionary to warn her brothers and sisters. May she reach as many people as possible. It is important that many are warned.

Again He mentions the warning of Northern Germany.

He then makes the sign of the cross over the seer and takes His leave.

"In the name of the Father and of the Son and of the Holy Spirit. Go in peace." Amen.

#50 MESSAGE FROM OCTOBER 12, 2022

THE BLESSED VIRGIN MARY "TRUST & WARMTH OF HEART"

On the 1st day after the prayer break, Our Lady appears again to the visionary.

She began to transmit images to the visionary.

The first image was a kind of shooting shell. Our Lady wants to give another warning with this. She is indicating that the danger is not yet completely over; colloquially speaking, we are "not yet out of the woods."

"More prayers are needed," Mary admonishes. All people have flaws and bumps.

We humans cannot behave properly in every situation. That is what Her Son sacrificed himself for. She says: ***"Peace begins within. Peace begins with each individual."***

Mary stands before the visionary and a huge heart fills her chest. It is pinkish-red and golden, billowing rays emanate from it.

Addressing the prayer group, She declares: ***"The prayer order is to continue for another 5 weeks."*** Fasting and chastity on fast days are to continue. Fasting bread and water is best, she says, as it has the strongest effect. Light food rather exceptionally. The more we almost voluntarily, the better.

In this way we support peace, she says. She asks to remain in trust. If we pray, worse can be averted, she says. We should be prepared that it will take some time before there is divine intervention. It may be months. She will continue to accompany and instruct us.

The most important thing is that we trust in God. In that He will have mercy and provide for us. But she also warns that now an unpleasant time is coming (in Germany). She emphasizes that it is very important to keep the warmth of our hearts.

It has already been announced by her that emotional coldness will spread and Mary warns not to be infected by it. It will be similar to an epidemic; one does not necessarily notice the infection and it spreads unnoticed. Images of people appear whose eyes change.

They now look dulled. You can think of it as an image like an enchantment.

Our Lady emphasizes the importance of always turning to love, of surrounding oneself with love.

To look again and again into one's own heart and let love actively flare up there. Perhaps by being grateful or thinking of partners, children or beautiful experiences. But it is also possible to build up the connection to God and to ask to be enveloped by the love from the divine source; like a pink protective shield. This will shield us from everything with love.

She says if there are still misunderstandings, discords, quarrels we may lovingly close with them for ourselves. (For example, in the case of the deceased, with whom one can no longer speak, or when there is no longer contact with certain people).

In this case, one can thank each other for the time and whatever one can be grateful for. By forgiving and moving on, one can protect oneself from allowing poisonous thoughts to arise. We can foster love with each other by listening, offering help, being there for each other. Strengthen connections of existing love and closeness.

It is very important to strengthen these connections in love, to let them blossom and focus. The togetherness is to be strengthened. Mary gives this as a voluntary homework, so to speak. One should forgive one's own mistakes and the mistakes of others, if possible, in the awareness that everyone has done his best.

"I am the Mother of God, my child. I am the Virgin Mary.

I am the Mother of God. Trust My words and pass them on.

I thank you, my child.

Pass on My words.

In the name of the Father and of the Son and of the Holy Spirit." Amen.

#49 MESSAGE FROM OCTOBER 05, 2022

JESUS CHRIST "AT THE LAST SECOND"

At the beginning, Jesus confirms the authenticity of His appearance.

"You feel, I am Jesus Christ. I am Jesus Christ. I am your Lord Jesus Christ."

He stands in front of the visionary and says, ***"If you want to feel My peace, give Me your hand."*** She gives Him her hand, He pulls her out of her body and invites her to follow Him, ***"Come!"***.

A vision begins.

At first, in front of the inner eye, a ship with white sails and a high mast appears on a long coastline. The ship surges on the waves of the sea. Shortly after, a whole fleet of ships appears in the background. With a seagull, the seer climbs further up and now looks from far above at a large bay on a coast. A dark large spot similar to a building complex, which is difficult to interpret, can also be seen there on land.

Hundreds of ships are anchored in the bay. It looks as if a battle is about to begin, a scene of war. The presence of the fleet of ships is to be understood as a threatening gesture.

Again and again the seer hears the word "Odessa".

Suddenly, the water begins to tremble and ripple, and it is as if something enormous were rising from the sea like a mountain.

It's a giant Jesus. He stands in the middle of the sea at the coastline and shines in bright, white light. He outshines the events there on the coast.

Jesus gives the seer to understand that He will put an end to the warfare. But His intervention is still some way in the future, so it will still take a while. Until then, the warfare will continue to develop.

However, Jesus makes it clear that He will intervene before it fully escalates.

He says He will put everyone in their place and point out their "game" and their own abysses into which they have slipped.

"Speak the truth, My child. Speak what I show you. Trust your perception."

After the transmission of a personal message, he takes leave.

#48 MESSAGE FROM OCTOBER 01, 2022

THE BLESSED VIRGIN MARY "WAR IS AVERTED"

Already on the 5th day of the 11-day intensive prayer time (25.09.22), Mary asked to perform a common peace meditation.

Following this, Mary showed the visionary the image of a soldier on the battlefield (probably meaning Ukraine), holding a rifle at the ready.

Our Lady suddenly appeared in the background. She just stood there and remained silent. It was as if he could perceive Her. He was frightened and left the battlefield without having achieved anything. A few days later, at the end of the special prayer time, Our Lady appeared again.

At the beginning of the apparition, Mary transmits the image of a park. Behind the park, an explosion suddenly occurs. Red and orange fires blaze up. Radiation emanates from the explosion, because it was in a nuclear power plant. A bomb flew into a power plant. The background to this is unknown.

Mary stands in front of the seer and looks at her worriedly. It is a threat that can be averted through prayer. When asked, "*Must this happen, Mary?*" she replies, "**Pray, pray, pray.**"

She now comments on a new mission for the prayer group. From 02.10. - 11.10.22 the group may rest and pause the prayers.

After the break, the rosary of the day is to be prayed daily. Each of the participants may light a candle during this time.

At the beginning of the prayers, she asks to connect with her from the heart.

She says: "**Thank you for your service, for your obedience, thank you for your trust. I will not fail you.**" In addition, Mary explains that soon the mission of the prayer group will be fulfilled, to pray for peace. She says: "**War will be averted.**"

By being grateful for peace in advance, people can also support positive development. This also applies to the prayer group, she says.

Mary asks the visionary to hurry up with the publications. The visionary inquires about the movement of troops of the Russian army announced on 21.09.22. Mary answers to it, this development is still open. The prayer responsibility is now shared with other groups and all prayers are "collected for peace." She asks us to have confidence and assures us that she will not abandon us. Again, she thanks the group for the prayer commitment.

All people can support the positive development by continuing to visualize peace. Finally, a last vision starts.

A soldier can be seen holding a rifle at the ready. But instead of ammunition, he has filled it with flowers. He shoots the flowers at other soldiers and once they are hit, they are filled with love.

They also fill their rifles with flowers and shoot them at other soldiers. This is how it goes on and on.

Our Lady shows up on the ground in the war zone to express that She is there and is working. Again she asks to have faith in the positive outcome.

"In the name of the Father and of the Son and of the Holy Spirit, be blessed children of mercy. Go in peace." Amen.

#47 MESSAGE FROM SEPTEMBER 27, 2022

THE BLESSED VIRGIN MARY "FROM SORROW TO GOLD"

The Blessed Virgin Mary appears during confession in the 11-day period of intense prayer. After the visionary made her own confession, Mary encouraged her to pour out her heart to Our Lady.

Our Lady then appeared before a climbing hedge of red roses.

Jesus then appeared hanging on the cross. He was bleeding and drops of blood fell from His body to the ground. Red roses then sprouted from the drops of blood in the ground. Mary signified to the visionary that her pain would not be forgotten and that it was not suffered senselessly or in vain.

Then Mary pointed to Jesus, who suddenly appeared, radiantly bright, and He reached out His hand to the seer. He wordlessly made it clear to the seer that He knew her life. She reached out her hand to His hand and as soon as she was taken into His glory by the touch, everything was taken from her. Every pain, every suffering. He explained that suffering had a special value in His "dimension" and was respected by Him.

Jesus held out the prospect that at a certain (unknown) time all the pain and suffering would be transformed. It would be as if washed away and ultimately transformed into "gold".

Now another vision of Mary begins. She is wearing a white dress and veil and holding a bouquet of red roses. She is standing on a hill in front of a precipice and the visionary is allowed to come to her side to look together with her. The two look at a wide field, which is overshadowed by darkness.

On this field all hardships and worries, so to speak the whole world situation are summarized.

Quite abruptly, a huge star appears above the dark field. The shape of the star reminds a little of a morning star. It has a lot of spikes and a tail. The image is somewhat reminiscent of the star over Bethlehem.

Unnoticed by the darkness, the huge star radiates its penetrating brightness. However, hardly anyone takes notice of it.

Our Lady admonishes us: ***"The outcome of the world situation depends on you. You have events in your hands."***

Mary reflects our human way of thinking such as "how can I influence?", "life happens that way."

In a kind of time-lapse, many faces of people are played back, as well as their gloomy, negative thoughts are revealed. e.g. "I can't change anything about the war." or "I won't deal with it any further, it's useless anyway." and so on. Maria wants to make us understand that the decision for a thought is also accompanied by a decision for an action or no action. She explains that if one thinks, for example,

"I have no influence on that, it is also a decision not to act, even if it is a simple action like saying a prayer."

According to Mary, there are many people who think this way and who are convinced that they cannot make an impact.

She reminds us of the importance of thinking and that we can make a difference if we join forces with others. Again, a vision starts.

This time, a small light can be seen in the dark. It is alone and looks around disoriented. Now a whole chain of lights is added, in which the single little light can join. The image becomes brighter and more strings of lights are added. The result is a large ball of light made of strings of lights, which shines very brightly.

It symbolizes the power and bundling of the mass.

Bundled forces can move all sorts of things - is what Our Lady wants to express here. Our Lady emphasizes how important it is WHAT we think. She says, **"Every thought thought can act like a prayer."** She explains the connection that negative as well as positive thoughts are each accumulated, comparable to an account or piggy bank. Negative thoughts pay into the account for darkness, positive thoughts pay into the account for light. It is a reminder of how important and powerful thoughts are. Thoughts have a power of their own.

Figuratively, it could be, for example, a delicate smoke that rises from our head when we think. And this smoke has a power of its own. Either it gathers into other wisps of smoke or floats on alone, but the essential thing is that it persists.

Thoughts have their own energy and effect. Mary asks us to pay attention to which scale, which piggy bank we "pay into" with our thoughts.

Our Lady reminds us again: **"The war can end overnight. It is not necessary that this war escalate and it is not necessary that the war continue."**

As advice, Maria adds that people of all countries should unite. To build connection in other countries, to let big networks emerge in which we let love prevail. It is expressly about the heart connection between people, which should be promoted.

The image of a globe appears, around which chains of people have emerged, all holding a pink ribbon - love. It is to be understood as an invitation to connect with others in love.

In other cities, in other countries, but also in your own city. It is about bringing even more love into the world. Conflicts, wars, etc. can be outshone with the power of love.

They can be eradicated with it, dissolved in love.

Inquiry of the visionary: *"Mary, how should we do this exactly?"*

Mary says you can start with yourself and shows a picture for this. A pink paper chain made of little hearts, as one makes them in kindergarten, Maria puts around the visionary. She advises us to start with ourselves. To look at ourselves with love, to treat ourselves lovingly, to be kind and understanding to ourselves and to feel free. And when we have managed to look at ourselves with loving eyes, we can begin to talk about this love with others. And so it comes automatically that we speak loving words to others.

If we have difficulties with this development, we can ask Mary for help, She says. However, Our Lady also gives another warning.

She now shows the visionary various images - of people sitting at home in the cold. Of people for whom food has become scarce.

It is about the coming winter in Germany.

The federal state of Bavaria is mentioned in particular. She warns of a food shortage.

Our Lady's advice in this regard is to remain calm and prudent, but to prepare.

For cold and for a state of food shortage.

She advises to make provisions for these conditions. There is still some time to do so. An image appears before the visionary's inner eye in reference to this emergency.

Mary predicts: **"People will begin to pray in this distress. God will take care of those who turn to Him in distress. And they will not be disappointed."** Mary goes on to describe that God will send help, such as other people, like neighbors or friends for example, who will unexpectedly rush to help. Some people will notice after the fact that the help they asked for has come to them.

Also, Mary advises going to church in these times of need because the clergy will be glad that those seeking help are coming to them.

They will be glad to be able to contribute by helping to find solutions. In the community one is caught up and finds help there.

The images that come to mind are campfires, cooked soups, or baked bread that is shared.

Communities are the key to this time.

Mary advises against remaining alone at home in one's despair. If one does not feel a sense of belonging to the Church, one should try to seek out other communities or start some of one's own. It encourages us to be active and to look for solutions and other people.

Now a new vision begins. The vision contains a warning for northern Germany. There is a large fire on the site of some kind of company by the sea or near it. It is not quite clear to say.

The visionary hears the word "shipping company." The fact that there is a major fire on this site with a large fire department operation is a catastrophe not only for the operator, but also for the German population. Our Lady asks the population not to lose hope.

However, Mary holds out the prospect that the shipping company can be saved if the employees concerned immediately begin to pray the Rosary.

Mary issues another warning. The government already has plans for this event. A vision announces a major negative event that will severely shake Germany. Sirens are heard. Helicopters, firefighting helicopters and firefighters, as well as various emergency services, have rushed to help.

Images of fire and rising fumes and vapors keep coming in. It is not clear where and what exactly it is, but it feels like it has to do with poisons or chemicals. For example, an accident with chemicals in a factory or pharmaceutical company is conceivable. Toxic vapors escape there, so that the population living in the vicinity must temporarily evacuate their homes.

This results in water contamination, e.g. in rivers, and poisoned fish.

This event will initiate a new "phase" in Germany. The government already has plans for this event, which will take place under the name of a specific operation. From then on, things will get turbulent and uncomfortable in Germany.

Certain political circles are at least aware of this "operation" and are racking their brains as to what it might be. They only know that there will be a major event because it has been announced internally.

"My children, this is your loving mother, your motherly advocate speaking. My children, my heart is heavy. Heavy because of the dark times, because of the great hardships. But do not despair, my children, for help is near. Ask and it will be given to you. Help is there when you need it!"

I come to warn you. I come to tell you of times. Times when you know neither in nor out. Times when there is so much need that you will do nothing but pray and this will separate the wheat from the chaff.

And I do not mean this in a heartless or disinterested way. No. As your heavenly Mother, I come to show you the way to My Son. And as absurd as it may sound - in times of need even the most unbelieving people can re-establish contact with their original source, their Creator.

Please do not misunderstand my words. I feel everything that you feel. And I go through with you everything that you go through, but from a higher point of view. And so trust me when I tell you that all of this has a purpose. That all of this follows a divine plan, because communities will come into being. Believers will find their way back to God and they will find comfort and hope there. A comfort that they will not find in their world, in the material. And it will be a different experience of comfort. Comfort that is fed by the love of God.

Consolation that flows from the infinite source of love for you people. Comfort that will be so comprehensive, so overwhelming and so engaging that you will never again doubt that God exists.

And so healing shall also come to you. Healing of diseases, healing of infirmities, healing of physical and mental illnesses. Everything is possible to the love of God. And so you will be enveloped by His love. And so you are carried away by His presence. In the peace that you can find only in God. A peace that will mean everything to you. Everything and much more. A peace that can, will, go beyond your human measure of peace. Look forward to the hour when this peace will reach you, my children, because that hour is near.

And that hour draws nearer as you reach out to God, your Creator, and let Him take the helm. He can do everything. He has solutions for everything. From Him come all solutions, from Him come all blessings, from Him springs all creation.

And so do not despair, for the valley through which you will walk will be repaid to you a thousandfold. There will come out of it gold. There will be a peace and a love and a glory that will overwhelm you all. And so, look forward to the Day of the Lord, which is drawing nearer and nearer. Look forward to His return. You will hear the angels singing, you will listen to the heavenly trumpets. You will shout for joy and all sorrow and distress and pain will be gone. They will be dissolved in the blink of an eye and you will be full of the bliss of the Lord.

In the name of the Father and of the Son and of the Holy Spirit." Amen.

#46 MESSAGE FROM SEPTEMBER 21, 2022

THE BLESSED VIRGIN MARY "WAR IS APPROACHING!"

The Blessed Virgin Mary appears. She wears a white dress and radiates a bright white light. Mary radiates much love and gentleness, but also power. The apparition is verified with holy water.

At the very beginning, She abruptly says: ***"The war is approaching!"***

This is followed by inner images (visions) of tanks whose pipes aim in the direction of the visionary, but do not fire. Furthermore, images of a large army appear from above. A war zone is visible.

The troops now start to move, among other things along the sea. The image of a map appears and here a marching direction is shown in the form of arrows - arrows in the direction of the west.

This is to be understood as a warning from Mary that the Russian troops will or could move from Ukraine along the sea towards the west; that means that the war could expand. Our Lady invites all of us to send love energy in the direction of Ukraine and, if possible, to imagine together with many people a dove of peace over Ukraine.

She emphasizes that this vision is an urgent warning. Nevertheless, she asks us to remain in trust in God and in connection with divine love and to turn away from fear. She also asks us to say additional prayers in the prayer group on this day and the 10 following days, and to fast bread and water in addition

[Note: the comprehensive prayer and fasting assignments can be found in the "News" section].

As another image, Mary herself had appeared with the newborn baby Jesus in her arms. She had to flee with the baby into the desert and hide there. In the village she had just left, they were already looking for her.

It feels as if she wanted to show a parallel to the war situation.

#45 MESSAGE FROM SEPTEMBER 01, 2022- PART 2

THE BLESSED VIRGIN MARY "A TIME OF HARDSHIPS"

An apparition of the Blessed Virgin Mary begins, and when asked, She confirms Her person to the visionary.

Mary says: **"Love surround you, my child. Love surrounds you. Love flows around you. My love surrounds you, My love flows through you, My love is omnipresent. My love for humanity, My love for the world, My love for the children of men. I am the Queen of Peace, My child. Your divine Mother Mary. I am the Virgin Mary and I love you. [...]"**

The first vision begins. The Virgin Mary steps aside and behind her appears a flock of sheep. There are hundreds of sheep standing quietly together and grazing. Suddenly a kind of lightning appears from the sky, it is a moment of fear.

An image of Jesus rises up from the earth and the sheep crowd around it, trying to get closer to him. It's as if they can't get close enough to him.

Then a huge visible Jesus walks across the earth. He is magnificent.

It is clear: This is the Lord! There is no longer any doubt about who holds the real power on earth. But it is also a frightening moment for many, because some are frightened about themselves, to face themselves in his face. As if they were confronted with themselves at that moment. For some, it is truly painful because they suddenly feel impure and ashamed of themselves in His presence.

There are those who are prepared for this event. Those have been waiting for it. It is overwhelming for them too, but they entrust themselves to Jesus at this moment. Even with what they feel in themselves, where they have gone wrong, where they recognize their weaknesses. But they also know that Jesus takes it in. That He has mercy. These people are really happy to meet Him in this way and they meet Him with an open heart.

This process, this public appearance lasts a few minutes and it is as if time stands still. Everyone puts down their work, stops, interrupts what they are doing and is completely absorbed by this event. Nothing else can be paid attention to.

Let those who have not prepared themselves be warned. Some will be in for a nasty surprise because they did not believe the announcements and prophecies or did not know about them and are not mentally prepared for it. They can be "caught cold" by this event. For these people it is almost a little dangerous. They get so frightened in some cases that their hearts almost stop when they see their own mistakes. They will cower, cower to the ground. They don't know where to put themselves.

They have two choices now. Either they face what has gone wrong in your life, in themselves, they open up to that and acknowledge that and bring up a kind of remorse and allow the "look in the mirror."

[Note: Unfortunately, in the process of the vision, the 2nd possibility went down a bit because it happened too fast. From memory it was something like "not looking into the mirror and perishing"].

Looking into the mirror will be caught lovingly. It will not be that those who repent will be punished. It's not like that. Mary explains that it is important to reflect from time to time, to consider what one goes wrong. You can ask yourself questions like: What can I improve in my behavior, or in myself? What are my weaknesses and strengths? How does my behavior influence the lives of those around me?

How do I appear when I exhibit a certain behavior? Rather - how does it affect others?

Self-reflection should happen regularly; questioning yourself; or perhaps looking at yourself with humor at times, not taking yourself so seriously. Because it's about how we affect the lives of those around us. When we understand that, we figure out how we can all live together peacefully. How we can all live together without fighting each other, without judging each other or causing each other pain - one way or another. It's about living together, living together peacefully in community.

And also about the limits of oneself and the recognition of a higher power, the recognition of God, the respect for the one who created our lives. It is also about rethinking beliefs, or correcting them at that point, which may be corrected with Jesus' appearance. Before that, we still have the possibility to correct it and to accept the existence of a God and to subordinate ourselves under the power of God, under the creative power, under God.

Mary explains: ***"There are tendencies among people who spread the misconception that man is the highest form of life and that he himself is divine or above it. There are misguided beliefs among people who place themselves above God; who do not appreciate the value of life as such, or who make life subject to themselves. These believe that they create life. They can control life, not only their own life, but also the life on the planet. This misconception is dangerous."***

Our Lady warns: ***"Beware of such people. Beware of those who spread such delusions. You can recognize their megalomania in your heart as a lie. It is a small twinge in your heart, an irritation that lets you know that this is not the supreme truth, that this is not God's word. On the contrary, it is meant to denigrate God. Beware of such people."***

#45 MESSAGE FROM SEPTEMBER 1, 2022- PART 1

THE BLESSED VIRGIN MARY "A TIME OF HARDSHIP"

"There will come a time, a time of hardship. A time of famine.

A time in which the faith of all of you will be put to the test.

A time of need. A time of loneliness, coldness and a time of godlessness in society.

Renouncing your Father, your Creator, will intensify and is imminent.

And so I would like to remind you to trustingly turn to the Father and trustingly snuggle up to Him.

Because only there is true love. Only there, there is true connection, only there, does life spring forth.

So when you feel the coldness surrounding you, the emotional coldness, and you no longer resonate with your fellow human beings, with your brothers and sisters. When you no longer find people who seem to resemble your thoughts, your imagination, but there seem to be only those who march like robots, who obey blindly and who seem to have lost their souls, then you know that Jesus' coming is not far off.

This is a warning, a preparation for you to strengthen your faith in God even further, to strengthen your connection to God even more, knowing that one day it will benefit you greatly that you are unshakeable. That you are morally and spiritually unshakeable through your closeness to God, through the firmness of your faith. This future is still far away, but it is an important stage. The Last Judgment is still far away for you and I want you to know that the time of hardship is coming first.

Cuddle up to your Creator. Cuddle up to the Father. Cuddle up to My Son, your Lord Jesus Christ, who will overcome every boundary for you, who will fulfill every material need for you in times of need and so do not be afraid. This is the time. Let go of your worries. Let go of your fears and leave all work to the Father in this time of turmoil. I will be there at all times to place My protective mantle over you. I will be there when you need Me. I will be there to protect you and especially to protect your soul. Protect your soul from the attack of darkness."

Another vision begins:

A creepy picture can be seen.

A nun comes running towards the seer, dressed in old-fashioned clothes in a black robe and a white hood on her head which is flared at the sides and to the front.

Now there are two nuns. One of them looks at the seer. The other continues through a corridor. One of the nuns grimaces - almost demonically. She is no longer herself.

The image changes - now a whole mass appears where there are only nuns in a church and all those sitting on the sides of the aisle turn their heads to one side. They have a kind of wolf face. It means that darkness has also entered the church. The visionary sees more such images, which have been intensified in the direction of a dark mass, but does not want to describe them in more detail.

The Blessed Virgin Mary wishes to point out that the disintegration of the Church and Christian values will continue and that the Church has been infiltrated by dark forces. Mary warns of this decay and the decline of the Church and asks the faithful to turn directly to Jesus if they observe this and not to be discouraged or be infected by it.

Our inner compass, our heart, will know when we are doing something that does not correspond to our values.

It is the same when we act against Jesus' values, and we can protect ourselves from this and turn to Him directly to leave this issue to Him.

Mary blesses us and assures us of her care and affection, her motherly love.

She asks us not to be distracted from our positive path because as frightening as this time may be, she is always with us and some of us may already be able to perceive her more clearly.

So she leaves us a greeting, a motherly greeting and her blessing. Amen.

#44 MESSAGE FROM AUGUST 27, 2022

JESUS CHRIST AND ARCHANGEL GABRIEL "ORDER BEHIND THE EYE OF THE NEEDLE"

First, Archangel Gabriel appears and conveys a vision to the seer.

In the vision, a burning cross can be seen and a dark, evil figure that is also on fire.

However, fire is apparently the natural element of the dark figure, so the flames do not harm him. After a short time of incomprehension, the meaning of the vision is revealed to the seer. It is to convey the message that we as a society, as humanity, are in the phase in which the darkness continues to rise up and attack those who have committed themselves to Christ, to Christ energy and Christ love.

Generally speaking, it is the phase in which the darkness attacks the positive and tries to wound, to weaken. This means the attacks as well as the rebellion of the dark "forces" are not over yet and we are called to continue to persevere.

After a break, a new vision began, which first depicted the personal development of the seer. Perhaps one or the other will find himself in it; Therefore, this section is partly published with. The vision, which reflects rather the personal development of the seer, begins with a golden shimmering bull, which is shown in different phases of its life. Among other things, he must cross a precipice on a wobbly suspension bridge. Once he reaches the other side, he has to take a longer rest. There Jesus meets him.

After a while Jesus walks a few steps with the bull, who from now on has 3 people sitting on his back. He carries them effortlessly.

After a few steps a new plain opens up, which can be reached by descending a small staircase. The level has a wide expanse and can hardly be overlooked.

A thick cloud of powerful pink and orange energy bills on the ground. The appearance resembles a star nebula; the energy clouds merge into each other. It symbolizes a new kind of state of being. Almost like another dimension. Jesus accompanies the bull all the time as they pass through the pink-orange plane together. It feels very tedious because it is not apparent to the bull where the journey is going.

Only Jesus knows the way through the fog. He leads the bull into every corner, no matter how remote. Again and again people join the group. After completely all persons had joined, who seemed to belong to it, a new way opens.

This time it goes up a small staircase to the next level. In the meantime, a troop of bulls has gathered. In the first place runs the seer bull and he reaches following with the others a kind of lock on the new level.

The "passage" consisted of pushing through a tiny hole. It is about the size of a keyhole. In the vision, it looks like a cartoon as the bull passes through the tiny little hole - an absurd-looking and almost comical scene.

A beefy bull squeezing through a keyhole. The group of bulls and men follows. On the other side, Jesus is already waiting.

Again we find ourselves in a completely new environment. Here, only Jesus Christ is to be seen. Huge, in white robe - and angry.

He stands there - like the statue in Rio de Janeiro - with outstretched arms. He is just standing there and in the vision he is temporarily red - shining in alternation with white. Whereby the red is to be interpreted as rage. The righteous anger of God.

When Jesus appears in full size, shining brightly, the people throw themselves on the ground before Him or fall on their knees. But there are also those who remain standing, unimpressed by the appearance. Some of those who remained standing then fell down dead or were "removed" by Jesus. Soon after, in the vision, fire is seen raining down from heaven.

Around Jesus, flames are falling down from the sky to the earth.

It felt like a kind of "trial" in which order is ensured.

Following this, the earth is surrounded by a wave of light and the surface of the earth as well as the interior of the globe is penetrated by white light. It felt like the "end of the world." It feels extremely obscure and unusual.

However, it is not to be understood that after the end of this process all life will end, but that afterwards a new way of living will begin.

What exactly will happen afterwards is unfortunately not revealed in the vision.

#43 MESSAGE FROM JULY 30, 2022

THE BLESSED VIRGIN MARY "WAR AT THE DOORSTEP!"

The Blessed Virgin Mary is present and feels pure, strong and gentle at the same time. She is dressed in white and wears a white veil, dark hair.

She says, "*My child of wisdom. Hear my words. My child of truth - speak. Speak what I have to say. Empty yourself now, my child. I am delivering a warning. I warn you again, of the war that is coming to you. The war at your doorstep. Listen to my motherly words, my child. The war on your doorstep. Prepare yourselves. My beloved children all over the world. What misery afflicts you.*

What unbearable suffering, what tragedy, my dear children. I come to warn you. I come to speak to you. I know your distress. I know your pleas. I know your supplications. And be sure, you are all in God's bosom. There is no one who exists outside the holy creation. You are safe, you are cared for, you are warned, you are loved, you are life. And yet I am saddened by the state of the world, of human hearts that seem to have turned to stone. I assure you, everything will be taken care of at all times. But I wish you a different outcome. I wish that you do not have to experience this scenario, this turning point.

And therefore, I urge you to unite. You who stand for peace, you who all wish for peace.

*Become active immediately!
Form more prayer groups.
Form more peace associations.
Gather daily to pray in the community.*

It is very urgent. There is urgency! The need is urgent!

*And I encourage you to do this because I know you are able. You can turn it around. You can turn it around. You can turn the tide.
Be aware of this.*

Isn't it a fantastic idea? You have so much power, my children. You have so much goodness of soul. You have so much light and joy.

You have so much love in your hearts, the power given to you by the Father to stop a war. was.

Isn't it amazing?

So call me whenever you gather together. Whenever you pray for peace, call me and I will accept your prayers and strengthen them. Every prayer counts. Every good wish, every positive word, every beautiful thought, every joyful imagination. They all count! Don't think that it is already decided.

It is decided if you believe.

Believe that God can move mountains.

Faith can move mountains. Nothing is impossible for the father.

You call for peace and peace shall be given to you.

My children, beware, prayers can turn the tide.

If you remain inactive, it will worsen your situation. Then the war will come to Europe. The war will then move further into the center of Europe.

And not all my flock will survive.

Pray, pray for your lives. It's the last chance.

I am with you at all times and I will receive every positive effort with goodwill and I will support you in peace.

I will never leave you alone. Be aware of this. I am always with you.

Pray, my children. Pray.

In the name of the Father and of the Son and of the Holy Spirit. Amen."

#42 MESSAGE FROM JULY 20, 2022

JESUS CHRIST "THE PEACE AND THE MERE BEING"

After the personal messages, the visionary asks Jesus if He still has a public message.

She senses a heaviness in His heart.

Jesus says, ***"I am sorry for the dead of the war. I regret that you treat each other this way and that apparently large segments of the people seem to need this."***

He questions the idea of establishing peace by supplying weapons and that this is seen by the people as the solution.

For peace certainly cannot be established with weapons.

Jesus finds fault with the lack of peace consciousness. He regrets the consequences that follow for us. The terms wheat and gas fall, which He has already warned against several times.

He says: "For this the die is now cast.... .. unless they are not, ... Unless you still change your mind..."

Jesus comments today on various topics such as fears, accepting the state of life, and basic principles of life. At the end of the message, He inspires a meditation on peace.

In what follows, He first comments on fears and how to deal with them. Jesus again reminds us to take precautions. He repeats that He will not tire of reminding us over and over again that it [note: outcome of the situation] depends on us. He will warn us over and over again and help us prepare. It is important now to listen to your intuition, to your gut feeling. The seer senses a hint for the future that feels quite unpleasant.

It is another warning to mentally prepare for change.

He warns us that the process in which the darkness rears its head is not yet complete.

Jesus warns us that the dark is very resourceful in continually stirring up fears in an attempt to keep us on our toes; so that a sort of "panic mode" is maintained. Jesus summarizes that it is the only thing that the darkness can do. It is important not to forget this.

Because its frequency, its "dark power" is fear. Jesus warns us not to believe everything that is spread in fears in the public.

He now offers a change of perspective. Rather, He says, it is through this that we are urged to find our own inner peace, which is independent of what is happening around us. And this is a very important step, he says. It is part of the present situation. Jesus elaborates that if we can do it, we should try to completely block it out - the fear and panic mongering, or what is scaring us right now, such as other virus variants or war scenarios. There is a lot of fear in the field, in people's minds, and we are to try to separate ourselves from that fear, to let it stand. Just let it be there. Accept that many people are afraid. But not to let it penetrate to us. He urges us to work actively to maintain our own peace, to achieve inner peace. Everyone should use his or her own methods. And everyone should listen to himself, which is beneficial in order to remain in his own center. At the moment it is very important not to let oneself be taken over by fear.

The darkness also works, for example, through self-doubt; it can attack us through our thoughts. Therefore, it is important to observe our own thoughts and when we notice that we have a lot of fear, that we are very self-critical, doubtful, disoriented, then we can assume that the dark has crept in. This is the time when we should and may turn to Jesus again, so that He may help us to come back into His peace and into His all-encompassing love and bliss. Because in truth, there is nothing to be afraid of. One can learn to put fears aside completely and to give no room to fears at all.

This is a kind of "master degree," that is, a challenging endeavor - but it is possible, He says.

We can learn to trust completely and surrender completely to God, to the Father. To leave Him in charge, knowing that there is nothing He cannot take care of. That there is nothing that He can beat us out of. Because most of it we beat out ourselves, Jesus said.

We can come back, to the state of trust that allows everything. To accept all feelings, all emotional states, all states of life.

To accept the ACTUAL state, to accept life and to say YES to what IS.

It is a true virtue to master this, he said. It partly requires a great self-discipline, but this can also be achieved, Jesus explains to us

In the following, Jesus explains principles of life. He explains how isolated and small, incapable and without efficacy, ineffectively thrown on this planet we partially feel as human beings. On earth, where we live our tiny lives on a huge blue planet among quite a few other tiny lives. It may be the case for many that they ask themselves, "What am I doing here? Who am I anyway? What am I doing here? And I, as a tiny person, what am I supposed to accomplish here?" But - Jesus reminds us - this is not our true nature. This is the EGO.

In truth, we came here to experience our glory; to experience our own glow; to be able to feel, through action and experience, in our own bodies, how awesome we are.

This may be a little strange for some to assume that they are fantastic. But we are, Jesus says.

The truth is that it can also be seen as a celebration. A feast to live.

The joy of being able to be here. To have the honorable task of getting things done here and being of service to others.

Connected to each other like the trees under the ground, like the roots of the trees in the forest and the plants, all communicating with each other. And so we can imagine it figuratively for the people who are connected as if by an energy network. We are not separate from each other. If there is suffering in one part of the earth, then we are also suffering when we are on the other half of the globe. In this way, we can exchange information without speaking. We are connected and informed about each other when we engage in this level. This subtle level of information that gives us concrete information, makes it accessible. We can sense what's going on with someone. Somehow a dull feeling comes over us, or maybe a good feeling.

#41 MESSAGE FROM JULY 05, 2022

THE BLESSED VIRGIN MARY "PRAY AND BELIEVE IN THE GOOD"

The Blessed Virgin Mary appears. The visionary first receives a personal message.

A vision begins.

The Blessed Virgin Mary is seen gathering a crowd of people behind Her. She gathers Marian devotees, the faithful from all over the world. Small nests of believers develop, shining like strings of lights gathered together. All the faithful follow Her, trusting that She knows the direction and the way. We must not lose faith. It is very important that we remain steadfast. Mary will always show us the steps and never leave us. We should always keep this God trust and activate it.

And when we lose it, when we notice this, we should turn to Mary so that she can refresh our trust in God again. She knows that from our perspective it all looks difficult, impenetrable, confused and unmanageable, but that from her point of view it looks quite simple and that the way is quite clear.

The visionary hears Mary say again and again, **"Warnings!" "Warnings! Warnings of storms, warnings of scarcities. Warnings of death. Warning to starve, to die of thirst. My warnings go unheeded.**

Too few believe my words. But let me tell you - I speak the truth. I warned you of war, of the expansion of war. You are standing at the threshold before the expansion of war!"

An image appears before the inner eye. It shows a foot crossing a line on the ground.

"It's just one more small step across the line. The next step you take will cross the border. Beware!" "Be warned, my children. Be warned to build each other up in hatred and agitation. Be warned, be warned not to condemn your brothers and sisters all over the world and to consider them as separate from you. For are you not all one people? Are you not all one family, one human family?"

I will say it again. It can be averted. It is not necessary. You do not have to go through this extreme experience. It's your choice. Don't you understand that? It is the choice that you make. Even if it is the choice you leave to others who can supposedly decide your fate. Not choosing also means choosing.

Who started it? Who made the first mistake? Who provoked whom? Do these questions really help you to make peace? Is this helpful in making peace between countries? I know it scares you and I know it is a special time. It's a difficult and dark time, but in God you can find your harbor.

Cling to the Father, the Creator of all being. In Him you will find the peace you all seek. In Him you can find the love, the brotherhood that you miss so hardly. And once you have found it in Him, you can pass it on. Find the love within you. Find your way back to your self-love, to the love of life, to the love of the Father, in the love for the next. And so it will be easy to be peace itself.

So it will be easy to speak peaceful words, to speak peaceful thoughts. You underestimate your ability to create good. Recall your ability, your love, which flows out of you that gushes out of you like an infinite spring. It is the Father's love that gushes out of you into the world. Find your way back into connection. Find your way back into prayer. Find your way back into prayer with several who have such great power. And if you can, find yourself with a great crowd. Gather together and shout it out! Shout the prayers into the air, into the sky, with confidence, that the prayers will be answered. Shout it as loud as you can so that it is heard everywhere. In this way your Father will hear it too. And whoever shouts so loudly cannot be overheard. Not even in Heaven, as you call it. Be sure that every good prayer arrives at the right address. That every supplication, every prayer counts that contains good wishes. Good wishes for health, peace, joy, but also peace for whole countries, every good prayer, every good thought counts.

Don't think that it will be lost. It has an effect! It is so important that you understand this. It's like putting it into an account. So deposit! Pay in and pray. Pray for good and assume that your prayer has already been granted. And so you can keep it in all things, in all things that you need, or that you think you need. Assume, that it has already been done, that it has already been acted upon. And so let me ease your hearts in prayer, if you turn to prayer with all your heart and open yourselves, open your soul, open your heart, I can relieve you of everything that you no longer need and you will feel as light as a feather. A feather that flies away in the wind, carried and safe on its way through the air.

And so I ask you - don't give up! Do not let go of believing in the good, do not let yourselves be lied to. The truth lies somewhere in between, so they say. The truth is between the lines. And so you can check it out for yourselves, so you can read the truth between the lines."

In the name of the Father and of the Son and of the Holy Spirit. Amen.

#40 MESSAGE FROM JULY 04, 2022

JESUS CHRIST "THE DISINTEGRATION OF THE CHURCH & THE DEATH OF THE POPE"

Jesus appears as before with shoulder length brown hair, dressed in a long white robe; altogether very plain. He emits a strong white light.

The apparition begins with the first vision. A small group of men can be seen celebrating, jumping in the air with joy. They are raising their arms in the air. They hold up a cross that shines very brightly. As if it were made of matter and light at the same time. The scene is comparable to athletes celebrating their triumph and holding up the trophy. With arms outstretched, the men jump up with the cross in their hands as if they were holding a trophy. As rays of sunlight hit the cross, it casts even brighter reflections of light. Suddenly, without notice, they ram the cross into the ground the wrong way up.

Jesus now speaks, ***"Today's message is not a pleasant one. Prepare yourselves."***

Jesus asks to pause for a moment. [Note: Which is very out of character.]

Another vision begins.

The inside of a very long church appears before the inner eye, the aisle to the altar.

It is about the theme of betrayal in the church.

Jesus says, "Come! I'll show you something."

Again, Jesus leads the visionary into a tunnel of light. They go through time and have gone relatively far back in time.

Jesus shows the scene of the Last Supper.

Afterwards, they are at a wedding where He has multiplied the wine. There are also roasted doves to be seen.

Here it is symbolically also about the holy covenant of marriage.

Jesus lays His hand on the forehead of the visionary and she now falls deeper into a trance.

Within a vision a part belonging to her is brought out of the seer, who in other times would have been called a witch. It is in this case however no negative occupation (connotation), but a kind review into past times. She sees the "witch" being burned at the stake.

This witch burning was by a higher ranking member of the Catholic Church perhaps a bishop. In this vision, this bishop appears as an elderly, hard and domineering man with gray hair and sharp facial features.

He is holding a golden staff in his hand and with it he knocks on the ground and thus seals his judgment.

In a smooth transition, he becomes another bishop with glasses. It seems to be a symbolic representation of the fact that the church, over the course of its existence in this and in other ways, has done much damage that was decided from a human perspective.

Thus, many people have suffered and come to harm as a result of decisions made by the Catholic Church.

The visionary sees different persons and religious of the Church, in different time, standing in a church and holding up a Bible.

It is to be understood symbolically to be understood.

They stretch their arms to heaven, they sway back and forth, as if they were searching the way, as if they were calling out to God to show them the right way. However, a staggering in the movement reveals that they have departed from the original meaning, e.g., of the original texts. They seem to have twisted Jesus' words. There were religious high up in the hierarchy who made decisions for their own benefit and not to exalt God, or to make clear what Jesus wanted or his disciples, but to stand in the right light, to shine themselves.

Such an office also demands a lot of inner modesty, a humility to be able to step back from one's own ego again and again, to reflect and to see this role that one occupies independent of one's own person, Jesus says. He says that there have been representatives of the Church who have failed grandly at this. Who, because of their own ego, their own interests, or even blindness, have failed grandly in passing on Jesus' true aspiration. In this way, over the centuries, a kind of negative spiral has developed, which goes and confusion, in the hierarchies of the church and its system of values. These aberrations have become more and more developed, so that somehow some moved away from what Jesus actually wanted to say. In the internal structure and in the external representation, many mistakes were made. Jesus is very anxious to lead these people on the right way, who still keep it that way today, believing that what they do is right. Without malicious backgrounds.

Some are more, some are less receptive to these suggestions.

This has been a very long development, a long history that has led to this point nowadays. So it has also led to a certain insincerity being felt by the population and the community and people are less attracted to it, because it's partly a departure from what the people themselves feel, what they themselves know about Jesus. As if the existence of the church is an end in itself. There is a discrepancy there, which leads to, that people turn away from the church. Jesus explains that this is how His values have been lost, not passed on quite correctly. What the church is based on today is doomed to failure in the end. It needs a Purification, He says. This means that the system of the church will collapse. And this does not mean the Church members who are pure of heart and work with clear intention in Jesus' name.

But there are also other "candidates". This is how the seer is told.

Jesus becomes clear: **"There will be a complete collapse of the church."**

This will, but does not mean that there will be no believers. And ultimately it is a good thing because it is not based on truth as it is now.

It needs a major overhaul, which can only be accomplished by setting everything to zero. But there will be those members of the church of pure heart who will not let themselves be deprived of continuing to preach, and with their help a kind of new church structure will be built later, with those who preach the truth but who do not pursue self-interest. This is important. Those are the ones, or will be those who only strive to pass on Jesus' truth and to spread and live his words.

These priests and others, are in great danger, because they are a thorn in the eye of a very specific person. The seer hears again and again that there will be persecutions of such priests, or even of the people who stand up for Christianity. But Jesus urges her not to be deterred by this since they have their home in Him. Some of them will die for their faith but will be caught by Jesus.

Those who feel addressed by this have a hunch that they might be meant. Because they have felt this call within them for a long time, because they have known it inwardly for a long time that they will die for it at some point.

Just like the current Pope Francis, who will die for his faith first and foremost. Jesus affirms that the Pope knows this and he is preparing for it. He is at peace with the idea to give his life to Jesus.

He will be immediately received by Jesus on the other side. So there is malice brewing in the background that wants to silence the church.

This wickedness is also working to keep the church entangled in itself and to tempt the dignitaries into temptation.

Jesus: **"Go in peace!"**

In the name of the Father and of the Son and of the Holy Spirit. Amen.

#39 MESSAGE FROM JUNE 10, 2022

JESUS CHRIST "ARTIFICIAL SCARCITY & THE NETS OF THE ANTICHRIST"

During the prayer group when the seer was praying along loudly, Jesus Christ appeared and put His arm around her. Immediately the trance began.

Jesus said, **"You asked me for help and here I am. Are you ready for the message?"** Seer: "Yes."

Jesus: **"I am Jesus Christ, my child. I am your Lord. I am your shepherd. I am Jesus Christ. I want to take you on a journey today. It may astonish you."**

As always, He enters a kind of light vortex of swirling white light in which various colors flash. He stands in it and reaches out his hand to her. They walk through time.

Jesus: **"I want to show you something. Come. Follow Me."**

They are in a desert. There is a lot of sand and a cactus. Jesus opens a door in the scene, as if going into another dimension.

The visionary tries to step through this crack, but she can't see behind it or follow Him. Jesus has gone through and come out again.

Jesus: **"What do you think it means?"**

Seer: *"I don't know. (laughs) That there is another world behind the world? That there is a visible realm and an invisible realm? But I am basically well acquainted with that. I suspect that you were trying to say something else with that."*

Jesus: **"What do you see?"**

Seer: *"It looks a bit like a theater play. I see sand, cacti, the sky, and a rock. It looks like at the end of the True Man Show [note: a movie]. There's the landscape painted on the wall, like it's the landscape, but it's just the scenery."*

Jesus: **"What do you feel?"**

Seer: *"Well, just seeing this scenery that looks like a theater play ... I'm irritated yes."*

On the wall there seems to be a double door. A part of this door opens a little bit and the painted on goes a little bit forward and behind it you see the light. There is a bright light coming out.

It looks like He is trying to tell us that we are all in a play and that things seem different than they are. That there is a truth behind things that is basically invisible to those in the play to us. There is an even higher truth that is different than we make it out to be or understand in our reality. Now the picture begins to crumble, as if this background on which the landscape is painted is made of stone that is crumbling and falling down. It rolls down really fast, so the picture is no longer really visible. All that's left is the ground and a banner, a transparent curtain on which this landscape is painted.

The curtain blows slightly, so that you can guess that there is something else behind it. The curtain now lifts a little bit, so that you can see that there is something else behind it, but it is not clear what it is. It seems as if the veil would be lifted in the figurative sense for us humans - as if truths and backgrounds would come to light. These are not so much human truths, but much more cosmic truths.

As if mankind would be brought closer to the truth of its existence. Beyond all nations and laws, human cultures etc., beyond being human.

As if knowledge would be given to us.

Jesus: ***"Very good! Come along. The higher connections of your situation will soon be understandable to you."***

The picture changes. The seer now sees a hot spring. It is a very beautiful water, like a round basin, a bath. People are bathing in it.

Suddenly the water becomes hotter and bubbles more.

It becomes too hot to bathe in. The seer has the impression that it is happening in the USA.

It is a warning. It's about the sulfur concentration. The authorities have to close these springs because it is getting too dangerous to bathe in. There seems to be subsurface changes that are leading to this. No time period is given for the increase in sulfur concentration.

Again the picture changes. Now a wheat field appears. The grain is being weighed by the wind. Again, this is a warning that the wheat will run out, or there will be a shortage.

It seems to be global, but will not affect every country. It is an artificially created shortage.

There are people in the background working on certain plans and they have pulled many strings and let their relationships play.

It acts like a spider's web. A web of allies who are all working towards a certain goal and that obviously includes the artificial shortage of wheat, or food.

It affects many countries. [Note: In some places, this development has already begun.]

How people are doing doesn't matter to these people. Whether they starve miserably, however they come to death.

The fate of the individual people is completely indifferent to them.

They are striving for something specific. They have inhuman, human--despising plans and every means is right for them, in order to convert these plans, in order to arrive at their goal.

All this ultimately serves the Antichrist. Slowly and gradually he rises, but still "in slow motion".

He does not show himself yet, but he is there. He has positioned his chess pieces in a well--considered way.

He waits until the time is ripe. Everything is very well prepared.

Those who pursue evil plans in the background believe in "science". They are convinced to do a service to mankind. It is a twisted and deluded worldview. From their point of view, it is not evil. Rather, they believe they have to help humanity get to the next level of evolution.

This, they say, involves connecting humans with technology. It's as if they're saying, "This is now; this is the step that needs to be taken."

This is the progress." In their belief, this would make us all "better people" -- optimized, flawless. We could be re--engineered like computers. That's kind of the thinking.

Jesus says to this: ***"This way of looking at things, this approach undermines creation, the Creator. It puts itself above the Creator and this circumstance opens new doors for absolute evil. It is not that the people who pursue these plans are evil in themselves. They believe what they say is now necessary and right. That we all need to be optimized. But by this ignorance of the divine creation, the laws of creation, the divine order, it opens doors for real evil."***

This is also an urgent warning from Jesus to beware of this development, because creation must not be touched. It is holy. It is in divine order as it is and it does not need to be optimized. And if there is something that can be healed, that needs a change, it happens exclusively through God. Only through the one God. There is only one God. Jesus warns against having anything implanted or implanted. Unless, as before, you need implants, prostheses, a bypass for health reasons, for example. Things that restore health. The warning refers to it itself microchips e.g. under the skin or into the brain to let insert!

The plans for such a change at the human being are there. Jesus warns against joining this trend. He asks not to do it.

To leave the body intact, untouched by such technical changes. He makes clear, who joins this, is more easily attackable by the darkness.

It opens a crack to the darkness and that is very dangerous.

Jesus now goes into the subject of "false prophets". He predicts there will be false prophets. They will try to lead people in the wrong direction. But these prophets are not telling the truth. They are not prophets sent by God.

They are not prophets working for God. They are there to lead astray. To lead astray, to cause confusion. But these false prophets can be recognized.

They leave you with an uncomfortable feeling. This is the sign to watch out for. If the hair stands on end at what they say, if the love of God is not conveyed through the message, it is the mark of a false prophet. This seems to be a kind of preliminary stage. The false prophets are literally "mushrooming" everywhere. They are preparing the way for the Antichrist, who is already lurking in the background.

He is already quite close. (The seer gets goose bumps.) He is there, waiting for the appropriate moment to enter the stage.

She sees a very frightening image. In the foreground is a rather lumbering creature with multiple curved horns. It walks slowly. In the background there is a giant horned beast in the fog. It looks like the devil with black horns and glowing eyes. It is repulsive.

In this picture it is still stuck in a kind of box. It is emblematic of the Antichrist, who moves slowly upward, but has little freedom of movement. Jesus takes the visionary again, puts His hand on her shoulder again.

Jesus: ***"Come, rest again. Thank you for your time. Thank you for allowing Me to speak through you. Thank you for all your efforts. I am very pleased. Rest now. In the name of the Father and of the Son and of the Holy Spirit. Amen."***

#38 MESSAGE FROM MAY 16, 2022

JESUS CHRIST "WORLD WAR 3?! PEACE IS POSSIBLE!"

The Blessed Virgin Mary is already present during the prayer group. The seer had the impression that she wanted to convey another message. The apparition, the room and those present are sprinkled with holy water to test its authenticity. The appearance of the Mother of God remains.

A vision begins. Maria stands at a hedge in a lush rose garden and looks around the garden. The scene seems to take place in Maria's parents' house. She is still very young, childlike and naive. In the background there is an angel with a trumpet in his hand who approaches her. It appears to be Archangel Gabriel. The vision shows Mary at a time in her life when she did not yet know where she was going. Jesus is not yet born. The scene shows that he had already visited Mary in silence before her conception and role as the mother of Jesus, as the Mother of God, without her knowing about it. The archangel Gabriel approaches her, but remains in the background. He obviously already accompanied and protected you at this time.

[Seer's interpretation: Such visions usually have a certain meaning for us. Here it expresses trust, trust in God and being protected. Even at times in our lives when we don't know or suspect anything about it, we are accompanied and protected by God and his luminous helpers. It is a very beautiful image that everyone can transfer to themselves. This protection and accompaniment are always there, without us perhaps hearing big words, seeing special signs or being able to perceive the spiritual helpers ourselves. We can always trust that they are around us and care for us.]

After this short scene in the rose garden, Jesus' cross appears again and again as an image in our mind's eye. It is simple and approachable.

Now Jesus Christ appears in himself. Classic with shoulder-length dark hair and a white robe. His presence makes you want to prostrate yourself before Him.

Jesus now says:

"You asked me for help?"

Seer: "Yes, I have."

Jesus: **"Are you ready?"**

Seer: "For...?"

Jesus: **"Don't you trust Me?"**

Seer: "Of course! Yes I am ready. Ok."

[...personal messages...]

Jesus continues: **"Now to the prophecy."**

He now adopts a slightly sharper tone: **"Yes,... peace... That's one of the things about peace, isn't it?! How nice it would be if everyone lived in peace. Don't you think so? But those up there move the switches, they have the longer levers. I have no power there. I can not do anything.**

I don't have the upper hand, as a small person. How does that sound to you?

Nuclear war, should we prepare for that now? Third World War, war here, war there. Isn't that scary? My children, that makes me sad.

That you feel so powerless that you don't hit the table and say "NO, we won't do that! We're not going to war! We don't support the war!" Are you powerless?

Is this your true self? With nieces! I want to remind you all that you are created in the image of God, and I also want to remind you that you have a choice. What do I choose?

What does your heart tell you? What does your heart tell you about the truth?

Up and down I preach - listen to your heart - . The archangels, the angels, the heavenly hosts, We all call to you: - Choose wisely!

Seek the truth! - 'and it seems to fade away, like an echo in the mountains that you hear, but it passes.

And you ask yourself: - Oh, did you hear that too?

Now it's gone again - as if nothing had happened. Take heart, my children! Take heart and say - STOP! I won't do that!

I choose something different, even for my people! I belong to this people and I choose peace! - It is an opportunity to demonstrate peacefully, to come together, to stand up for it, to make it clear, to speak out that this is not the right way and that politics is ignoring the citizens.

Yes, the war... You want to know what happens next? Yes? Do you really want that? So many have lost faith. So many have lost trust, are ignoring the warnings, letting the messages fizzle out, or even think they are nonsense. The idea that there is a God.

There are plenty of people who also think this is nonsense. And why turn to someone who doesn't exist?

It's the turning point. You are at a crossroads. Get loud! Say what you think! Show your flag! If you don't agree, don't hide like a mouse in his hole waiting until the tomcat has passed by and eaten another mouse. Let me encourage you to empower yourself, to empower yourself. Do you want to know what is written? How it goes on? This crime story you're living in? I can show you if you want.

Please remember, no matter what happens, I am there.

These dystopian thoughts, these dark premonitions of the future, these fears in the atmosphere, in the space, even in the soul of the people, I feel them and I can take them into my own hands.

You don't have to live like that. You co-create. You co-create reality. And your thoughts and your feelings can feed certain future options or developments. So you would do well to think positive thoughts, for example by imagining that peace reigns. That, as if by a miracle, peace comes to the warring parties and to everyone involved, by imagining it in pictures with the corresponding feeling.

And leave these negative visions aside. It can be averted. I'll tell you again. It is not fixed.

Peace is possible! Peace is possible from now on. When enough people come together, enough people of pure heart, praying together, creating a positive vision together, a large crowd. That can change so much. Become aware that you are helping to shape things through such actions. It is so important.

Please don't forget that. And when I show you now what can possibly come, that doesn't mean it will come. It means that if you continue like this, it will happen then. But if you change it, the future also changes."

The vision follows: The first image, as with the previous presence of Jesus, is an exploding atomic bomb. There seems to be someone who has an interest in seeing this happen. There is an evil force/person/group of people that has an interest in war or nuclear war. This type of “party” has evil ambitions. This association wants to see the world burn. But there is always the question of how much power you give to such “participants”. How much you give them. That doesn't have to happen, but nerves are on edge on all sides.

The second image that appears is bars. You can see people in prison who are very resistant to being there. They are people who are there unjustly. They do not follow a particular ideology that is publicly stated; in that sense they are not “loyal to the regime”.

This is a warning about political developments. That you want to get rid of certain people by putting them in prison.

The image seems very dictatorial. This will be a general development that applies to many countries. Here, too, it is emphasized again that this does not have to happen that way.

It depends on how much the people rebel, whether the people play along or not.

The seer perceives a call to disobedience.

In the third picture you can see a police squadron. Police officers on horses with batons. This police presence serves to intimidate.

Jesus now says literally: ***“The warnings of the Mother of God should definitely be heeded regarding gas, electricity and food, etc.***

It is good to heed this and prepare practically and concretely.

That will come. That is planned. This applies to Germany.

And it is being deliberately and deliberately taken to the extreme in order to have more influence through this emergency situation, among other things, because people are easier to control when they are in fear and have nothing to eat.

These warnings should be taken seriously. Everyone should take precautions as best they can.”

The seer asks Jesus when He will come back, when He will give the warning. He says to connect with each other heart to heart and focus on our inner peace so that we can maintain our own inner peace. This allows us to approach the warning more quickly. But He is not allowed to say exactly when it will be, because this is also a development and it is important that the development happens.

From one focus to the other, from head to heart.

Jesus: ***“I love you, my child. Thank you for your time. Thank you for the space I could have, through your voice, through your body. Thank you In the name of the Father and the Son and the Holy Spirit. - Amen. “***

#37 MESSAGE FROM MAY 15, 2022

THE BLESSED VIRGIN MARY "YOU SHOULD RECOGNIZE THE WOLF!"

The Blessed Virgin Mary appeared before the prayer group and remained present during it. She was classically dressed with a white veil, white dress and turquoise belt. Maria radiated modesty and a very delicate, subtle energy. She feels loving, kind and supportive. The apparition is tested with the water from the Immaculata fountain in Sievernich. She then smiles gently and it feels as if everyone present is enveloped in her love.

The Blessed Virgin says:

“Do not despair, my children, do not despair. Whether the difficult times, whether the bad news.

There is always hope available, there is always a silver lining.

I feel for you, I feel the heaviness, I feel your fear, your worries, your needs.

Don't think I don't notice it. Don't think I'm leaving you alone with this.

Contact me if you have any concerns. I am the mother of all of you and I will take maternal care of you. I will take care of you, I will envelop you. I will comfort you when you cry and I will give you hope when you despair. I will give you peace when you are troubled by inner turmoil.

And I know your minds are already troubled and yet I want to prepare you and I know these changes and the announcements scare you.

And I ask you, who are firm in your faith, not to give up! My children, do not give up! My children, you are the rock in the surf here on earth. You hold the love, you hold the light. You are the lanterns in the dark and you know how to hold that energy, how to let your light shine. And I urge you: remain firm in your faith! Stay steadfast! Stay strong for God!

And with every little gust of wind, with every obstacle, with every little rock or peak that you think you have to climb, that seems too high, ask me for help. Turn to me, turn to my Son and the Father, the Creator of all things. Because He knows the background, He knows the order and He can give you security again.

So stay in faith, my children, and at every little falter, don't hesitate to call me. Do not hesitate to turn to your God, the Father, who has promised to always be there for you. And these are not empty promises. His word is law. So do not despair, my children. You are love here on this earth.

And so many people benefit from you that you can't even imagine. You who are in faith. You who pray, you who want to give your life and your work as a gift to the Creator, to serve humanity, to contribute to the well-being of all. You are the rock in the surf.

Ask for help. Ask and it shall be given to you - in abundance. Don't give in to the idea that the lack exists. It exists for those who believe in it. But be aware, the lack is an illusion. There is enough for everyone. There is more than enough for everyone. Enough goods, enough money, enough love, enough friends, enough food, enough water, enough health. There is enough for everyone. Open your hand, my child, and receive from the abundance of life.

I want to prepare you. I know it scares you, but it's my job to warn you.

I am the Queen of the Prophets, I am the Queen of Peace, I am the mother of all of you, the mother of Christians. And so I want to warn my children. This is how I want my children to be informed.

My children should not run into the darkness.

I want my children to be able to recognize the wolf when it stands in front of them.

My children need to be warned about the darkness, about the storm that is coming.

My children are children of love and the children of love wallow in security if they are ready for it.

My children need to be warned!

My children should know the storms.

I want my children to be able to recognize every little sign when the storm is approaching.

And so I ask you again to have faith and not let yourself be made to waver.

Thank you, my children.

Thanks for your trust.

Thank you for taking the time to listen to my words and for giving me your hearts.

Amen"

#36 MESSAGE FROM MARCH 19, 2022

JESUS CHRIST "THE BEAR, WHEAT, GAS AND ROCKETS"

During the prayer group, the seer sees a cross made of white light floating in the room, which is beautifully decorated.

Radiant struts emanate decoratively from it and in the middle is a kind of radiant gemstone.

When Jesus appears, she feels the need to prostrate herself. And although there is something powerful in His radiance, it is still a gentle atmosphere. He speaks to her with soothing words and tells her that He wants to take her with him to show her something.

Jesus speaks to her the following words: ***"It is approaching!"***

The seer associates this with the warning that has been announced several times.

They walk together through a winding tunnel of light, as if they were moving through time.

She sees a hill and how he hangs on the cross there. He seems desperate, as if he were accusing God. He says: ***"Father, why have you forsaken me!"*** It feels alone and abandoned, like the hardest hour. Jesus shows her his death on the cross. The "zero hour", as if the world stood still.

A light falls from heaven onto the cross. People come to mourn Him, to regret His death.

Jesus repeats twice: ***"This is very important now!"*** ***"This is very important now!"***

He shows how the people take him down from the cross. The scene changes and they go back in time and various scenes of his ordeal appear. Jesus is whipped, He wears the crown of thorns, He drags the heavy cross. The mockery and ostracism are palpable.

They laugh at him like a clown and spit on him. However, none of this affected him, because internally he only has his mission in mind. He knows what he's doing this for.

He knows that the more he suffers, the better. The more painful and unpleasant it is for Him, the more He can help humanity with it. Jesus is in constant connection with the Father, loving and trusting, so that He can ignore everything else. He is fully aware of what He is doing and why.

By showing these scenes, Jesus wants to tell us that all of this has been forgotten today.

Jesus asks the seer to follow him: **“Come.”**

They pass through a tunnel again. Jesus says: **“Be aware. Be aware of the danger. Be aware of the changes. Prepare yourself. It's not a piece of cake. Changes are coming to you and only those who are firm in their faith can go through this bottleneck with me. Let me show you a few pictures.”**

1st picture: A detonating atomic bomb

2nd picture: Riders on horses

3rd picture: A bear

4th picture: Rocket

To picture. 2 Riders on horses: The seer sees riders on horses wearing helmets. White horses, white spotted horses, black horses.

It looks like a police squadron. It seems like someone is being hunted with horses.

Regarding picture 3 A bear: The bear symbolizes Russia. Putin's face can be seen and it is reported how he feels pushed to the wall.

Putin seems to have “an ace up his sleeve” and when he feels pushed to the wall, he will pull out his “ace”. It is not clear what exactly is meant by this.

Regarding picture 4 Rocket: He presses a button and a rocket flies off, but it doesn't seem to be a nuclear weapon. The rocket flies across the so-called “big pond” to America. This should be understood as a warning from Putin not to mess with him. In doing so, he signals: “I am ready to use these.” He does this out of a calculation. He wants to scare people away.

The vision continues with the USA-Russia conflict. Cities can be seen where the lights flicker, turn off and on.

Certain parts come to a standstill, as if due to an electromagnetic pulse. Such an attack appears to be Putin's future thought process.

He will come to a point where his patience will break and he will want to use these weapons.

He'll probably decide against it, but it's as if his fingers are itching.

A map can be seen, lines radiating from Russia towards Europe. These are the enemy countries, including Germany, which will also be affected. Gas supplies will be cut off from Russia and Putin will stop wheat exports. These are a kind of “bells of respect” distributed by Russia.

Russia is showing its limits and acting quickly.

The seer has the order of events in the visions confirmed again.

First, gas and wheat deliveries to European countries will be canceled.

The long-range missile is then fired towards the USA as a warning.

The seer is made to understand that there had already been a political development by then.

The Russians do this for a reason.

To picture. 1: An attack with a nuclear bomb is the worst case scenario.

The seer asks whether the use of the atomic bomb is definite. The answer is “No”. It is a potentially possible scenario, but one that is getting closer.

The seer asks Jesus, *“Is there anything we can do? Can it be avoided, also with regard to wheat and gas?”*

Jesus answers: ***"The switching off of the gas supply cannot be prevented. The use of the missile and the atomic bomb does not have to happen, but it is becoming more likely as Putin is pushed further into a corner."***

The seer asks again: *"But Jesus, why doesn't he stop shelling Ukraine? I don't understand that."*

Jesus explains the context to her: ***"He defends his borders. Putin feels threatened by Ukraine and its connections with NATO. He thought to attack before he himself is attacked because he can control it more easily. Ukraine is a shaky candidate. It's about global connections and broader connections that led to this strategic move by Putin. For him, these losses are more manageable than if Russia were bombed."***

Seer: *"The whole world is wondering whether Putin has gone crazy and whether he is interested in expanding his tsarist empire. Has he become a warmonger? What is going on?"*

She is told that this is a product of many years in which Russia and Putin were pushed into a corner geopolitically. He has now decided to launch a quick blitzkrieg himself, to take action himself before he has to wait to see what others do, before acts of war come from other countries. He is, so to speak, the first to make his move.

Jesus thanks you.

The seer feels a stream of energy flowing through her forehead and Jesus is helping to direct it in a measured manner.

He says she did very well and it will continue.

#35 MESSAGE FROM MARCH 18, 2022

ARCHANGEL MICHAEL "THE WOUNDS OF THE WORLD SOUL"

"I am here to bring news. News for humanity. I have an important message and I ask you to listen carefully. Humanity is at a turning point, at a crossroads. I am here to bring peace. May I speak through you?"

"Yes."

"You already know this procedure. You have nothing to fear from me."

Archangel Gabriel speaks: ***"Humanity is making a great mistake. It does not recognize its mistakes and repeats them.***

Thus, the exclusion and solidarization with one side is a problematic attitude, because all of you come from unity and maybe you don't want to hear it or maybe you can't you can't understand it, but you are all one. And that's how wars happen time and time again.

Borders are to be protected as well as state interests. Competitive thinking, but also threat and killing never brings the solution.

So you are once again faced with the situation of repeating this mistake. and yet the solution would be so simple.

Have you listened to each other? Have you made an effort to listen to the side of the supposed other party? How does peace come about? Does peace come from incitement?

Does peace come from defamation? Or does peace come about through a peaceful attitude and a unifying and harmonizing language and that of carrying understanding and warmth of heart to the outside world?

And so you are again at this point in history where everything is repeating itself.

Is this what you really need? Is this the war you need in order to understand what really matters?

To understand what the truth is, what your truth is, the truth of your being? The truth in your heart? Do you believe what your heart tells you?

There are quiet voices in society that offer to listen to the other side, to understand the arguments, to look at the whole picture.

We would like to draw your attention to listen to these voices.

Who take a different stance than the one that is mainly spread in the public and is considered the appropriate one, because they offer a solution. This site offers a solution by advocating peace and understanding.

And it is not advisable to irritate the Russian president further, because he knows how to and he stands proudly for his country.

Here comes the question: what is the higher view? What is the truth behind things? And that is not easy to answer.

It would perhaps deprive you of an opportunity to develop yourselves by informing yourselves.

Where is the truth? But I can tell you that the more he is pressured (the Russian president), and the more he is threatened and punished, the less he will put up with.

It is important to enter into peace negotiations from all sides. Each side, which is in any way involved in this process, is called upon to approach the other in peace and understanding and consideration and respect and to make every effort to understand the side of the other.

Yes, the Russian president should do this as well, but so should everyone else, every other party that is involved.

We would like to go one level higher in our consideration here. Away from your earthly level.

We take you one level further up.

What does what is happening mean? What does it mean from a higher perspective?

The visionary through which I am speaking here does not yet sense the message that is about to come.

And yet it is silently enduring this to give me the space to speak with you.

I am the Archangel Gabriel. I am the guardian of the light and I bring the truth.

I stand up for the truth and I help every person on this earth who also wishes to who also wishes to live in the values of truth.

You can call me, you can ask me to help you find your own truth.

And I can also help you find the truth behind what is happening, if you are willing, because it takes a little strength and a little courage. Sometimes the truth is different than we would like it to be, than we think the situation is understand and that's where I help you, I help you.

Well, we were on our way to the higher spheres, above the globe. Imagine that you are near the sun and you are looking at the earth from here. You are surrounded by light and warmth and it is pleasant here. You can imagine being in a spacesuit that helps protect you from the heat.

Or you are in a spaceship, or whatever imagination is comfortable to you. This is not about the scientific, physical occurrences, but it is about the vision. It's about the perspective that we want to take here. So imagine you are very far away from the earth, for example, near the sun, which warms and strengthens your back. You are completely relaxed and look from a great distance at the goings-on on your home planet, the earth. And what do we see here? We see people in turmoil.

We see smaller hotspots, smaller and larger trouble spots spreading across the globe.

And now a being of golden light is approaching the earth. It is even larger than the earth and it is flooding the earth with golden light.

It is there to help. What I want to tell you is that this happening is in accordance with the divine order. It is perfect as it is and you can look at this as a lesson in learning. Or as a chance to rethink entrenched structures and opinions.

The changes that are coming may be uncomfortable and they may upset you.

Yet they will be for your good. Nothing happens that is not allowed and nothing happens that does not contribute to your highest good as humanity and to the highest good of each individual.

So it is my pleasure to tell you that nothing is lost and nothing will be lost. That you are in perfect harmony with the divine will.

Trust that the perfect divine order is at work in your life.

In each individual life and also in the collective. And that may help you give up fear. The fear of losses, of acts of violence, etc. I don't even want to elaborate on that. Fear has dominated your thoughts and it is now time to let go of the fear thoughts, the structures of fear.

Trusting in God that everything is taken care of at any time and that the Creator uses his infinite and loving power to shape all your lives for the highest good.

Life for the highest good. Do not think that there are coincidences here. Do not think that this has not been orchestrated for eons of years, and polished to the smallest detail. Every party on this earth, every party (in the sense of being part of what is happening) is taking a role in the world events to point out wounds of your soul to all of you. And so you can see the wounds of the world soul in yourselves.

Because how many wars already covered this earth since infinite times? How many wars, fights, warlike conflicts, acts of violence? It is an important issue of humanity that requires healing.

Trust yourself that your perception is accurate. Thank you for giving me the opportunity to speak through you, beloved child.

And my name is Archangel Gabriel."

#34 MESSAGE FROM FEBRUARY 17, 2022

JESUS CHRIST "THE JUDGMENT DAY"

An apparition of Jesus begins. He presented the wounds on His back to confirm Him and the lashes that were inflicted on His back.

It feels very painful. First, He delivers a personal message to the seer. Then He continues saying:

"But I do not come only full of praise for you. I also come to give a word of warning. Because of the world situation. Please warn your brothers and sisters about the tsunami, about the storm, about war. War is coming. And it will shake up the earth. But that is not all. You can see the future, my child, and if I may, I would like to show it to you. I will show you something important. I would like to ask that this become the first message you give to Countdown to the Kingdom."

The vision begins.

Jesus is dressed like some kind of king. He has a crown on and a white robe with long sleeves. On the robe is a large golden cross. It is a scene in the clouds with beautiful bright colors in pinkish and yellowish tones and clouds are everywhere. In the back further through you can see implied a bright light, a little door.

This one is a little further away. It is a nice scene with pleasant atmosphere. Behind this tiny gate waits a kind of angel, accompanied by Jesus, who is also in this picture and invites you to enter. After passing through, the feeling changes abruptly. From one second to the other a trance state enters. The visionary is taken along by Jesus and the angel and a lot of love and support emanates from them.

After walking together for a while, the three of them now look into a tunnel of light, which at first looked like a well with a lot of bright light coming out of it, which then turned into a tunnel.

The seer enters another scene where she is not alone. She feels in her back this love and protection that surrounds her.

She is asked to look around.

In this place it is oppressive. It seems like a war scene, as if the war is over, or truce.

The vibration is very low. One does not feel very comfortable in this place, it is unpleasant, rather to run away.

Then there are people on horses and a steam engine. The scenery is reminiscent of the wild west, as if it were somewhere in America.

Perhaps it is about themes, such as war.

Suddenly, a huge beam of light appears from the clouds, breaking through the cloud cover. A very impressive picture appears. You can see how the clouds condense and a ring is formed, from which a huge beam of white-golden light breaks out. Angels with trumpets appear, which stay at this beam of light.

Then the perspective changes and you can see travelers sitting in a lock and looking at this event from a distance.

The ray of light falling from the sky to the earth is apparently visible to the human eye. People get frightened, are quite amazed and run to the windows to observe this event.

The ray of light spreads in waves into the earth and above the earth. It gives the impression that it is what is called the Last Day.

Then a kind of ring of fire wraps around the earth and those who walk in the shadows can be seen. Around them was a dense fog and they resemble zombies. When the light enters, these people who are in the fog, in the shadows, startle. They turn to this light and are torn from their physical shell. They simply fall down dead and the souls are received. They go back to the sky.

Suddenly a huge flaming cross can be seen in the sky, from which light also emanates. People prostrate themselves with their faces on the ground and their arms stretched forward on the ground. A voice sounds from the cross and every person, all over the world, hears this voice. Some are writhing on the ground in agony because this is the moment when one's soul is glimpsed.

There is a huge area to be seen, a field where people have thrown themselves to the ground, praying, cowering. Some immediately fell down dead, left their bodies and ascended to heaven as souls. Then everyone begins to float and a kind of light mist settles over the earth.

It seems to be a cleansing of the earth and the people, an inner cleansing.

One can now review one's life and decide where to go.

Whether one wants to continue living on earth or whether one wants to return to God.

The seer sees people riding slowly on horses and other animals walking around. It is as if a thick fog has taken over America for some unknown reason. It seems to be local and through this fog the light breaks out of the clouds.

This scene and images have ended. The visionary did not understand the background.

Jesus stands before her and places His hands on her shoulders, indicating that what He is saying now is very important. She sees an inner image.

Jesus points to the sky and there is a kind of meteor, glowing reddish. The meteor strikes the earth. In connection with this, waters are poisoned, they overturn.

An image of black water is seen. Whole areas of land wither and spoil because of the poisoned water. There will be crop failures and water shortages because many springs are poisoned.

People will starve or die of thirst. It seems to affect America.

However, those who have a strong connection with God could help through their prayers.

When they pray over this water, it clears up and that seems to be the solution.

The water always turns over after some time because it comes from a certain source and the poisoned water keeps on flowing.

Where it was purified or healed by the prayers, the poison always comes again after a time.

There are corn and maize fields in America to see, the effects on the crops and the problem, does not remain only in America.

If a major section in America cannot produce grain or corn, it affects the whole world because America also supplies everywhere.

The next vision seems to be about mineral resources. A pretty picture of a waterfall with light falling on it is seen.

Under the mist of the waterfall many people are walking, wearing something on their heads, it reminds of the primitive people in South America. They have darker skin, they wear natural fabrics as clothes. They carry something up from under the ground, all this on foot.

If you follow this stream of people, it could be gems that they carry. The seer does not know the background.

These people seem to be under attack. They are a peaceful people and just want to live quietly and do not intend to enrich themselves with the gems. They use them for themselves, simply because it is there. They are green stones like emeralds or jade.

Then they are attacked and they also fight back. They are a fighting people, but they can't fight the attackers.

The attack is about the mineral resources that someone else wants for himself.

The attackers are very fast, like a special unit, moving very fast like shadows.

They disappear just as quickly, leaving dead bodies and taking the stones, mineral resources with them. This is covered up.

They seem to be Indians. One of them runs very fast, has war paint on his face, feathers on his head and all black hair.

"Child of truth, proclaim! Child of sight, proclaim! Illuminate your brothers and sisters with the light of truth. In the name of the Father and of the Son and of the Holy Spirit. Amen."

#33 MESSAGE FROM FEBRUARY 12, 2022

THE BLESSED VIRGIN MARY
"DRINKING WATER SHORTAGE & FOOD PRICES"

At the beginning of the vision of St. Virgin Mary, a cup with contaminated water is seen, which is pushed away again in fright.

The water is not drinkable.

Thereupon Mary is seen - standing on a stone pedestal. Little by little, under her feet, pipes are forming all around her, protruding from the stone. They bring pure water to the surface.

***"Water! Water is becoming a scarce commodity! Prepare for war! War!
The reign, the tyranny of the "health policy" soon comes to an abrupt end. Until an even greater tyranny begins. Let you, do not be carried away to skip actions, alleged compromises, that do not serve your health. God alone has knowledge and power over your biology. The divine order of your cells must not be touched. The "vaccination" deludes you into a security, which in truth is subject only to the divine laws and the glory of creation. Deceit and disgrace lies over your homeland (Germany). Greed and selfishness. Guile and inhuman attitude. The cloak of health protection makes you doubt your inherent wisdom and the knowledge that God alone is your help and your harbor. Why do you not offer Him the respect and trust that has been inherent in you since the beginning of your existence and which is due to Him? Iniquity! Iniquity, my children. Iniquity has entered. Knowing fully well the betrayal of God's creation."***

"Water!"

Mary speaks a warning about water - about drinking water. She speaks of groundwater contamination.

"Warn people of a shortage of drinking water. Prepare for such an emergency. Parts of Germany and neighboring countries will be affected."

Prepare for poverty, ... for hunger! Food prices will skyrocket. Parts of the electricity and gas supply will fail. These circumstances will be artificially brought about."

My children, hear my call. Hear my words of warning. Soon the time will come. Believe my words. Trust in my words."

The emergency will begin soon!"

Hear my words and prepare yourselves for the willingly, knowingly brought about circumstances. But don't let your heart become heavy. Trust in my everlasting help and in the everlasting, infinite, unconditional love of God, your creator."

Help will be provided. You will not be alone and God will provide possible solutions. However, a great suffering will come upon the people who are not in faith. Because they have forgotten to entrust themselves and their lives to God. And in times of distress, when help is especially needed, the despair is great."

And yet help is near for those who are firm in faith. So don't feel alone or abandoned, because you are never alone or abandoned."

It is not possible at all. It is possible only in the illusion of being abandoned by God. An illusion that you can choose and an illusion that you can also choose to leave. So don't despair because of the bad news that I bring you today, because help is near.

In the name of the Father and of the Son and of the Holy Spirit. Amen. Go in peace."

#32 MESSAGE FROM FEBRUARY 02, 2022

THE BLESSED VIRGIN MARY "PRAY FOR PEACE"

Dressed all in white with an expansive gown, the Blessed Virgin Mary appears.

She has lowered the gaze of her youthful face and appears sad.

Mary has a golden crown on and a small white lace collar on her neck.

"My mother's heart is crying," she says.

When asked why she is sad, she conveys her message to the visionary in the form of visions and images.

Images of tanks appear. The military of an unnamed country is getting into position in a heated, tense mood.

This army does not want to go to war. This is clearly perceptible.

The political situation is very tense.

Children can be seen at the edge of the scene. Adjacent to the military area is a settlement.

A child looks through a fence at the military activity. From the child's perspective, more tanks can be seen.

This military seems to be getting ready.

"Maria, what is that?" It feels like the Blessed Mother's heart is heavy as she observes her children preparing for war.

"Blood will be shed, but it can be averted."

The military seems to be positioning itself unwillingly and defensively to defend itself.

It is a large army.

Mary has now changed her appearance. She carries on her left arm the Child Jesus and in her right hand a scepter.

She points to the sky to a great bright light and a white dove comes out of it with an olive branch in its claws. She receives the dove and passes it to a man. The latter takes it and leaves with it.

Now a bundle of these branches tied together can be seen. Two branches which cross each other at the ends.

"I am the Queen of Peace." She wants us to know: We can turn to Mary for peace.

She shows herself with the light in the background and there comes again and again the image of the dove emerging from the light.

It indicates that war can be averted. This sign of peace is to be understood in such a way that she again points to herself as the queen of peace, whom we can ask for help in matters of peace.

Now there is an image of a child in pain, kneeling before Her, asking for help, and Mary shows him grace and envelops him in light.

If we ask her, she helps us, is to be taken from this picture.

The radiance changes and it floats. The light behind her shines even stronger and it seems very powerful.

So that one has the need to prostrate oneself.

Here she demonstrates her power, which we can believe in. She wants us to understand how much power she has.

Power that she wants to use for us. An option of the future is shown, which does not have to occur in such a way; is invertible.

It is again military to see in defense. There is a very tense atmosphere in the air.

One waits to see what the other side will do. This big army is waiting for the next moves of the enemy. As in the movie, you see a scene of someone opening the lid of a red button and pressing it. This symbolizes nuclear weapons. Flying missiles appear.

On the part of President Biden (USA) there are plans to use these weapons against Russia.

It is clearly noticeable that President Putin absolutely does not want to wage war.

He has absolutely no war ambitions. He is defending himself and his country.

You see bombs falling into houses, foreign troops marching through cities shoulder to shoulder. These events are turning the whole world upside down. It has global implications.

When there is war in Russia, famine and a great death of children follow there.

In the course of this war, the Kremlin keeps making peace overtures, emphasizing that it has no interest in war.

Putin keeps bringing up that his conditions are reasonable and not in any way too lofty.

If these are met, then there is no reason for war.

On the part of the USA it is noticeable that Biden, however, is not concerned with the content, but with waging war against Russia.

It is becoming apparent that there is someone above or behind Biden who wants this war for unknown reasons. Biden is a puppet for someone unknown in the background.

Maria emphasizes: Mass death, acts of war and the use of nuclear weapons can be completely averted. It is not inevitable that this scenario will occur. This future option represents the worst possible course of events.

Our Lady emphasizes that if we turn to Her with our prayers for peace, She will help us.

She will forward our prayers to God and use them for good. She is very pleased with the prayer group, very satisfied. She asks us to continue it.

If we continue to pray as we have been doing, it will have a great impact! And if all the members of the prayer group would be willing to fast 1 or better 2 days a week bread and water (or sometimes light food), it would help a lot.

She asks for 5 mercy rosaries daily. On the days of fasting, Our Lady asks for chastity. If we can do all this, we will also make Jesus very happy and make His heart shine. This is what She assures us. You ask for an additional short prayer for peace during the prayer group.

In the delivery, we are to explicitly say that it is for peace. When we have finished the three months of prayers for Germany and Austria, we are to begin the prayers for Russia.

In the name of the Father and the Son and the Holy Spirit.

#31 MESSAGE FROM JANUARY 06, 2022

JESUS CHRIST "WHO IS READY"

Jesus shows up with shoulder-length hair and a white robe. He radiates a bright light. A white, large cross of light appears and alternately Jesus again.

Then a golden cross with a swirl in the center appears, announcing the beginning of a vision. In the vision, Jesus is standing in front of the mountain where He was crucified, surrounded by a huge flock of sheep that He is tending.

He sends the sheep running off in the direction of the mountain. The visionary sees herself going up the mountain, but not as a person, but the outline of herself surrounded by a white-golden light, also herself shining and surrounded by a glow of light.

[...personal communication...]

Relatively far up the mountain, she feels that she no longer has the strength to reach the top, but then Jesus appears from above.

He reaches out to her. She grabs his hand and is pulled up.

At the top, relief spreads. A large golden cross stands there in a light and bright atmosphere. It is an uplifting feeling to have arrived there. Looking downhill, a large crowd of sheep can be seen running up the mountain.

There is a sudden turn. Below the mountain, chasms open up, as if the earth is collapsing around the mountain. Everything that is not on the mountain falls into the abyss. But all the sheep that want to go up the mountain reach the top.

Now a special event announces itself. A kind of whirlpool appears in the cloud cover. It is as if Jesus is speaking to each person in the world individually and His voice is heard everywhere. It feels a bit admonishing. As if He were speaking to people's consciences.

As if He were saying, "Look where it's going if you keep this up!". Apparently, people are divided into groups. However, it is a Divine distinction, according to Divine categories and criteria. Proverbially one could say: "The sheep are in the dry."

Thereupon, something passes through the people and possibly the earth itself. Something is happening at time. It has not become quite clear what exactly.

In the following relatively dramatic pictures are to be seen. The earth opened up and all those who are not on the mountain, i.e. all those who are not in Jesus' favor, who do not meet His standards, fall into the abyss. Also those to whom He does not grant His favor.

This is to be understood figuratively, that there will be a kind of warning, where categories of people will be created, according to Divine standards. In this process, one can classify oneself, but one will also be classified. All those who decide otherwise, or those who are sorted out because of their deeds and state of mind, their end has come.

The sight is impressive, as if you are standing on a very high peak and the landscape at the foot of the mountain collapses.

It becomes empty on earth. After this event, there will be only those who are pure in heart. Up to that particular point, it is a process that takes place over a long period of time. A kind of purification process. This is also about seeing who is willing to accept hardships.

Then Jesus begins to speak:

"Who is ready to leave something behind?

Who is ready to fight for his truth, or to stand upright for his truth and to stand up for it, whatever the consequences may be?

Who is ready to stand up for himself in such a way that he is scolded for it - ostracized?

Who is ready to give up his wealth? Who is ready to give up privileges, his status, his position? And to let the highest good, become the truth, in place of possessions, possessions and status symbols?

Who is ready to leave possessions behind?

Who is willing to live in humility and poverty and commit his life to higher values?"

It may be that you discover this anew in yourself, that you own these priorities.

That it wasn't even necessary to live this way before. You may have come to wealth and prosperity through hard work, but it occurs to you that there is something that has a higher value.

We are all called to examine our values, whether we really live our values.

What are our values and are we living by them? Or are there values that we might want to put in a different place? Do we notice that some values are more important than others?

Do we want to restructure our values? Do we even want to restructure values of society? Values that are based on divine principles.

"The protection of life. The value of life. The value of being born.

But also truth, sincerity, fair behavior, fairness, community, charity, helpfulness.

Human values like closeness, warmth, togetherness, love, faith, practicing faith, these are examples. There are an infinite number of other topics that need to be considered.

Economy, how do we want to live economy? What does money mean? What is money actually?

Are there other ways to reward work? What does work actually mean? What does serving mean?

At the center of these questions is service to others. The selfless service.

Because when everyone acts like that, there are no wars, no greed for power, no fights, no competition. Then there is only togetherness, for one another."

[...personal communication...]

Jesus makes the sign of the cross and leaves.
